AGENDA

REGULAR MEETING OF THE BOARD OF DIRECTORS
LA PUENTE VALLEY COUNTY WATER DISTRICT
112 N. FIRST STREET, LA PUENTE, CALIFORNIA
MONDAY, MARCH 9, 2026, AT 4:30 PM

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL OF BOARD OF DIRECTORS

President Barajas____ Vice President Hernandez____ Director Rojas____

Director Argudo____ Director Escalera____

4. PUBLIC COMMENT

Anyone wishing to discuss items on the agenda or pertaining to the District may do so now. The Board may allow additional input during the meeting. A five-minute limit on remarks is requested.

5. ADOPTION OF AGENDA

Each item on the Agenda shall be deemed to include an appropriate motion, resolution or ordinance to take action on any item. Materials related to an item on this agenda submitted after distribution of the agenda packet are available for public review at the District office, located at the address listed above.

6. APPROVAL OF CONSENT CALENDAR

There will be no separate discussion of Consent Calendar items as they are considered to be routine by the Board of Directors and will be adopted by one motion. If a member of the Board, staff, or public requests discussion on a particular item, that item will be removed from the Consent Calendar and considered separately.

A. Approval of Minutes of the Regular Meeting of the Board of Directors held on February 23, 2026.

B. Receive and File PVOU-IZ Monthly Operations Reports for January 2026.

C. Receive and File PVOU-SZ Monthly Operations Reports for January 2026.

D. Approval of District's Expenses for the Month of February 2026.

E. Approval of City of Industry Waterworks System Expenses for the Month of February 2026.

F. Receive and File the District's Water Sales for February 2026.

G. Receive and File the City of Industry Waterworks System's Water Sales Report for February 2026.

7. ACTION / DISCUSSION ITEMS

A. Consideration of Adoption of Resolution No. 317 Revising the District Employee Policies and Procedures Manual.

Recommendation: Adopt Resolution No. 317.

B. Consideration of Purchase of CASE 580EV Electric Backhoe.

Recommendation: Authorize the General Manger to proceed with the purchase of a CASE 580EV Electric Backhoe Loader by Sonsray Machinery utilizing funding provided through the California CORE (Clean Off-Road Equipment) Voucher Incentive Program and amend the 2026 District budget by increasing appropriations for Capital Outlay of $65,000.

8. OPERATIONS AND TREATMENT REPORT

Recommendation: Receive and File.

9. ADMINISTRATIVE REPORT

10. GENERAL MANAGER'S REPORT

11. OTHER ITEMS

A. Upcoming Events.

B. Information Items.

12. ATTORNEY'S COMMENTS

13. BOARD MEMBER COMMENTS

A. Report on Events Attended.

B. Other Comments.

14. CLOSED SESSION

A. Conference with Legal Counsel – Anticipated Litigation – Significant Exposure to Litigation (Government Code Section 54956.9, Subdivision (d)(2)):
- One Potential Case

15. CLOSED SESSION REPORT

16. FUTURE AGENDA ITEMS

17. ADJOURNMENT

POSTED: Friday, March 6, 2026.

President Cesar J. Barajas, Presiding.

Any qualified person with a disability may request a disability-related accommodation as needed to participate fully in this public meeting. In order to make such a request, please contact Mr. Roy Frausto, Board Secretary, at (626) 330-2126 in sufficient time prior to the meeting to make the necessary arrangements.

Note: Agenda materials are available for public inspection at the District office or visit the District's website at www.lapuentewater.com.

MINUTES

REGULAR MEETING OF THE BOARD OF DIRECTORS
LA PUENTE VALLEY COUNTY WATER DISTRICT
112 N. FIRST STREET, LA PUENTE, CALIFORNIA
MONDAY, FEBRUARY 23, 2026, AT 4:30 PM

1. CALL TO ORDER

President Barajas called the meeting to order at 4:30 pm.

2. PLEDGE OF ALLEGIANCE

President Barajas led the Pledge of Allegiance.

3. ROLL CALL OF BOARD OF DIRECTORS

President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Present	Present	Present	Absent	Present

OTHERS PRESENT

Staff and Counsel: General Manager & Board Secretary, Roy Frausto; Customer Service & Accounting Supervisor, Shaunte Maldonado; HR Coordinator/Admin Assistant, Angelina Padilla and District Counsel, Jim Ciampa were present.

4. PUBLIC COMMENT

Resident, Georgene Navarrete, was in attendance and greeted the Board.

5. ADOPTION OF AGENDA

Motion: Adopt the Agenda.
1st: Rojas
2nd: Hernandez

	President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Vote	Yes	Yes	Yes	Absent	Yes

Motion carried by a vote of: 4 Yes, 0 No, 0 Abstain, 1 Absent.

6. APPROVAL OF CONSENT CALENDAR

Motion: Adopt the Consent Calendar.
1st: Rojas
2nd: Hernandez

	President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Vote	Yes	Yes	Yes	Absent	Yes

Motion carried by a vote of: 4 Yes, 0 No, 0 Abstain, 1 Absent.

7. FINANCIAL REPORTS

A. Summary of the District's Cash and Investments as of January 31, 2026.

Mr. Frausto provided a summary of the balances in each account and was available for any questions**.**

Motion: Receive and File.
1st: Rojas
2nd: Escalera

	President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Vote	Yes	Yes	Yes	Absent	Yes

Motion carried by a vote of: 4 Yes, 0 No, 0 Abstain, 1 Absent.

B. Statement of District's Revenue and Expenses as of January 31, 2026

Ms. Maldonado provided a summary of the District's revenues and expenses and was available for any questions.

Motion: Receive and File.
1st: Barajas
2nd: Rojas

	President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Vote	Yes	Yes	Yes	Absent	Yes

Motion carried by a vote of: 4 Yes, 0 No, 0 Abstain, 1 Absent.

C. Statement of the Industry Public Utilities Water Operations Revenue and Expenses as of January 31, 2026.

Ms. Maldonado provided a summary of the IPU revenues and expenses and was available for any questions.

Motion: Receive and File
1st: Escalera
2nd: Hernandez

	President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Vote	Yes	Yes	Yes	Absent	Yes

Motion carried by a vote of: 4 Yes, 0 No, 0 Abstain, 1 Absent.

8. ACTION / DISCUSSION ITEMS

A. Consideration of Proposal from Tri-County to Rehabilitate Industry Public Utilities Waterworks System's Well No. 5.

Mr. Frausto presented the staff report on this item and was available for any questions.

Motion: Authorize the General Manager to Proceed with the Work as Proposed by Tri-County Pump Company for an Amount Not to Exceed $227,299.57 plus a 5% contingency.
1st: Argudo
2nd: Barajas

	President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Vote	Yes	Yes	Yes	Absent	Yes

Motion carried by a vote of: 4 Yes, 0 No, 0 Abstain, 1 Absent.

B. **Consideration of Letter of Support for SB 1001 – Water Utility Workers: Identification Card Program.**

Mr. Frausto presented the staff report on this item and was available for any questions.

Motion: Authorize Staff to Submit a Letter of Support on Behalf of the District.
1st: Rojas
2nd: Barajas

	President Barajas	Vice President Hernandez	Director Rojas	Director Argudo	Director Escalera
Vote	Yes	Yes	Yes	Absent	Yes

Motion carried by a vote of: 4 Yes, 0 No, 0 Abstain, 1 Absent.

9. GENERAL MANAGER'S REPORT

Mr. Frausto gave an update on RDA meetings with Watermaster and some general updates.

10. OTHER ITEMS

A. **Upcoming Events.**

Ms. Padilla went over the upcoming conferences with the Board.

B. **Information Items.**

None.

11. ATTORNEY'S COMMENTS

Mr. Ciampa gave a brief legislative update.

12. BOARD MEMBER COMMENTS

A. **Report on Events Attended.**

Vice President Hernandez and Director Escalera reported on their attendance to the Annual Groundwater

B. **Other Comments.**

None.

13. FUTURE AGENDA ITEMS

None.

14. ADJOURNMENT

President Barajas adjourned the meeting at 4:58 pm.

Attest:

Cesar J. Barajas, Board President	Roy Frausto, Board Secretary

.

PVOU-IZ Operations Report

Date: February 20, 2026
To: Michael Shannon, Northrop Grumman Systems
Cc: Roy Frausto, General Manager
From: Davis To, Field Operations Engineer
Subject: PVOU-IZ Operations Monthly Report (January 2026)

In accordance with our Agreement for Operational Services of a Water Treatment Facility between the Northrop Grumman Systems (the “NG”) and the La Puente Valley County Water District (the “District”), the District is providing a monthly operations report for January 2026. The report represents operational information along with the current status of various items listed under the appropriate heading.

PVOU-IZ Plant Operations Snapshot

Production Well	Current Well Operations	Well GPM
IZ-1	INTERMITTENT	120-135
MZ-1	INTERMITTENT	210-240
IZ-2	OFFLINE	0
MZ-2	INTERMITTENT	240
MZ-3	INTERMITTENT	140
IZ-East	INTERMITTENT	350-440
IZ-West	INTERMITTENT	350-440
TOTAL COMBINED WELL GPM		1,450*

Treatment Component	Current Operations	Flow GPM
LGAC System	INTERMITTENT	1,430
SPIX System	INTERMITTENT	1,430
UV System	INTERMITTENT	1,430
RO System	INTERMITTENT	1,430

*Extraction Wells operated in different combinations and flow rates during treatment plant operation to balance flow and collect sample data.

Is Treatment Plant in Normal Operation Yes / No	No	*As of what date:*	1/29/2026

Brief description below:
The Intermediate Zone Treatment System was placed in normal continuous operation on December 1, 2025, following receiving NPDES pre-discharge sample results which were in compliance with the permitted limits. The IZ system continued in normal continuous operation for the majority of January 2026, in which the District staff continued with the IZ Interim Sampling Plan efforts for weekly, monthly sample collection at the extraction wells and the treatment plant, along with regulatory compliance sampling under the LACSD, NPDES, SCAQMD permits. On January 28, 2026, Stantec issued an e-mail which stated that NG will be reaching out to the Regional Board to discuss the permitted limits as TPH was not listed on the amended permit issued back in August 2025. In the e-mail, Stantec stated that there is a reasonable chance that the IZ system may have a TPH exceedance if operation continued into February 2026. Stantec provided the preference to shut down the system and stop discharge under the NPDES until there is a better understanding of the permit requirements and to continue working with EPA on both Sampling and Analysis Memo and a TPH Process Decision Tree.

Extraction Wells - Online	Treatment Plant – Online	Extraction Wells – Offline	Treatment Plant – Offline
659.5 Hours	656.0 Hours	84.6 Hours	88.0 Hours
27.48 Days	**27.33 Days**	**3.52 Days**	**3.67 Days**

Summary: The IZ Treatment System was in normal continuous operation for the majority of January 2026. No major operational issues occurred in which the IZ system was unable to be restarted the following day. The District shut down the IZ system as instructed to by Stantec's email on January 29th, 2026.

