STAFF REPORT

Meeting Date: January 13, 2020

To: Honorable Board of Directors

From: Greg B. Galindo, General Manager

Subject: Proposal from Tri County Pump Company for the Setup and Rental of Water Capture Tanks at the District's Groundwater Treatment Plant

Purpose -To have temporary piping and tanks in place to capture water from the District's
Well No. 5 upon start-up of the well's new pump.

- **Recommendation** Authorize the General Manager to proceed with work as proposed by Tri County Pump Company for the setup and rental of water capture tanks at the District's Groundwater Treatment Plant for an amount not to exceed \$20,000 (includes contingency).
- **Fiscal Impact -** The cost for these services is a BPOU Project expense and shall be 100% reimbursed by the Cooperating Respondents.

Summary

District's Well No. 5 recently had the following work performed on it by Tri County Pump Company:

- Mechanical brushing of the casing to remove scale encrustation.
- Mechanical dual swab of the casing with airlifting to further remove scale encrustation and clear louvers.
- Video inspection of the casing after maintenance work.
- Replacement of the pump bowl assembly with a Goulds pump bowl (4-stage).
- Replacement of the pump column with new pump column and line shaft (approx. 290 feet).
- Replacement of the pump discharge head to allow for vertical line shaft and motor mount.
- Replacement of the submersible 300 HP motor with an above ground 300 HP motor.
- Installation of 300 feet of ¹/₄-inch stainless steel airline for easier water level monitoring.

There was also work performed by Staff and the District's electrical contractor, Hunter Electric, that was completed after Tri County was done with there work. This work included installing a water lube line for the new pump and wiring the new motor to the motor control panel. Now that all of the work is complete staff is prepared to put Well No. 5 back online. In order to do so, we will need to perform sampling of the well before it can be pumped through the treatment systems. With that said, we need to capture and retain water on-site since the District cannot discharge untreated water to LACFCD's channel that is adjacent to our plant. Discharge to the channel poses an issue due to the contaminants of concern. To enable capture of water from Well No. 5 on start-up, staff requested a quote from Tri County Pump for temporary piping and tanks to capture Well No. 5's water in order to complete the necessary water quality sampling. The quote from Tri County is attached for your reference.

Recommendation

Staff recommends that the Board authorize the General Manager to proceed with work as proposed by Tri County Pump Company for the setup and rental of water capture tanks at the District's Groundwater Treatment Plant for an amount not to exceed \$20,000 (includes contingency).

Fiscal Impact

Due to the contaminants of concern, the District cannot utilize its general NPDES permit to discharge water from Well No. 5 and thus is required to capture and retain water onsite to perform the start-up and sampling of the well. With that said the cost for the work proposed by Tri County is a BPOU Subproject expense is 100% reimbursable by the CRs in accordance with the 2017 BPOU Project Agreement.

If you have any questions on the information provided, please feel free to contact me.

Greg B. Galindo

STAFF REPORT

Meeting Date:	January 13, 2020 Water	
To:	Honorable Board of Directors	
Subject:	Leases of Main San Gabriel Basin Groundwater Production Rights	
Purpose -	To lease out 800 acre-feet a year of Main San Gabriel Basin (Basin) Groundwater Production Rights, which are over the District's needs.	
Recommendation	 Three separate Board actions: (1) Authorize the General Manager to enter into a Lease Agreement with the City of Industry for 300 acre-feet of 2019-20 groundwater production rights at a rate of \$780.78 per acre-foot. (2) Authorize the General Manager to lease 300 acre-feet of 2019-20 groundwater production rights to San Gabriel County Water District at a rate of \$780.78 per acre-foot. (3) Authorize the General Manager to lease 200 acre-feet of 2019-20 groundwater production rights to San Gabriel County Water District at a rate of \$780.78 per acre-foot. 	
Fiscal Impact -	 These actions will result in payments being <u>made</u> to the District in February 2020 as follows: (1) City of Industry in the amount of \$234,234 (2) San Gabriel County Water District in the amount \$234,234 (3) Valley County Water District in the Amount of \$156,156 The revenue from these transactions will total \$624,624, which will offset the cost of water leases in 2020. The projected total expense for water rights leases in 2020 is \$441,970, which is consistent with the 2020 proposed Budget. 	

Summary

In November of this 2017, the Board approved a three-year lease agreement with Canyon Water Company to lease 1,000 acre-feet (AF) a year for a three-year period. At that time staff informed the Board that of the 1,000 AF, the District needed only a portion of those rights to cover its projected overproduction for the each of the production years, and that the remaining acre-feet could be subleased to the City of Industry Waterworks System (CIWS) and other producers if necessary. By leasing in production rights over the needs of the District, allows the District to lease out what is not needed on an annual basis. This practice allows the District to adjust the amount of production rights lease market.

As the manager and operator of the CIWS, annually District staff recommends leases of water rights to the City of Industry, in an effort to reduce the cost for pumping water that is over the CIWS's annual production rights. The Canyon Water Company three-year lease agreement that the District has secured not only meets the annual needs of the District but also of CIWS.