Permitting

- **SWRCB – DDW: LPVCWD Drinking Water Supply Permit Amendment**
  - NG and the District have collaborated to address the comments and questions from the previous DDW Engineering Report revision. DDW has updated the Engineering Report and Appendices. The District is working on coordinating a meeting date to discuss public hearing and timelines.

Supply and Production

- **PVOU-IZ Monthly Well Production/Total Water Extracted**

Well	Beginning Read 1/1/2026 (Kgals)	Ending Read 2/1/2026 (Kgals)	Units Produced (Kgals)	Production (Acre Feet)
IZ-1	340070	390278	50,208	15.41
MZ-1	366482	455437	88,955	27.30
IZ-2	16031	16031	0	0.00
MZ-2	438815	528614	89,799	27.56
MZ-3	670125	716402	46,277	14.20
IZ-East	920588	1058365	137,777	42.28
IZ-West	718142	858674	140,532	43.13
Total IZ Production			**553,548**	**169.88**

- **PVOU-IZ Well Levels (Sounder)**

Well	Static Water Level (ft)	Pumping Water Level (ft)	Drawdown (ft)
IZ-1	57.7	-	-
MZ-1	52.1	-	-
IZ-2	58.8	-	-
MZ-2	52.9	-	-
MZ-3	46.25	-	-
IZ-East	63.25	-	-
IZ-West	56.25	-	-

- **PVOU-IZ Monthly Water Volume Processed**

IZ-Raw Water Flow Meter	Timeframe	Total Flow (MG)
FQIT-1002	1/1/26 – 1/31/26	**56.05**

- **PVOU-IZ Monthly Metered Deliveries**

System	Beginning Read (Kgals)	Ending Reads (Kgals)	Average GPM	Units Produced	Deliveries in Acre Feet
LPVCWD	0	0	0	0	0
SWS	0	0	0	0	0
CIWS	0	0	0	0	0
Surface Water	2,521,916	2,965,953	-	444,037	136.27
Total Deliveries				**444,037**	**136.27**

- **Total Production (Extraction Wells) Vs. Total Deliveries**

Total Production in Acre Feet	Total Deliveries in Acre Feet	Total Water Loss in Acre Feet
169.88	136.27	**-33.61**

- **Water Discharged to Waste/Brine Discharged (IZ & SZ)**

Wastewater Discharge Flow Meter	Beginning Read 1/1/2026 (Kgals)	Ending Read 2/1/2026 (Kgals)	Units Produced (Kgals)	Wastewater (Acre Feet)
*FQIT-3301	1,178,819	1,282,835	104,016	**31.92**

*Please note – The wastewater flow meter (FQIT-3301) total flow captures all wastewater from IZ & SZ operations that is discharged to the brine transmission line.

- **Chemicals Consumed**

Chemical Type	1/1/26 (Data from Round Sheets) - Gals.	1/31/26 (Data from Round Sheets) - Gals.	Total Consumed – Gals.
Sulfuric Acid (H_2SO_4)	1958 (1/1/26) 2260 (1/16/26)	809 (1/15/26) 902 (1/29/26)	2,507
Hydrogen Peroxide (H_2O_2)	3254 (1/1/26) 5457 (1/8/26)	2619 (1/7/26) 3062 (1/29/26)	3,030
*Sodium Bisulfite ($NaHSO_3$)	302	302	-
Scale Inhibitor	468	352	116
Sodium Hydroxide (NaOH)	858 (1/1/26) 1821 (1/8/26)	671 (1/7/26) 1139 (1/29/26)	869
*Sodium Hypochlorite (NaOCl)	-	-	-

*Chemicals currently not being used in January 2026.

Water Quality

- **IZ Drinking Water Monitoring (DDW) –** District Staff did not collect any DDW permit water quality samples from the IZ system for the month of January.

- **IZ Surface Water Discharge Monitoring (NPDES) -** District Staff collected NPDES compliance samples from the IZ system for the month of January.
    - PVOU – IZ Monthly January 2026

  Attachment A: Final COA Report of January 9, 2026, sample event.

- **IZ Sewer Discharge Monitoring (LACSD) -** District Staff collected bi-weekly compliance sample events for the month of January.
  Attachment B: Final COA Report from January 9 & 28, 2026, sample events.

  IZ Air Monitoring (SCAQMD) - District Staff collected quarter SCAQMD compliance samples for the month of January.
  Attachment C: Final COA Report from January 12, 2026, sample events.

- **IZ Other Samples –** District Staff collected samples per the IZ Interim Sampling Plan which include:
    - Weekly Title 22 VOCs
    - Weekly Title 22 SOCs
    - Weekly Title 22 Inorganics/Rads
    - Weekly UV-AOP and IX
    - Weekly TP Effluent
    - Weekly Wells - TPH
    - Monthly Treatment Plant
    - Monthly EWs
    - Quarterly EQ Tank

  Attachment D: Final COA Report from January 2026, sample events.

Compliance Reporting

IZ Drinking Water Monitoring (DDW) – District Staff submitted no DDW water quality reports pertaining to the PVOU-IZ during January.

- **IZ Surface Water Discharge Reporting (NPDES) -** District Staff submitted no NPDES water quality reports pertaining to the PVOU-IZ (and SZ) during January.

- **IZ Sewer Discharge Reporting (LACSD) -** District Staff submitted LACSD Semi Annual Self-Monitoring Report pertaining to the PVOU-IZ (& SZ) during January.

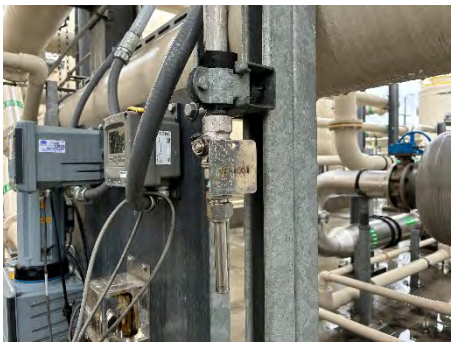

Repair/Replace/Optimization Activities

- **Repairs/Replace Activities**
  - B-2320 (Decarbonator Blower) – Replaced air filter on blower (see photo below):

  - Sample Port Tubing Installation (see photos below) for:
    - AIT-1003 – Peroxide injection upstream of UV reactors
    - SP-1551 – Post UV and Quenching GAC process

  - F-2100-1-4 (Horizontal Cartridge Filters) – 1-micron Cartridge filters replaced

- **Maintenance Work**
    - Recalibrate analyzers – As-needed
    - RO analyzers/all analyzers – Clean flow indicator cells
    - Booster pump motor lubrication:
        - P-1001A/B – Raw Water Booster Pumps
        - P-1550A/B – Intermediate Booster Pumps
        - P-3001A/B – Effluent Booster Pumps
        - P-3301A/B – Sewer Discharge Booster Pumps
        - P-2350-1-3 – Product Water Transfer Pumps
        - B-2320 – Decarbonator Blower
    - Multimedia Filters – Backwashed all multimedia filters in January

- **Housekeeping:**
    - Treatment plant, containment and chemical containment area routine maintenance and cleaning
    - Drain chemical containment areas following rain events manually

- **Optimizations**
    - Operations – Rotating booster & chemical pumps on duty/standby to balance run hours.
    - Preventative Maintenance – The District is in communication with our preventative maintenance system company (Nobel) to update the PVOU IZ System into assets (by process) to have a more user-friendly platform to conduct preventative maintenance checks. Also, The District requested updates that would allow end users (the District) to add/modify/delete PM activities as needed. Nobel has made asset separation updates and the District is in the process of reviewing and adding or modifying inspection cycles for IZ equipment.

      Attachment E: IZ Inspections Table for January 2026 generated by PM software.

Upcoming Repair/Replace Activities

- **IZ LGAC Pre Filter 3500A&B –** Following an evaluation and gathering estimates for 1) rehabilitation of the cartridge filter housing system and 2) procurement and installation of a new cartridge filter housing system, Stantec provided concurrence with the District's proposed path of procuring a new SS housing system as the information gathered was that it was the most practical and cost-effective long-term solution. The District is in the process of preparing procurement documents following the approval notification.

- **Multimedia Filter System –**
    - FE/FIT-2000-1 & 2 – Physical displays have been damaged by outdoor environment (sun damage). The District has setup a vendor to replace and relocate the physical registers in a remote location away from the direct sunlight. The physical registers will also be located in a more practical location for Operators to view and conduct maintenance.

- **Reverse Osmosis System**
    - RO Program Changes/Optimization – The District in communication with Wigen (RO Vendor) to discuss programming optimizations such as rotation of RO Trains and Multimedia Filters, enabling autoflush when the system is offline, RO startup/shutdown sequencing, etc. The District has received a quote from Wigen for the proposed programming optimizations in 2025. The District anticipates re-engaging the ROEM in 2026.

- **IZ Analyzers –** District met with HACH Representative to discuss replacement of ATI analyzers with HACH analyzers to benefit overall reliability of the water analyzers at the treatment system as well as suitability for setting up one service contract for all analyzers at the plant. The District has received approval from NG to move forward with Phase 1 of the analyzer replacement. Work is anticipated in Q1 of 2026. The District is in the process receiving equipment and scheduling the appropriate contractors.
    - Pre-RO Panel. See photo below:
    - pH Analyzer – AIT-1001

- **Backwash Supply Pumps** – The District has been in contact with a vendor as the backwash supply pump mechanical seal has been observed to be leaking. The District has been setting up site visits with contractors and has obtained two (2) quotes and is awaiting one (1) additional quote.

- **Air Vac Valves Replacement –** The District has observed leak issues with the air vacuum valves at several areas of the treatment plant. The District had previously replaced the Multimedia Filters air vacs with ARI D-040 and have not experienced any major leak issues following installation. The District uses the ARI D-040 in several instances and view them as best fit to replace current air vacuum valves across the treatment plant due to functionality and ease of maintenance. The District has procured an initial set of air vacs and will be replacing an initial set in February.

NG Requested Upgrades

- **Standard Operating Procedures (SOP) Development –** The District met with the engineering consultant in January to test the IZ Draft SOPs and collect data for the SZ Draft SOPs. The engineering consultant anticipates providing a Draft Final version for review in February.

- **Cybersecurity –** Stantec on behalf of Northrop Grumman issued a SOW for Cybersecurity upgrades at the PVOU Plant. The District received approval from NG to move forward. The contracted firm has begun activities to harden the network as described in the issued SOW with Stantec's technical support. The work will continue into February and the anticipation is that the SOW will be completed in March 2026.

Outages

- No major outages to report in January 2026.

Capital Improvement Items

- **Secondary SWS Interconnection –** NG consultants provided an alternative conceptual design for this work. Alternative design was reviewed by LPVCWD and there was one key issue. The District provided a response with their stance via e-mail on June 10, 2025. Northrop Grumman provided a response with their stance via response letter dated July 2, 2025. Both teams agree to continue meeting and conferring in good faith to further discuss at a later time. The District prepared a memo to compare the cost of the secondary interconnection work to the potential alternative of purchasing replacement water based on scenario probabilities. The memo was distributed to NG on September 5th, 2025, via e-mail for review and consideration.

Performance Contracts

- **Wigen Reverse Osmosis System (Preventative Maintenance) –** The District scheduled Wigen to be onsite for assessment and preventative maintenance work on a quarterly basis for the IZ & SZ-S Systems.
    - The District is following up with Wigen to discuss equipment replacement and scope to address items noted on preventative maintenance visit. Wigen is in the process of preparing an updated quote for procurement of replacement equipment needed.

- The District sharing RO normalization logs collected data for evaluation by Wigen team on a monthly basis.

- **Trojan UV/AOP System (Preventative Maintenance) –** The District scheduled Trojan to be onsite for assessment and preventative maintenance work on a quarterly basis for the IZ & SZ-S Systems. The next quarterly scheduled preventative maintenance visit is scheduled for February 2026.

Other

- **Standard Operating Procedures SOPs –** The following SOPs have been developed for the use of the District's Operation Staff:
  - Sampling for Bacteriological Contaminants
  - Sampling for VOCs
  - Sampling for SOCs
  - Sampling for Radionuclides
  - Sampling for PFAS
  - Chemical Safety Awareness
  - Operations – Cartridge Filter Changeout
  - Operations – Chemical Calibration Drawdowns

Job Notes

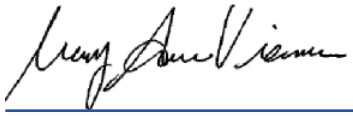

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191662-1 — Eurofins Pomona

Job Narrative
380-191662-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/9/2026 2:28 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.8°C, 8.8°C and 12.0°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: SP-3002 (IZ-Plant) (380-191662-1) and Trip Blank (380-191662-2). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: The method blank for preparation batch 570-681257 and analytical batch 570-681189 contained C23-C44 and C13-C44 above the method detection limit. This target analyte concentration was less than the reporting limit (RL) in the method blank; therefore, re-extraction and/or re-analysis of samples was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
Method 1664A: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-681759. The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
EPA 1664A/B

Method SM 5540C: Methylene Blue Active Substances (MBAS) concentrations are calculated as Linear Alkylbenzene Sulphonate (LAS), using a molecular weight of 348.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Biology

Job ID: 380-191662-1 (Continued) Eurofins Pomona

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: PVOU-IZ NPDES

Job ID: 380-191662-1
SDG: SSOW # 12577469-J6096-053

Client Sample ID: SP-3002 (IZ-Plant)

Lab Sample ID: 380-191662-1

Accreditation/Certification Summary

Client: La Puente Valley County Water District
Project/Site: PVOU-IZ NPDES

Job ID: 380-191662-1
SDG: SSOW # 12577469-J6096-053

Laboratory: Eurofins Pomona

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

Authority	Program	Identification Number	Expiration Date
California	State	2813	06-18-27

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

Analysis Method	Prep Method	Matrix	Analyte
300.0		Water	Nitrate Nitrite as N

Laboratory: Eurofins Calscience

All accreditations/certifications held by this laboratory are listed. Not all accreditations/certifications are applicable to this report.

This is a complete final report. The information in this report applies to the samples analyzed in accordance with the chain-of-custody document. Results are related only to the items tested. Weck Laboratories certifies that the test results meet all requirements of TNI unless noted by qualifiers or written in the Case Narrative. The report may include analytes that are not currently accreditable by some state agencies or accrediting bodies. This analytical report must be reproduced in its entirety.

Dear Cesar Ortiz,

Enclosed are the analytical results for the samples submitted under the attached Chain of Custody document. All analyses adhered to the method criteria, except where noted in the case narrative, sample condition checklist, and/or data qualifiers.

Notes and Definitions

Item	Definition
%REC	Percent Recovery
Dil	Dilution
MDL	Method Detection Limit
MRL	Method Reporting Limit (MRL) is the minimum levels, concentrations, or quantities of a target variable (e.g., target analyte) that can be reported with a specified degree of confidence. The MRL is also known as Limit of Quantitation (LOQ)
ND	NOT DETECTED at or above the Method Reporting Limit (MRL). If Method Detection Limit (MDL) is reported, then ND means not detected at or above the MDL.
RPD	Relative Percent Difference
Source	Sample that was matrix spiked or duplicated.

Any remaining sample(s) will be disposed of one month from the final report date unless other arrangements are made in advance.

All results are expressed on wet weight basis unless otherwise specified.

All samples collected by Weck Laboratories have been sampled in accordance to laboratory SOP Number MIS002.

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/12/2026 6:23:12 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 VOCs

JOB NUMBER

380-190655-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

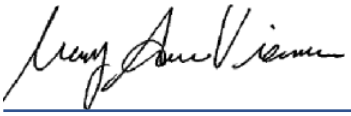

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Authorization

Definitions/Glossary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-190655-1
SDG: Weekly Title 22 VOCs

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190655-1 — Eurofins Pomona

Job Narrative
380-190655-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/6/2026 1:45 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 13.6°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: TP Efflulent SP-3002 (380-190655-1), LGAC Lead Vessel 25% SP-1103B-1 (380-190655-2), LGAC Lead Vessel 25% SP-1103A-2 (380-190655-3), LGAC Lead Vessel 25% SP-1103B-3 (380-190655-4), LGAC Lead Vessel 25% SP-1103A-4 (380-190655-5) and TRIP BLANK (380-190655-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-190655-1
SDG: Weekly Title 22 VOCs

Client Sample ID: TP Efflulent SP-3002 — Lab Sample ID: 380-190655-1

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
Chloromethane (methyl chloride)	0.11	J B	0.50	0.11	ug/L	1		524.2	Total/NA

Client Sample ID: LGAC Lead Vessel 25% SP-1103B-1 — Lab Sample ID: 380-190655-2

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
1,1-Dichloroethane	0.17	J	0.50	0.13	ug/L	1		524.2	Total/NA

Client Sample ID: LGAC Lead Vessel 25% SP-1103A-2 — Lab Sample ID: 380-190655-3

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
1,1-Dichloroethane	0.18	J	0.50	0.13	ug/L	1		524.2	Total/NA

Client Sample ID: LGAC Lead Vessel 25% SP-1103B-3 — Lab Sample ID: 380-190655-4

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
Methyl-tert-butyl Ether (MTBE)	0.14	J	0.50	0.074	ug/L	1		524.2	Total/NA
1,1-Dichloroethane	0.35	J	0.50	0.13	ug/L	1		524.2	Total/NA

Client Sample ID: LGAC Lead Vessel 25% SP-1103A-4 — Lab Sample ID: 380-190655-5

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
Chloromethane (methyl chloride)	0.12	J B	0.50	0.11	ug/L	1		524.2	Total/NA
1,1-Dichloroethane	0.32	J	0.50	0.13	ug/L	1		524.2	Total/NA

This Detection Summary does not include radiochemical test results.

Compliance Check

The results obtained from the analytical testing of this data set were checked against compliance limits received from the client. Any results at or above the compliance limits have been highlighted for your convenience.

Analyte	Result	Qualifier	Unit	EPAMCL Limit	PVOU-IZ/SZ Limit	RL	Method	Prep Type

Job Notes

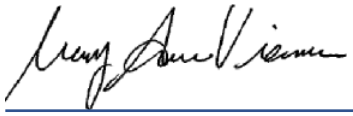

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191797-1 — Eurofins Pomona

Job Narrative
380-191797-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/12/2026 3:45 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 8.9°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-191797-1), LGAC Lead Vessel 25% SP-1103B-1 (380-191797-2), LGAC Lead Vessel 25% SP-1103A-2 (380-191797-3), LGAC Lead Vessel 25% SP-1103B-3 (380-191797-4), LGAC Lead Vessel 25% SP-1103A-4 (380-191797-5) and TRIP BLANK (380-191797-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-191797-1
SDG: Weekly Title 22 VOCs

Client Sample ID: TRIP BLANK (Continued)

Lab Sample ID: 380-191797-6

Compliance Check

The results obtained from the analytical testing of this data set were checked against compliance limits received from the client. Any results at or above the compliance limits have been highlighted for your convenience.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/8/2026 10:28:23 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 VOCs

JOB NUMBER

380-194238-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

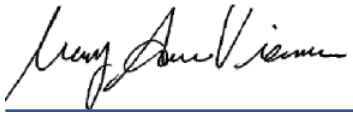

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Authorization

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*-	LCS and/or LCSD is outside acceptance limits, low biased.
*+	LCS and/or LCSD is outside acceptance limits, high biased.
*1	LCS/LCSD RPD exceeds control limits.
^3-	Reporting Limit Check Standard is outside acceptance limits, low biased.
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194238-1 — Eurofins Pomona

Job Narrative
380-194238-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/23/2026 2:52 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 11.1°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-194238-1), LGAC Lead Vessel 25% SP-1103B-1 (380-194238-2), LGAC Lead Vessel 25% SP-1103A-2 (380-194238-3), LGAC Lead Vessel 25% SP-1103B-3 (380-194238-4), LGAC Lead Vessel 25% SP-1103A-4 (380-194238-5) and TRIP BLANK (380-194238-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
Method 524.2: The continuing calibration verification (CCV) associated with batch 380-202316 recovered outside acceptance criteria, low biased, for Hexachlorobutadiene. A reporting limit (RL) standard was analyzed, and the target analytes are detected. Because there is no additional volume remaining to re-analyze, the data has been reported.

Method 524.2: The laboratory control sample (LCS) for analytical batch 380-202316 recovered outside acceptance limits for cis-1,3-Dichloropropene and Hexachlorobutadiene. There was insufficient sample to perform a re-extraction or re-analysis; therefore, the data have been reported.

Method 524.2: The MRL associated with the following sample recovered outside control limits. Low biased for Hexachlorobutadiene, available data has been reported as sample is outside of holding time.

LGAC Lead Vessel 25% SP-1103B-3 (380-194238-4)

Method 524.2: The LCSD associated with the following sample recovered outside of control limits low biased for Dichlorodifluoromethane, the available data has been reported as sample is out of holding time.

LGAC Lead Vessel 25% SP-1103B-3 (380-194238-4)

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Intermediate Zone Testing
Weekly Title 22 VOCs

JOB NUMBER

380-194555-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

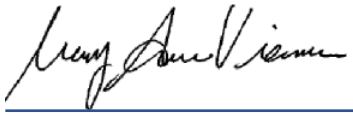

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194555-1 — Eurofins Pomona

Job Narrative
380-194555-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/27/2026 4:32 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 10.9°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-194555-1), LGAC Lead Vessel 25% SP-1103B-1 (380-194555-2), LGAC Lead Vessel 25% SP-1103A-2 (380-194555-3), LGAC Lead Vessel 25% SP-1103B-3 (380-194555-4), LGAC Lead Vessel 25% SP-1103A-4 (380-194555-5) and TRIP BLANK (380-194555-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Job Notes

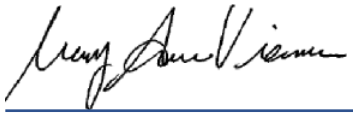

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.
S1+	Surrogate recovery exceeds control limits, high biased.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Dioxin

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190749-1 — Eurofins Pomona

Job Narrative
380-190749-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/6/2026 1:44 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 8.0°C, 9.5°C and 10.1°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-190749-1), LGAC Lead Vessel 25% SP-1103B-1 (380-190749-2), LGAC Lead Vessel 25% SP-1103A-2 (380-190749-3), LGAC Lead Vessel 25% SP-1103B-3 (380-190749-4), LGAC Lead Vessel 25% SP-1103A-4 (380-190749-5) and Trip Blank (380-190749-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Herbicides
Method 515.4_PREC: Surrogate recovery for the following sample was outside the upper control limit: TP Effluent SP-3002 (380-190749-1). This sample did not contain any target analytes; therefore, re-extraction and/or re-analysis was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides/PCBs
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Dioxin
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-190749-1
SDG: Weekly Title 22 SOCs

Client Sample ID: TP Effluent SP-3002 — Lab Sample ID: 380-190749-1

No Detections.