The proposed leases to San Gabriel County Water District and Valley County Water District provide revenue to offset the expense of water rights leases, so that we stay within our proposed Budget for 2020.

Fiscal Impact

The recommended actions will result in payments being <u>made</u> to the District in February 2020 as follows:

- (1) City of Industry in the amount of \$234,234
- (2) San Gabriel County Water District in the amount \$234,234
- (3) Valley County Water District in the Amount of \$156,156

The revenue from these transactions will total \$624,624, which will offset the cost of water leases in 2020. The projected total expense for water rights leases in 2020 is \$441,970, which is consistent with the 2020 proposed Budget.

Recommendation

As separate action items, Staff recommends the Board:

(1) Authorize the General Manager to enter into a Lease Agreement with the City of Industry for 300 acre-feet of 2019-20 groundwater production rights at a rate of \$780.78 per acre-foot.

(2) Authorize the General Manager to lease 300 acre-feet of 2019-20 groundwater production rights to San Gabriel County Water District at a rate of \$780.78 per acre-foot.

(3) Authorize the General Manager to lease 200 acre-feet of 2019-20 groundwater production rights to San Gabriel County Water District at a rate of \$780.78 per acre-foot.

Mr. Jose Martinez General Manager Valley County Water District 14521 Ramona Blvd. Baldwin Park, CA 91706

RE: LEASE OF MAIN SAN GABRIEL BASIN GROUNDWATER PRODUCTION RIGHTS

Dear Mr. Martinez,

This letter serves to confirm Valley County Water District's (VCWD) interest in leasing 2019-20 Main San Gabriel Groundwater Basin groundwater production rights from the La Puente Valley County Water District (District). At this time, the District has 200 acre-feet (AF) of production rights available to lease to SGCWD. The District is prepared to accept an offer to lease these rights at Ninety-One percent (91%) of the Tier 1 Untreated Water Rate charges per AF set by Upper San Gabriel Valley Municipal Water District for 2020. The cost per AF for the lease shall be calculated as follows: (Tier 1 Untreated Water Rate $\$858/AF \times 91\% =$ lease rate of \$780.78/AF). The total payment for the lease of 200 AF shall be \$156,156.00.

Enclosed, is the Temporary Assignment or Lease of Water Right document. If you are agreeable to this transaction, please have the proper designee sign and notarize this document and return back to the District. Upon receipt, we will forward the document to Watermaster for acknowledgement and provide you with a fully executed copy. Once Watermaster acknowledges the lease our District will provide VCWD with an invoice, for the lease of these rights, to be payable to the District within 30 days of receipt.

I want to thank you for your consideration on this matter. If you have any questions regarding this transaction, please contact me at (626) 330-2126.

Sincerely,

ABALL

Greg B. Galindo General Manager La Puente Valley County Water District

Memo

To:	Honorable Board of Directors
From:	Greg Galindo, General Manager
Date:	January 13, 2020
Re:	Approve the Transfer of \$700,000 of the District Reserve Funds

Summary

As declared in the District's Investment Policy, the Board has the authority to invest funds in a manner which will provide the highest investment return with the maximum security while meeting the District's daily cash flow demands and conforming to all statutes governing the investment of District funds.

On January 31, 2020 the District will be expending funds from its checking account in the amount of \$780,780.00 for the payment of a groundwater production rights lease. Based on the District's current checking account balance, this payment will require a transfer of funds from the District's Local Agency Investment Fund (LAIF) account to the District's checking account to ensure there are enough funds to make this payment. During the month of February, the District anticipates receiving \$624,624 in payments made to the District for the lease of a portion of its groundwater production rights. When these payments are received staff will evaluate the checking account balance and determine if funds can then be transferred back into the District's LAIF account. This transfer will be brought to the Board for approval.

Recommendation

Staff recommends the Board approve the transfer of \$700,000 of the District Reserve Funds from the District's LAIF account to the District's Checking Account.

Respectfully Submitted,

Greg B. Galíndo

General Manager

LICENSE AGREEMENT

THIS LICENSE AGREEMENT ("Agreement"), dated January 23, 2020, ("Effective Date") is entered into by and between the City of Industry, a public body, corporate and politic ("Licensor/City"), and La Puente Valley County Water District, a government agency ("Licensee") Licensor and Licensee are individually referred to as "Party" and collectively referred to as the "Parties".

RECITALS

WHEREAS, the City is the owner of certain property located at the northwest corner of Don Julian Road and Parriott Place, City of Industry, CA 91744, and Licensee desires to enter the portion of the property generally described as a lot, **Assessor's Parcel No.** 8208-027-918, as set forth in Exhibit A, attached hereto and incorporated herein by reference ("**Premises**").

WHEREAS, Licensee desires to utilize the Premises as a temporary staging area for construction materials and equipment; and

WHEREAS, Licensee acknowledges that Licensee is entering onto the Premises at its sole risk and expense, and Licensor does not have any liability to Licensee under this Agreement.