Client Sample ID: LGAC Lead Vessel 25% SP-1103B-1 — Lab Sample ID: 380-190749-2

No Detections.

Client Sample ID: LGAC Lead Vessel 25% SP-1103A-2 — Lab Sample ID: 380-190749-3

No Detections.

Client Sample ID: LGAC Lead Vessel 25% SP-1103B-3 — Lab Sample ID: 380-190749-4

No Detections.

Client Sample ID: LGAC Lead Vessel 25% SP-1103A-4 — Lab Sample ID: 380-190749-5

No Detections.

This Detection Summary does not include radiochemical test results.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

La Puente, California 91744

Generated 1/22/2026 3:33:19 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 SOCs

JOB NUMBER

380-192783-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

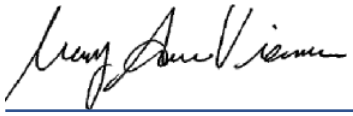

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.
Q3	Sample received with improper chemical preservation.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Dioxin

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192783-1 — Eurofins Pomona

Job Narrative
380-192783-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/15/2026 3:57 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 4 coolers at receipt time were 2.9°C, 3.5°C, 4.7°C and 5.3°C.

Receipt Exceptions
Sample ID for Site 3 on bottles is 1103B-2 while COC has 1103A-2, then for site 5 ID on bottles is 1103B-4 and COC has 1103A-4.

Logged ID based on COC.
LGAC Lead Vessel 25% SP-1103A-2 (380-192783-3) and LGAC Lead Vessel 25% SP-1103A-4 (380-192783-5)

Update (UMV1 - 1/20/26): The client confirmed the sample IDs on the chain of custody are correct

GC/MS VOA
Method SRL 524M: The following sample(s) were collected in properly preserved vials for analysis of volatile organic compounds (VOCs). However, the pH was outside the required criteria when verified by the laboratory, and corrective action was not possible: LGAC Lead Vessel 25% SP-1103B-3 (380-192783-4).

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Herbicides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides/PCBs
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Dioxin
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/29/2026 1:44:19 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 SOCs

JOB NUMBER

380-194239-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

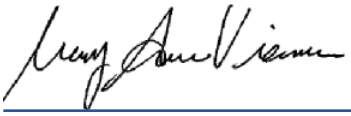

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Authorization

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Dioxin

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194239-1 — Eurofins Pomona

Job Narrative
380-194239-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/23/2026 2:52 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 12.1°C, 13.2°C and 14.7°C.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Herbicides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides/PCBs
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Dioxin
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-194239-1
SDG: Weekly Title 22 SOCs

Client Sample ID: TP Effluent SP-3002 — Lab Sample ID: 380-194239-1

No Detections.

Client Sample ID: LGAC Lead Effluent Vessel 25% SP-1103B-1 — Lab Sample ID: 380-194239-2

No Detections.

Client Sample ID: LGAC Lead Effluent Vessel 25% SP-1103A-2 — Lab Sample ID: 380-194239-3

No Detections.

Client Sample ID: LGAC Lead Effluent Vessel 25% SP-1103B-3 — Lab Sample ID: 380-194239-4

No Detections.

Client Sample ID: LGAC Lead Effluent Vessel 25% SP-1103A-4 — Lab Sample ID: 380-194239-5

No Detections.

This Detection Summary does not include radiochemical test results.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/5/2026 1:48:34 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 SOCs

JOB NUMBER

380-194838-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

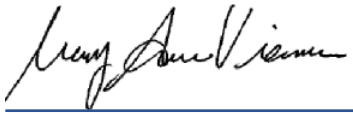

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Dioxin

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194838-1 — Eurofins Pomona

Job Narrative
380-194838-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/28/2026 3:20 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 5 coolers at receipt time were 13.5°C, 15.2°C, 17.3°C, 17.4°C and 19.6°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-194838-1), LGAC Lead Vessel 25% SP-1103B-1 (380-194838-2), LGAC Lead Vessel 25% SP-1103A-2 (380-194838-3), LGAC Lead Vessel 25% SP-1103B-3 (380-194838-4) and LGAC Lead Vessel 25% SP-1103A-4 (380-194838-5). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
Method 525.2: The following sample was provided to the laboratory with a significantly different initial volume than that required by the reference method: LGAC Lead Vessel 25% SP-1103A-4 (380-194838-5). The method requires 1000mL. The amount provided was 944.5mL. A correction factor of 1.06 will be applied.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Herbicides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides/PCBs
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Dioxin
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/23/2026 11:08:13 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 Inorganics/Rads

JOB NUMBER

380-191639-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

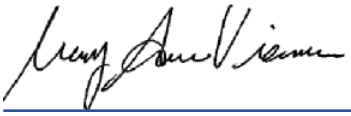

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Project/Site: Intermediate Zone Testing
SDG: Weekly Title 22 Inorganics/Rads

Qualifiers

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Rad

Qualifier	Qualifier Description
U	Result is less than the sample detection limit.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job Narrative
380-191639-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/9/2026 2:28 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.8°C, 8.8°C and 12.0°C.

Receipt Exceptions
The following sample was submitted for analysis; however, it was not listed on the Chain-of-Custody (COC): TP Effluent SP-3002 (380-191639-1)

4500_F_C was received

The following sample was received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-191639-1). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

One or more containers for the following sample was received empty: TP Effluent SP-3002 (380-191639-1).

Asbestos was received empty

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gas Flow Proportional Counter
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Rad
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Laboratory: Eurofins Pomona

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

Authority	Program	Identification Number	Expiration Date
California	State	2813	06-18-27

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

Analysis Method	Prep Method	Matrix	Analyte
300.0		Water	Nitrate Nitrite as N
SM 4500 F C		Water	Fluoride

Laboratory: Eurofins South Bend

All accreditations/certifications held by this laboratory are listed. Not all accreditations/certifications are applicable to this report.

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 Inorganics/Rads

JOB NUMBER

380-191800-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

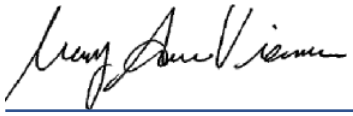

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Rad

Qualifier	Qualifier Description
U	Result is less than the sample detection limit.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191800-1 — Eurofins Pomona

Job Narrative
380-191800-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/12/2026 3:45 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 5.7°C.

Subcontract Work
Method Asbestos 100.2: This method was subcontracted to Eurofins CEI Inc. The subcontract laboratory certification is different from that of the facility issuing the final report. The subcontract report is appended in its entirety.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gas Flow Proportional Counter
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Rad
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

CLIENT PROJECT: Intermediate Zone Testing, 38009773, 380-191800-1
LAB CODE: 717462-1

Dear MaryAnn,

Enclosed are asbestos analysis results for TEM water samples received at our laboratory on January 14, 2026. The samples were analyzed for asbestos using transmission electron microscopy (TEM) per the US EPA 100.2 Method.

The current EPA regulatory limit for asbestos in water is 7 million fibers per liter (MFL, > 10 µm in length). The analytical sensitivity for the EPA 100.2 method is 0.2 MFL.

Thank you for your business and we look forward to continuing good relations.

Kind Regards,

Kamila Reichert

Kamila Reichert,
Laboratory Director

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/5/2026 9:40:49 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 Inorganics/Rads

JOB NUMBER

380-193361-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

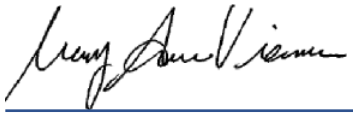

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
^2	Calibration Blank (ICB and/or CCB) is outside acceptance limits.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
F1	MS and/or MSD recovery exceeds control limits.
F2	MS/MSD RPD exceeds control limits
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Rad

Qualifier	Qualifier Description
U	Result is less than the sample detection limit.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-193361-1 — Eurofins Pomona

Job Narrative
380-193361-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/20/2026 3:59 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 8.1°C.

Receipt Exceptions
The following sample was received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-193361-1). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Subcontract Work
Method Asbestos 100.2: This method was subcontracted to Eurofins CEI Inc. The subcontract laboratory certification is different from that of the facility issuing the final report. The subcontract report is appended in its entirety.

HPLC/IC
Method 300.0: Received extra bottle for ANIONS testing.

TP Effluent SP-3002 (380-193361-1)

Method 300.0: Received extra bottle for ANIONS testing.

TP Effluent SP-3002 (380-193361-1)

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
Method 200.8: The initial calibration blank (ICB) for analytical batch 810-177971 contained Uranium above the method detection limit (MDL). All reported samples associated with this ICB were contained this analyte at a concentration greater than 10X the value found in the ICB; therefore, re-analysis of samples was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
Method 335.4: The matrix spike duplicate (MSD) recoveries for preparation batch 380-200040 and analytical batch 380-200159 were outside control limits. Non-homogeneity is suspected because the associated laboratory control sample (LCS) recovery was within acceptance limits.

Method 335.4: The matrix spike / matrix spike duplicate (MS/MSD) recoveries and precision for preparation batch 380-200040 and analytical batch 380-200159 were outside control limits. Sample matrix interference and/or non-homogeneity are suspected because the associated laboratory control sample / laboratory sample control duplicate (LCS/LCSD) precision was within acceptance limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gas Flow Proportional Counter
Method SM7110C: The matrix spike / matrix spike duplicate (MS/MSD) recoveries for preparation batch 810-178266 and analytical batch 810-178437 were outside control limits for one or more analytes. See QC Sample Results for detail. Sample matrix interference and/or non-homogeneity are suspected because the associated laboratory control sample (LCS) recovery is within acceptance limits.

Affected sample; TP Effluent SP-3002 (380-193361-1)

Recount failed: see analytical batch 178456 for details.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Rad
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

CLIENT PROJECT: Intermediate Zone Testing, 38009773, 380-193361-1
LAB CODE: 719409-1

Dear MaryAnn,

Enclosed are asbestos analysis results for TEM water samples received at our laboratory on 01/22/26. The samples were analyzed for asbestos using transmission electron microscopy (TEM) per the US EPA 100.2 Method.

The current EPA regulatory limit for asbestos in water is 7 million fibers per liter (MFL, > 10 µm in length). The analytical sensitivity for the EPA 100.2 method is 0.2 MFL.

Thank you for your business and we look forward to continuing good relations.

Kind Regards,

Kamila Reichert

Kamila Reichert,
Laboratory Director

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	False	Refer to Job Narrative for details.
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Title 22 Inorganics/Rads

JOB NUMBER

380-194540-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

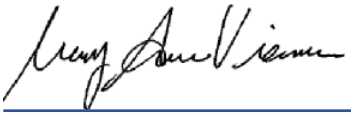

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Rad

Qualifier	Qualifier Description
U	Result is less than the sample detection limit.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194540-1 — Eurofins Pomona

Job Narrative
380-194540-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/27/2026 4:32 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 13.1°C.

Receipt Exceptions
The following sample was received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-194540-1). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Subcontract Work
Method Asbestos 100.2: This method was subcontracted to Eurofins CEI Inc. The subcontract laboratory certification is different from that of the facility issuing the final report. The subcontract report is appended in its entirety.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gas Flow Proportional Counter
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Rad
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

CLIENT PROJECT: Intermediate Zone Testing, 38009773, 380-194540-1
LAB CODE: 721052-1

Dear MaryAnn,

Enclosed are asbestos analysis results for TEM water samples received at our laboratory on 01/29/26. The samples were analyzed for asbestos using transmission electron microscopy (TEM) per the US EPA 100.2 Method.

The current EPA regulatory limit for asbestos in water is 7 million fibers per liter (MFL, > 10 µm in length). The analytical sensitivity for the EPA 100.2 method is 0.2 MFL.

Thank you for your business and we look forward to continuing good relations.

Kind Regards,

Kamila Reichert

Kamila Reichert,
Laboratory Director

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	N/A	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
Samples were received on ice.	False	Thermal preservation not required.
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	False	Thermal preservation not required.
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Samples do not require splitting or compositing.	True	
Were samples preserved to correct pH upon receipt, if applicable?	True	
Sample Preservative Verified	True	
Container provided by EEA	False	Client provided containers

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/12/2026 6:23:38 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly UV-AOP and IX

JOB NUMBER

380-190713-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

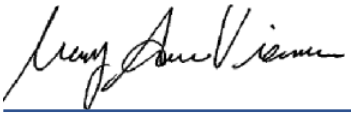

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

LCMS

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190713-1 — Eurofins Pomona

Job Narrative
380-190713-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/6/2026 1:45 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 8.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: UV/AOP Combined Effluent SP-1501 (380-190713-1), IX Lead Vessel Effluent SP-1302A-2 (380-190713-2), IX Lead Vessel Effluent SP-1302B-1 (380-190713-3), IX Combined Effluent SP-1301 (380-190713-4), TRIP BLANK 524.2 (380-190713-5) and TRIP BLANK 624.1 (380-190713-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
Method 624.1: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with analytical batch 570-679913. The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
Method 300_OF_48H_PREC: The following sample was diluted for Nitrite as N to prevent detector saturation due to high conductivity: UV/AOP Combined Effluent SP-1501 (380-190713-1). Elevated reporting limits (RLs) are provided.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-190713-1

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	2.3
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/21/2026 3:28:32 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly UV-AOP and IX

JOB NUMBER

380-192008-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

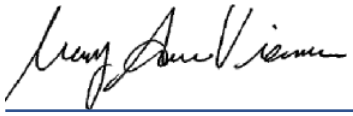

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

LCMS

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192008-1 Eurofins Pomona

Job Narrative
380-192008-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/13/2026 3:06 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 4.9°C.

GC/MS VOA
Method 624.1: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with analytical batch 570-684619. The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
Method 300.0: The following sample was diluted for Nitrite as N to prevent detector saturation due to high conductivity: UV/AOP Combined Effluent SP-1501 (380-192008-1). Elevated reporting limits (RLs) are provided.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/26/2026 11:08:41 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly UV-AOP and IX

JOB NUMBER

380-193392-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

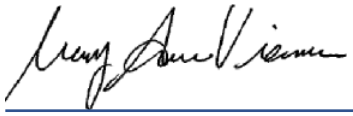

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-193392-1 Eurofins Pomona

Job Narrative
380-193392-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/20/2026 3:59 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 11.9°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: UV/AOP Combined Effluent SP-1501 (380-193392-1), IX Lead Vessel Effluent SP-1302A-2 (380-193392-2), IX Lead Vessel Effluent SP-1302B-1 (380-193392-3), IX Combined Effluent SP-1301 (380-193392-4), TRIP BLANK (380-193392-5) and TRIP BLANK (380-193392-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
Method 624.1: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with analytical batch 570-685453. The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
Method 300.0: The following sample was diluted for Nitrite as N to prevent detector saturation due to high conductivity: UV/AOP Combined Effluent SP-1501 (380-193392-1). Elevated reporting limits (RLs) are provided.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District

380-193392 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

JOB DESCRIPTION

Intermediate Zone Testing
Weekly UV-AOP and IX

JOB NUMBER

380-194572-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

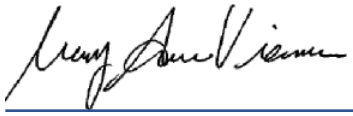

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Authorization

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
^3-	Reporting Limit Check Standard is outside acceptance limits, low biased.
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194572-1 — Eurofins Pomona

Job Narrative
380-194572-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/27/2026 4:32 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 13.9°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: UV/AOP Combined Effluent SP-1501 (380-194572-1), IX Lead Vessel Effluent SP-1302A-2 (380-194572-2), IX Lead Vessel Effluent SP-1302B-1 (380-194572-3), IX Combined Effluent SP-1301 (380-194572-4), TRIP BLANK (380-194572-5) and TRIP BLANK (380-194572-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
Method 624.1: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with analytical batch 570-688581. The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
Method 300.0: The following sample was diluted for Nitrite as N to prevent detector saturation due to high conductivity: UV/AOP Combined Effluent SP-1501 (380-194572-1). Elevated reporting limits (RLs) are provided.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-194572-1
SDG: Weekly UV-AOP and IX

Client Sample ID: UV/AOP Combined Effluent SP-1501 — Lab Sample ID: 380-194572-1

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
Nitrite as N	0.046	J	0.25	0.014	mg/L	5		300.0	Total/NA

380-194572 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

JOB DESCRIPTION

Intermediate Zone Testing
Weekly TP Effluent

JOB NUMBER

380-191628-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

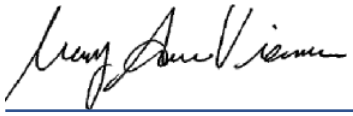

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191628-1 — Eurofins Pomona

Job Narrative
380-191628-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/9/2026 2:28 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.8°C, 8.8°C and 12.0°C.

Receipt Exceptions
The following sample was listed on the Chain of Custody (COC); however, no sample was received: TP Effluent SP-3002 (380-191628-1).

-8015C
-8015B

The following sample was received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-191628-1). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Compliance Check

The results obtained from the analytical testing of this data set were checked against compliance limits received from the client. Any results at or above the compliance limits have been highlighted for your convenience.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	N/A	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Job Notes

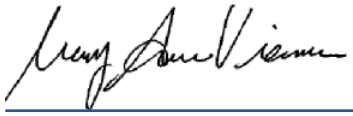

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191812-1 — Eurofins Pomona

Job Narrative
380-191812-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/12/2026 3:45 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 5.7°C.

Receipt Exceptions
8015B and 8015C containers not received for sample site.

TP Effluent SP-3002 (380-191812-1)

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/29/2026 8:43:08 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly TP Effluent

JOB NUMBER

380-194143-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

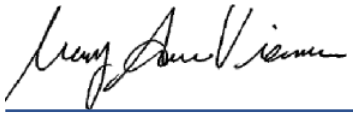

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194143-1 — Eurofins Pomona

Job Narrative
380-194143-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/23/2026 2:52 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 6.2°C.

Receipt Exceptions
The following sample was received at the laboratory outside the required temperature criteria: TP Effluent SP-3002 (380-194143-1). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 521.1: The following sample was provided to the laboratory with a significantly different initial volume than that required by the reference method: TP Effluent SP-3002 (380-194143-1). The method requires 500mL. The amount provided was below this range. The sample was extracted using 472.5mL and a 1.05 correction factor will be applied.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Accreditation/Certification Summary

Client: La Puente Valley County Water District
Job ID: 380-194143-1
Project/Site: Intermediate Zone Testing
SDG: Weekly TP Effluent

Laboratory: Eurofins Pomona

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

Authority	Program	Identification Number	Expiration Date
California	State	2813	06-18-27

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

Analysis Method	Prep Method	Matrix	Analyte
SM 2320B		Water	Bicarbonate Alkalinity as CaCO3
SM 2320B		Water	Carbonate Alkalinity as CaCO3
SM 2320B		Water	Hydroxide Alkalinity as CaCO3
SM 4500 F C		Water	Fluoride

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	N/A	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

JOB DESCRIPTION

Intermediate Zone Testing
Weekly TPH

JOB NUMBER

380-190964-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

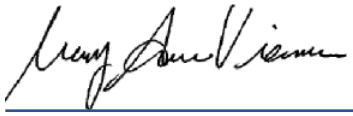

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190964-1 Eurofins Pomona

Job Narrative
380-190964-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/7/2026 2:02 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 2 coolers at receipt time were 12.6°C and 15.0°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: LGAC Lead Vessel 100% Effluent SP-1102B-1 (380-190964-1), LGAC Lead Vessel 75% SP-1105B-1 (380-190964-2), LGAC Lead Vessel 50% SP-1104B-1 (380-190964-3), LGAC Lead Vessel 25% SP-1103B-1 (380-190964-4), LGAC Lead Vessel 100% Effluent SP-1102A-2 (380-190964-5), LGAC Lead Vessel 75% SP-1105A-2 (380-190964-6), LGAC Lead Vessel 50% SP-1104A-2 (380-190964-7), LGAC Lead Vessel 25% SP-1103A-2 (380-190964-8), LGAC Lead Vessel 100% Effluent SP-1102B-3 (380-190964-9), LGAC Lead Vessel 75% SP-1105B-3 (380-190964-10), LGAC Lead Vessel 50% SP-1104B-3 (380-190964-11), LGAC Lead Vessel 25% SP-1103B-3 (380-190964-12), LGAC Lead Vessel 100% Effluent SP-1102A-4 (380-190964-13), LGAC Lead Vessel 75% SP-1105A-4 (380-190964-14), LGAC Lead Vessel 50% SP-1104A-4 (380-190964-15), LGAC Lead Vessel 25% SP-1103A-4 (380-190964-16), EQ Tank SP-1002 (380-190964-17) and Catalytic GAC Combined Effluent SP-1551 (380-190964-18). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B_DRO: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-680510.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

380-190964 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	1.2
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

Job Notes

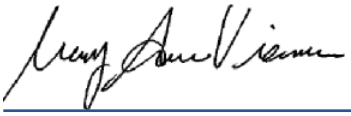

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192430-1 Eurofins Pomona

Job Narrative
380-192430-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/14/2026 3:37 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 15.3°C.