NOW, THEREFORE, for valuable consideration, the sufficiency of which is hereby acknowledged, the Parties agree as follows:

TERMS

1. License to Enter the Premises. Licensor hereby grants to Licensee a non-exclusive license (the "License") granting permission to enter upon the Premises as of the Effective Date of this Agreement, and to use a portion of the Premises, as depicted in Exhibit A, for a temporary staging area for construction materials and equipment (collectively, "Permitted Use"); provided, that Licensee's use of the Premises shall not interfere with the operation of business activities, if any, then being conducted on the Premises, and provided Licensee provides written notice to the Licensor at least five (5) days prior to Licensee first entering upon the Premises (said written notice shall state the purpose for the entry upon the Premises, and said entry shall not exceed the stated purpose). Prior to any initial entry pursuant to the License, Licensee shall provide to Licensor proof of insurance as set forth in <u>Section 8</u> of this Agreement. Licensee shall not permit any other party, except the duly-authorized representatives, agents, employees and contractors (collectively "**Representatives**") of Licensee to enter or use the Premises during the term of this License, without Licensor's prior written consent, and in all events the sole reason for entry and use of the Premises shall be for the performance of Licensee's Permitted Use.

2. <u>Payment</u>. Licensee shall pay Licensor, and Licensor shall accept One hundred and fifty dollars (\$150.00) ("**License Payment**") per month, for the use of the Premises. Payment shall be due in advance on the first day of each month during the term of the Agreement. Payment shall be made to Licensor at 15625 E. Stafford Street, City of Industry, CA 91744.

3. <u>Permitted Use</u>. The Permitted Use is hereby defined to include storage of materials and equipment such as ductile iron/steel pipe, fittings, aggregates-sand, temp cold mix, clean dirt for backfill, backhoe, traffic delineators, and a storage container. Licensee shall exercise due care in the

performance of the Permitted Use and such use shall be exercised in a manner which complies with all applicable laws.

4. <u>Maintenance of Premises</u>. Prior to commencement of the Permitted Use, Licensee shall install a temporary construction fence around the staging area on the Premises. During the term of the License, Licensee shall place drip pans under staged equipment, straw waddle and filter fabric over nearby catch basins, and any active stock piles must be covered during rain events to prevent runoff. Upon termination of the License, Licensee shall repair any damage done to the Premises by Licensee or its duly authorized Representatives, including environmental contamination, and shall restore the Premises to its condition as of the Effective Date of this Agreement, which shall include removal of the temporary construction fence.

5. <u>Government Regulations and Other Obligations of Licensee</u>. As a condition precedent to commencement of the Permitted Use, if required, Licensee shall obtain at its sole cost and expense all governmental permits and authorizations of whatever nature required, if any ("**Permits**") by any and all governmental authorities having jurisdiction over the Premises for Licensee's exercise of the Permitted Use. Licensor shall use commercially reasonable efforts to cooperate with Licensee and to support any and all applications or request for said Permits submitted by Licensee or on Licensee's behalf. Licensee shall, in all activities undertaken pursuant to this Agreement, comply and cause its Representatives to comply with all federal, state and local laws, statutes, orders, ordinances, rules, regulations, plans, policies and decrees.

6. <u>Liens</u>.

as:

6.1 Licensee shall not cause or permit to be filed, recorded or enforced against the Premises, or any part thereof, any mechanics', material men's, contractors' or subcontractors' liens arising from the Permitted Use or any claim or action affecting the title to the Premises arising from the Permitted Use, and Licensee shall pay or cause to be paid, or otherwise removed or bonded over, the full amount of all such liens or claim within fifteen (15) days of receiving written notice thereof. In addition to and not in limitation of Licensor's other rights and remedies under this Agreement or under law, should Licensee fail within fifteen (15) business days of a written notice from Licensor to pay and discharge or bond over any lien arising out of Licensee's use of the Premises, then a material breach under this Agreement shall be deemed to have occurred which, at Licensor's election, shall entitle Licensor to terminate this License effective upon notice by Licensor to Licensee so stating.

6.2 If Licensee desires to contest in good faith the validity of any lien or any claim or demand that could result in a lien against the Premises or any portion thereof for which Licensor could become liable if not successfully resolved, as a condition to such contest, Licensee shall notify Licensor of Licensee's intent to contest the lien or claim and the grounds for such contest. Notwithstanding anything to the contrary set forth herein, Licensee shall pay and satisfy any adverse judgment that may be rendered thereon before the enforcement thereof against Licensor or the Premises.

(f) <u>Deductibles and Self-Insured Retentions</u>. Any deductibles or selfinsured retentions must be declared to and approved by the City. The City may require the Licensee to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.

The City reserves the right to require complete copies of all required insurance policies, including endorsements, required by these specifications, at any time.

(j) <u>Occurrence Basis Coverage</u>. All policies shall be written on an occurrence basis unless otherwise approved by the City.