Receipt Exceptions
One or more containers for the following sample was received broken or leaking: LGAC Lead Vessel 75% SP-1105A-2 (380-192430-6). Amber glass 250ml bottle for 8015B_DRO for site LGAC Lead Vessel 75% SP-1105A-2 received broken.

The following samples were received at the laboratory outside the required temperature criteria: LGAC Lead Vessel 100% Effluent SP-1102B-1 (380-192430-1), LGAC Lead Vessel 75% SP-1105B-1 (380-192430-2), LGAC Lead Vessel 50% SP-1104B-1 (380-192430-3), LGAC Lead Vessel 25% SP-1103B-1 (380-192430-4), LGAC Lead Vessel 100% Effluent SP-1102A-2 (380-192430-5), LGAC Lead Vessel 75% SP-1105A-2 (380-192430-6), LGAC Lead Vessel 50% SP-1104A-2 (380-192430-7), LGAC Lead Vessel 25% SP-1103A-2 (380-192430-8), LGAC Lead Vessel 100% Effluent SP-1102B-3 (380-192430-9), LGAC Lead Vessel 75% SP-1105B-3 (380-192430-10), LGAC Lead Vessel 50% SP-1104B-3 (380-192430-11), LGAC Lead Vessel 25% SP-1103B-3 (380-192430-12), LGAC Lead Vessel 100% Effluent SP-1102A-4 (380-192430-13), LGAC Lead Vessel 75% SP-1105A-4 (380-192430-14), LGAC Lead Vessel 50% SP-1104A-4 (380-192430-15), LGAC Lead Vessel 25% SP-1103A-4 (380-192430-16), EQ Tank SP-1002 (380-192430-17) and Catalytic GAC Combined Effluent SP-1551 (380-192430-18). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-683342.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Action Limit Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-192430-1
SDG: Weekly TPH

Client Sample ID: LGAC Lead Vessel 100% Effluent SP-1102B-1

Lab Sample ID: 380-192430-1

Compliance Check

The results obtained from the analytical testing of this data set were checked against compliance limits received from the client. Any results at or above the compliance limits have been highlighted for your convenience.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	False	Containers received broken. No volume could be salvaged for analysis.
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Job Notes

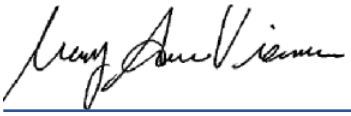

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192743-1 — Eurofins Pomona

Job Narrative
380-192743-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/15/2026 3:57 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 18.4°C.

Receipt Exceptions
The following sample was received at the laboratory outside the required temperature criteria: LGAC Lead Vessel 75% SP-1105A-2 (380-192743-1). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-684112.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

Method 8015B: The spiking solution was inadvertently omitted during the extraction process for the laboratory control sample/ laboratory control sample duplicate (LCS/LCSD) associated with preparation batch 570-684112; therefore, percent recoveries are unavailable. Due to insufficient volume remaining, the affected samples could not be re-prepared and/or re-analyzed, and the results have been reported with PM approval.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Job Notes

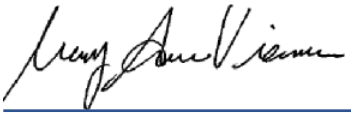

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194232-1 Eurofins Pomona

Job Narrative
380-194232-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/23/2026 2:52 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 8.6°C.

Receipt Exceptions
One or more containers for the following sample was received empty: EQ Tank SP-1002 (380-194232-17). 1 of 2 8015C_GRO vials received empty.

The following samples were received at the laboratory outside the required temperature criteria: LGAC Lead Vessel 100% Effluent SP-1102B-1 (380-194232-1), LGAC Lead Vessel 75% SP-1105B-1 (380-194232-2), LGAC Lead Vessel 50% SP-1104B-1 (380-194232-3), LGAC Lead Vessel 25% SP-1103B-1 (380-194232-4), LGAC Lead Vessel 100% Effluent SP-1102A-2 (380-194232-5), LGAC Lead Vessel 75% SP-1105A-2 (380-194232-6), LGAC Lead Vessel 50% SP-1104A-2 (380-194232-7), LGAC Lead Vessel 25% SP-1103A-2 (380-194232-8), LGAC Lead Vessel 100% Effluent SP-1102B-3 (380-194232-9), LGAC Lead Vessel 75% SP-1105B-3 (380-194232-10), LGAC Lead Vessel 50% SP-1104B-3 (380-194232-11), LGAC Lead Vessel 25%% SP-1103B-3 (380-194232-12), LGAC Lead Vessel 100% Effluent SP-1102A-4 (380-194232-13), LGAC Lead Vessel 75% SP-1105A-4 (380-194232-14), LGAC Lead Vessel 50% SP-1104A-4 (380-194232-15), LGAC Lead Vessel 25% SP-1103A-4 (380-194232-16), EQ Tank SP-1002 (380-194232-17), Catalytic GAC Combined Effluent SP-1551 (380-194232-18) and TP EFFLUENT SP-3002 (380-194232-19). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-688031. The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.

Method: 8015B_DRO

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Analysis Requested

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Possible Hazard Identification	Sample Disposal (A fee may be assessed if samples are retained longer than 1 month)

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	False	Refer to Job Narrative for details.
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/2/2026 1:12:58 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly TP Effluent

JOB NUMBER

380-194547-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

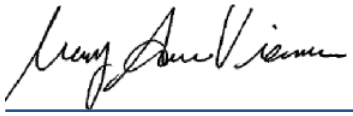

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194547-1 — Eurofins Pomona

Job Narrative
380-194547-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The sample was received on 1/27/2026 4:32 PM. Unless otherwise noted below, the sample arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 13.2°C.

Receipt Exceptions
Received an extra bottle for Fluoride

TP Effluent SP-3002 (380-194547-1)

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	N/A	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

JOB DESCRIPTION

Intermediate Zone Testing
Weekly TPH

JOB NUMBER

380-194816-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

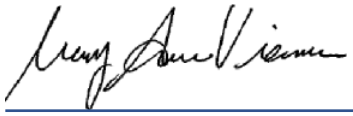

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Job ID: 380-194816-1
SDG: Weekly TPH

Qualifiers

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.
S1+	Surrogate recovery exceeds control limits, high biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194816-1 Eurofins Pomona

Job Narrative
380-194816-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/28/2026 3:19 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 20.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: LGAC Lead Vessel 100% Effluent SP-1102B-1 (380-194816-1), LGAC Lead Vessel 75% SP-1105B-1 (380-194816-2), LGAC Lead Vessel 50% SP-1104B-1 (380-194816-3), LGAC Lead Vessel 25% SP-1103B-1 (380-194816-4), LGAC Lead Vessel 100% Effluent SP-1102A-2 (380-194816-5), LGAC Lead Vessel 75% SP-1105A-2 (380-194816-6), LGAC Lead Vessel 50% SP-1104A-2 (380-194816-7), LGAC Lead Vessel 25% SP-1103A-2 (380-194816-8), LGAC Lead Vessel 100% Effluent SP-1102B-3 (380-194816-9), LGAC Lead Vessel 75% SP-1105B-3 (380-194816-10), LGAC Lead Vessel 50% SP-1104B-3 (380-194816-11), LGAC Lead Vessel 25% SP-1103B-3 (380-194816-12), LGAC Lead Vessel 100% Effluent SP-1102A-4 (380-194816-13), LGAC Lead Vessel 75% SP-1105A-4 (380-194816-14), LGAC Lead Vessel 50% SP-1104A-4 (380-194816-15), LGAC Lead Vessel 25% SP-1103A-4 (380-194816-16), EQ Tank SP-1002 (380-194816-17), Catalytic GAC Combined Effluent SP-1551 (380-194816-18) and TP EFFLUENT SP-3002 (380-194816-19). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-690636.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

Method 8015B: Surrogate recovery for the following sample was outside control limits: LGAC Lead Vessel 75% SP-1105B-1 (380-194816-2). Evidence of matrix interference is present; therefore, re-extraction and/or re-analysis was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

380-194816 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Analysis Requested

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Possible Hazard Identification	Sample Disposal (A fee may be assessed if samples are retained longer than 1 month)
Unconfirmed	☐ Return To Client ☐ Disposal By Lab ☐ Archive For _____ Months

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	1.8
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	fgf5
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/12/2026 11:43:09 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 5 Thurs - GRO and DRO

JOB NUMBER

380-191303-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

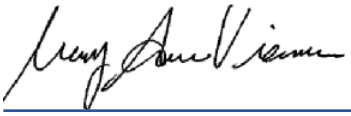

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191303-2 — Eurofins Pomona

Job Narrative
380-191303-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/8/2026 10:52 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 11.1°C, 11.6°C and 12.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-191303-1), WELL MZ-2 (380-191303-2), WELL MZ-3 (380-191303-3), WELL IZ-1 (380-191303-4), WELL IZ-East (380-191303-5) and WELL IZ-West (380-191303-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	2.0
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/12/2026 11:43:09 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 5 Wed - GRO and DRO

JOB NUMBER

380-190967-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

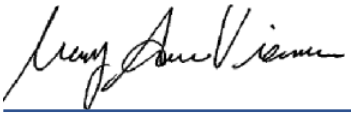

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190967-2 — Eurofins Pomona

Job Narrative
380-190967-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/7/2026 1:59 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 18.6°C, 19.0°C and 20.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-190967-1), WELL MZ-2 (380-190967-2), WELL MZ-3 (380-190967-3), WELL IZ-1 (380-190967-4), WELL IZ-East (380-190967-5) and WELL IZ-West (380-190967-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
Method 8015C_GRO: The method blank for 570-680869 contained Gasoline Range Organics (C4-C13) above the method detection limit. None of the samples associated with this method blank contained the target compound; therefore, re-extraction and/or re-analysis of samples were not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Creator: Ngo, Theodore

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	1.2
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 5 Tues

JOB NUMBER

380-190613-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

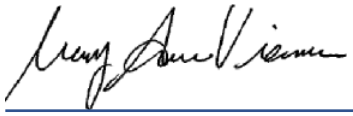

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190613-1 Eurofins Pomona

Job Narrative
380-190613-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/6/2026 1:45 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.6°C, 7.9°C and 8.8°C.

Receipt Exceptions
The Chain-of-Custody (COC) was incomplete as received and/or improperly completed. Sample year is incorrect

Update (UMV1 - 1/9/26): The client sent an updated Chain of Custody on 1/9/26

The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-190613-1), WELL MZ-2 (380-190613-2), WELL MZ-3 (380-190613-3), WELL IZ-1 (380-190613-4), WELL IZ-East (380-190613-5) and WELL IZ-West (380-190613-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 8270E_QQQ: The continuing calibration verification (CCV) associated with batch 570-680153 recovered above the upper control limit for 1-Methylnaphthalene and 2-Methylnaphthalene. The samples associated with this CCV were non-detects for the affected analytes; therefore, the data have been reported. The associated samples are:WELL MZ-2 (380-190613-2), WELL MZ-3 (380-190613-3), WELL IZ-1 (380-190613-4), WELL IZ-East (380-190613-5) and WELL IZ-West (380-190613-6).

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: The method requirement for no headspace was not met. The following volatile samples were analyzed with headspace in the sample container(s): WELL MZ-1 (380-190613-1), WELL MZ-2 (380-190613-2), WELL MZ-3 (380-190613-3), WELL IZ-1 (380-190613-4), WELL IZ-East (380-190613-5) and WELL IZ-West (380-190613-6). This does not meet regulatory requirement.

Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-190613-1), WELL MZ-2 (380-190613-2), WELL MZ-3 (380-190613-3), WELL IZ-1 (380-190613-4), WELL IZ-East (380-190613-5) and WELL IZ-West (380-190613-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/19/2026 5:09:20 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 5 Wed

JOB NUMBER

380-190967-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

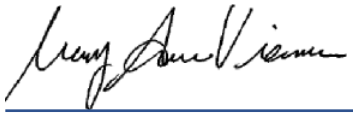

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
*1	LCS/LCSD RPD exceeds control limits.
B	Analyte was found in the associated method blank.
I	Value is EMPC (estimated maximum possible concentration).
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190967-1 Eurofins Pomona

Job Narrative
380-190967-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/7/2026 1:59 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 18.6°C, 19.0°C and 20.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-190967-1), WELL MZ-2 (380-190967-2), WELL MZ-3 (380-190967-3), WELL IZ-1 (380-190967-4), WELL IZ-East (380-190967-5) and WELL IZ-West (380-190967-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 8270E_QQQ: Ion abundance ratios are outside criteria for the following sample: (MB 570-680767/1-A). Quantitation is based on the theoretical ion abundance ratio; therefore, these analytes have been reported as an estimated maximum possible concentration (EMPC). The affected analytes have been flagged.

Method 8270E_QQQ: The method blank for preparation batch 570-680767 and analytical batch 570-681162 contained Benzo[a]anthracene above the method detection limit. This target analyte concentration was less than half the reporting limit (RL) in the method blank; therefore, re-extraction and/or re-analysis of samples was not performed.

Method 8270E_QQQ: The RPD of the laboratory control sample (LCS) and laboratory control sample duplicate (LCSD) for preparation batch 570-680767 and analytical batch 570-681162 recovered outside control limits for the following analytes: Indeno[1,2,3-cd]pyrene. Laboratory control sample / laboratory control sample duplicate (LCS/LCSD) percent recovery is in control for affected analytes.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-190967-1), WELL MZ-2 (380-190967-2), WELL MZ-3 (380-190967-3), WELL IZ-1 (380-190967-4), WELL IZ-East (380-190967-5) and WELL IZ-West (380-190967-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-190967-1
SDG: Weekly Wells Week 5 Wed

Client Sample ID: WELL MZ-1 — Lab Sample ID: 380-190967-1

No Detections.

Client Sample ID: WELL MZ-2 — Lab Sample ID: 380-190967-2

No Detections.

Client Sample ID: WELL MZ-3 — Lab Sample ID: 380-190967-3

No Detections.

Client Sample ID: WELL IZ-1 — Lab Sample ID: 380-190967-4

No Detections.

Client Sample ID: WELL IZ-East — Lab Sample ID: 380-190967-5

No Detections.

Client Sample ID: WELL IZ-West — Lab Sample ID: 380-190967-6

No Detections.

This Detection Summary does not include radiochemical test results.

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/16/2026 11:43:09 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 5 Thurs - GRO and DRO

JOB NUMBER

380-192017-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

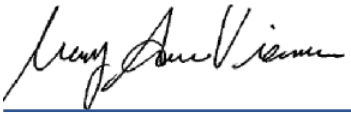

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192017-2 — Eurofins Pomona

Job Narrative
380-192017-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/13/2026 3:06 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 13.9°C, 14.8°C and 15.5°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-192017-1), WELL MZ-2 (380-192017-2), WELL MZ-3 (380-192017-3), WELL IZ-1 (380-192017-4), WELL IZ-EAST (380-192017-5) and WELL IZ-WEST (380-192017-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B_DRO: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-682884.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 5 Thurs

JOB NUMBER

380-191303-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

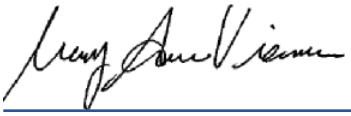

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
*1	LCS/LCSD RPD exceeds control limits.
B	Analyte was found in the associated method blank.
I	Value is EMPC (estimated maximum possible concentration).
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191303-1 Eurofins Pomona

Job Narrative
380-191303-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/8/2026 10:52 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 11.1°C, 11.6°C and 12.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-191303-1), WELL MZ-2 (380-191303-2), WELL MZ-3 (380-191303-3), WELL IZ-1 (380-191303-4), WELL IZ-East (380-191303-5) and WELL IZ-West (380-191303-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 8270E_QQQ: Ion abundance ratios are outside criteria for the following sample: (MB 570-680767/1-A). Quantitation is based on the theoretical ion abundance ratio; therefore, these analytes have been reported as an estimated maximum possible concentration (EMPC). The affected analytes have been flagged.

Method 8270E_QQQ: The method blank for preparation batch 570-680767 and analytical batch 570-681162 contained Benzo[a]anthracene above the method detection limit. This target analyte concentration was less than half the reporting limit (RL) in the method blank; therefore, re-extraction and/or re-analysis of samples was not performed.

Method 8270E_QQQ: The RPD of the laboratory control sample (LCS) and laboratory control sample duplicate (LCSD) for preparation batch 570-680767 and analytical batch 570-681162 recovered outside control limits for the following analytes: Indeno[1,2,3-cd]pyrene. Laboratory control sample / laboratory control sample duplicate (LCS/LCSD) percent recovery is in control for affected analytes.

Method 8270E_QQQ: The RPD of the laboratory control sample (LCS) and laboratory control sample duplicate (LCSD) for preparation batch 570-680767 and analytical batch 570-681164 recovered outside control limits for the following analytes: Indeno[1,2,3-cd]pyrene.

Method 8270E_QQQ: The method blank for preparation batch 570-680767 and analytical batch 570-681164 contained Benzo[a]anthracene above the method detection limit. This target analyte concentration was less than the reporting limit (RL) in the method blank; therefore, re-extraction and/or re-analysis of samples was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-191303-1), WELL MZ-2 (380-191303-2), WELL MZ-3 (380-191303-3), WELL IZ-1 (380-191303-4), WELL IZ-East (380-191303-5) and WELL IZ-West (380-191303-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-191303-1
SDG: Weekly Wells Week 5 Thurs

Client Sample ID: WELL MZ-1 — Lab Sample ID: 380-191303-1

No Detections.

Client Sample ID: WELL MZ-2 — Lab Sample ID: 380-191303-2

No Detections.

Client Sample ID: WELL MZ-3 — Lab Sample ID: 380-191303-3

No Detections.

Client Sample ID: WELL IZ-1 — Lab Sample ID: 380-191303-4

No Detections.

Client Sample ID: WELL IZ-East — Lab Sample ID: 380-191303-5

No Detections.

Client Sample ID: WELL IZ-West — Lab Sample ID: 380-191303-6

No Detections.

This Detection Summary does not include radiochemical test results.

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/22/2026 11:53:09 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 5 Thurs

JOB NUMBER

380-192017-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

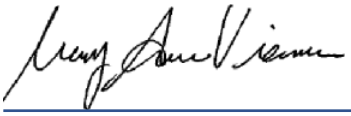

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Definitions/Glossary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-192017-1
SDG: Weekly Wells Week 5 Thurs

Qualifiers

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192017-1 Eurofins Pomona

Job Narrative
380-192017-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/13/2026 3:06 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 13.9°C, 14.8°C and 15.5°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-192017-1), WELL MZ-2 (380-192017-2), WELL MZ-3 (380-192017-3), WELL IZ-1 (380-192017-4), WELL IZ-EAST (380-192017-5) and WELL IZ-WEST (380-192017-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-2 (380-192017-2), WELL MZ-3 (380-192017-3), WELL IZ-1 (380-192017-4), WELL IZ-EAST (380-192017-5) and WELL IZ-WEST (380-192017-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

Method D8028: Surrogate recovery for the following sample was outside control limits: WELL MZ-1 (380-192017-1). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-192017-1
SDG: Weekly Wells Week 5 Thurs

Client Sample ID: WELL MZ-1 — Lab Sample ID: 380-192017-1

No Detections.

Client Sample ID: WELL MZ-2 — Lab Sample ID: 380-192017-2

No Detections.

Client Sample ID: WELL MZ-3 — Lab Sample ID: 380-192017-3

No Detections.

Client Sample ID: WELL IZ-1 — Lab Sample ID: 380-192017-4

No Detections.

Client Sample ID: WELL IZ-EAST — Lab Sample ID: 380-192017-5

No Detections.

Client Sample ID: WELL IZ-WEST — Lab Sample ID: 380-192017-6

No Detections.

This Detection Summary does not include radiochemical test results.

Job Notes

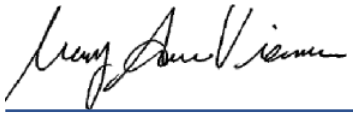

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-190613-2 — Eurofins Pomona

Job Narrative
380-190613-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/6/2026 1:45 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.6°C, 7.9°C and 8.8°C.

Receipt Exceptions
The Chain-of-Custody (COC) was incomplete as received and/or improperly completed. Sample year is incorrect

Update (UMV1 - 1/9/26): The client sent an updated Chain of Custody on 1/9/26

The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-190613-1), WELL MZ-2 (380-190613-2), WELL MZ-3 (380-190613-3), WELL IZ-1 (380-190613-4), WELL IZ-East (380-190613-5) and WELL IZ-West (380-190613-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-190613-2
SDG: Weekly Wells Week 5 Tues - GRO and DRO

Client Sample ID: WELL MZ-1 — Lab Sample ID: 380-190613-1

No Detections.

Client Sample ID: WELL MZ-2 — Lab Sample ID: 380-190613-2

No Detections.

Client Sample ID: WELL MZ-3 — Lab Sample ID: 380-190613-3

No Detections.

Client Sample ID: WELL IZ-1 — Lab Sample ID: 380-190613-4

No Detections.

Client Sample ID: WELL IZ-East — Lab Sample ID: 380-190613-5

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
Gasoline Range Organics (C4-C13)	28	J	50	28	ug/L	1		8015C	Total/NA

Client Sample ID: WELL IZ-West — Lab Sample ID: 380-190613-6

No Detections.

This Detection Summary does not include radiochemical test results.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Login Sample Receipt Checklist

Client: La Puente Valley County Water District

Job Number: 380-190613-2

SDG Number: Weekly Wells Week 5 Tues - GRO and DRO

Login Number: 190613

List Source: Eurofins Calscience

List Number: 2

List Creation: 01/07/26 03:29 PM

Creator: Khana, Piyush

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	1.7
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/19/2026 12:48:06 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 6 Wed - GRO and DRO

JOB NUMBER

380-192374-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

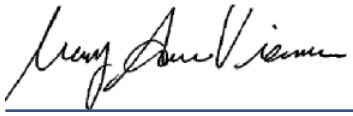

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192374-2 — Eurofins Pomona

Job Narrative
380-192374-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/14/2026 3:40 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 11.3°C, 13.4°C and 14.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-192374-1), WELL MZ-2 (380-192374-2), WELL MZ-3 (380-192374-3), WELL IZ-1 (380-192374-4), WELL IZ-East (380-192374-5) and WELL IZ-West (380-192374-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-192374-2
SDG: Weekly Wells Week 6 Wed - GRO and DRO

Client Sample ID: WELL MZ-1 — Lab Sample ID: 380-192374-1

No Detections.

Client Sample ID: WELL MZ-2 — Lab Sample ID: 380-192374-2

No Detections.

Client Sample ID: WELL MZ-3 — Lab Sample ID: 380-192374-3

No Detections.

Client Sample ID: WELL IZ-1 — Lab Sample ID: 380-192374-4

No Detections.

Client Sample ID: WELL IZ-East — Lab Sample ID: 380-192374-5

Analyte	Result	Qualifier	RL	MDL	Unit	Dil Fac	D	Method	Prep Type
Gasoline Range Organics (C4-C13)	31	J	50	28	ug/L	1		8015C	Total/NA

Client Sample ID: WELL IZ-West — Lab Sample ID: 380-192374-6

No Detections.

This Detection Summary does not include radiochemical test results.

380-192374 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/22/2026 4:48:18 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 6 Wed

JOB NUMBER

380-192374-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

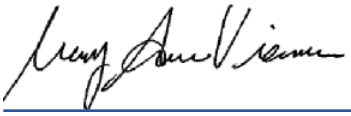

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192374-1 Eurofins Pomona

Job Narrative
380-192374-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/14/2026 3:40 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 11.3°C, 13.4°C and 14.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-192374-1), WELL MZ-2 (380-192374-2), WELL MZ-3 (380-192374-3), WELL IZ-1 (380-192374-4), WELL IZ-East (380-192374-5) and WELL IZ-West (380-192374-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: The method requirement for no headspace was not met. The following volatile samples were analyzed with headspace in the sample container(s): WELL MZ-2 (380-192374-2), WELL IZ-1 (380-192374-4), WELL IZ-East (380-192374-5) and WELL IZ-West (380-192374-6). This does not meet regulatory requirement.

Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-192374-1), WELL MZ-2 (380-192374-2), WELL MZ-3 (380-192374-3), WELL IZ-1 (380-192374-4), WELL IZ-East (380-192374-5) and WELL IZ-West (380-192374-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	2.9 /3.0 2.0 /2.1 IR-5
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	fgf5
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/20/2026 12:02:57 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 6 Thurs

JOB NUMBER

380-192771-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

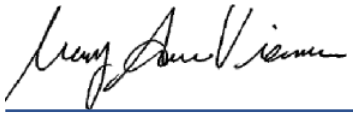

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192771-2 — Eurofins Pomona

Job Narrative
380-192771-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/15/2026 3:57 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 13.3°C, 14.1°C and 14.8°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-192771-1), WELL MZ-2 (380-192771-2), WELL MZ-3 (380-192771-3), WELL IZ-1 (380-192771-4), WELL IZ-East (380-192771-5) and WELL IZ-West (380-192771-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: The method blank for preparation batch 570-684002 and analytical batch 570-684247 contained C23-C44 and C13-C44 above the method detection limit. This target analyte concentration was less than the reporting limit (RL) in the method blank; therefore, re-extraction and/or re-analysis of samples was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-192771-2

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	0.9/1.0
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/27/2026 12:48:02 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 6 Thurs

JOB NUMBER

380-192771-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

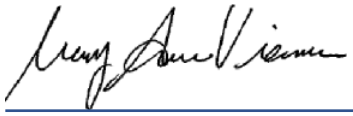

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192771-1 Eurofins Pomona

Job Narrative
380-192771-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/15/2026 3:57 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 13.3°C, 14.1°C and 14.8°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-192771-1), WELL MZ-2 (380-192771-2), WELL MZ-3 (380-192771-3), WELL IZ-1 (380-192771-4), WELL IZ-East (380-192771-5) and WELL IZ-West (380-192771-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-192771-1), WELL MZ-2 (380-192771-2), WELL MZ-3 (380-192771-3), WELL IZ-1 (380-192771-4), WELL IZ-East (380-192771-5) and WELL IZ-West (380-192771-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/27/2026 12:32:57 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 7 Fri - GRO and DRO

JOB NUMBER

380-194136-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

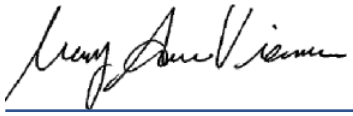

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194136-2 — Eurofins Pomona

Job Narrative
380-194136-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/23/2026 2:38 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.6°C, 7.7°C and 10.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-194136-1), WELL MZ-2 (380-194136-2), WELL MZ-3 (380-194136-3), WELL IZ-1 (380-194136-4), WELL IZ-East (380-194136-5) and WELL IZ-West (380-194136-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-687133.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Login Sample Receipt Checklist

Client: La Puente Valley County Water District

Job Number: 380-194136-2

SDG Number: Weekly Wells Week 7 Fri - GRO and DRO

Login Number: 194136

List Source: Eurofins Pomona

List Number: 1

Creator: Edrosa, Rey

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	0.3/0.4
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	2k9r
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/3/2026 10:48:02 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 7 Fri

JOB NUMBER

380-194136-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

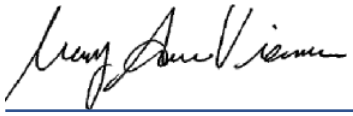

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
I	Value is EMPC (estimated maximum possible concentration).
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194136-1 Eurofins Pomona

Job Narrative
380-194136-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/23/2026 2:38 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.6°C, 7.7°C and 10.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-194136-1), WELL MZ-2 (380-194136-2), WELL MZ-3 (380-194136-3), WELL IZ-1 (380-194136-4), WELL IZ-East (380-194136-5) and WELL IZ-West (380-194136-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 8270E: Ion abundance ratios are outside criteria for the following samples: WELL MZ-1 (380-194136-1), WELL MZ-2 (380-194136-2), WELL MZ-3 (380-194136-3) and WELL IZ-East (380-194136-5). Quantitation is based on the theoretical ion abundance ratio; therefore, these analytes have been reported as an estimated maximum possible concentration (EMPC). The affected analytes have been flagged.

Method 8270E: The laboratory control sample (LCS) and / or laboratory control sample duplicate (LCSD) for preparation batch 570-686882 and analytical batch 570-688594 recovered outside control limits for the following analytes: Dibenz(a,h)anthracene. These analytes were biased high in the LCS and were not detected in the associated samples; therefore, the data have been reported.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: The method requirement for no headspace was not met. The following volatile samples were analyzed with headspace in the sample container(s): WELL IZ-East (380-194136-5) and WELL IZ-West (380-194136-6). This does not meet regulatory requirement.

Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-194136-1), WELL MZ-2 (380-194136-2), WELL MZ-3 (380-194136-3), WELL IZ-1 (380-194136-4), WELL IZ-East (380-194136-5) and WELL IZ-West (380-194136-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Possible Hazard Identification	Sample Disposal (A fee may be assessed if samples are retained longer than 1 month)
Unconfirmed	☐ Return To Client ☐ Disposal By Lab ☐ Archive For _____ Months

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	0.3/0.4
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	2k9r
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

Job Notes

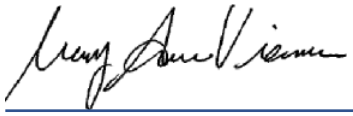

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-193707-2 — Eurofins Pomona

Job Narrative
380-193707-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/21/2026 12:54 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 12.1°C, 12.5°C and 13.7°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-193707-1), WELL MZ-2 (380-193707-2), WELL MZ-3 (380-193707-3), WELL IZ-1 (380-193707-4), WELL IZ-East (380-193707-5) and WELL IZ-West (380-193707-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
Method 8015C: The method requirement for no headspace was not met. The following volatile samples were analyzed with headspace in the sample container(s): WELL IZ-East (380-193707-5) and WELL IZ-West (380-193707-6).

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-685709.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District

380-193707 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	2.3 /2.0 IR-1
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/2/2026 6:57:55 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 7 Wed

JOB NUMBER

380-193707-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

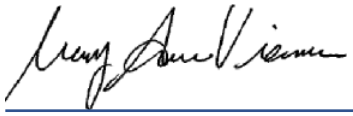

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-193707-1 Eurofins Pomona

Job Narrative
380-193707-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/21/2026 12:54 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 12.1°C, 12.5°C and 13.7°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-193707-1), WELL MZ-2 (380-193707-2), WELL MZ-3 (380-193707-3), WELL IZ-1 (380-193707-4), WELL IZ-East (380-193707-5) and WELL IZ-West (380-193707-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 8270E: The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch. Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-685733.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: The method requirement for no headspace was not met. The following volatile samples were analyzed with headspace in the sample container(s): WELL MZ-2 (380-193707-2), WELL MZ-3 (380-193707-3), WELL IZ-1 (380-193707-4), WELL IZ-East (380-193707-5) and WELL IZ-West (380-193707-6). This does not meet regulatory requirement.

Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-193707-1), WELL MZ-2 (380-193707-2), WELL MZ-3 (380-193707-3), WELL IZ-1 (380-193707-4), WELL IZ-East (380-193707-5) and WELL IZ-West (380-193707-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

Method D8028: The continuing calibration verification (CCV) associated with batch 410-761960 recovered above the upper control limit for Acetylene. The samples associated with this CCV were non-detects for the affected analytes; therefore, the data have been reported. The associated samples are:WELL MZ-1 (380-193707-1), WELL MZ-2 (380-193707-2), WELL MZ-3 (380-193707-3), WELL IZ-1 (380-193707-4), WELL IZ-East (380-193707-5) and WELL IZ-West (380-193707-6).

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 1/30/2026 4:13:38 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 8 Tues - GRO and DRO

JOB NUMBER

380-194436-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

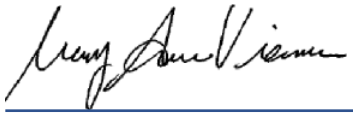

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC Semi VOA

Qualifier	Qualifier Description
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194436-2 — Eurofins Pomona

Job Narrative
380-194436-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/27/2026 11:06 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 10.1°C, 10.8°C and 12.6°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-194436-1), WELL MZ-2 (380-194436-2), WELL MZ-3 (380-194436-3), WELL IZ-1 (380-194436-4), WELL IZ-East (380-194436-5) and WELL IZ-West (380-194436-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate (MS/MSD) associated with preparation batch 570-688172.The laboratory control sample (LCS) was performed in duplicate (LCSD) to provide precision data for this batch.
Method: 8015 DRO

Method 8015B: The method blank for preparation batch 570-688172 and analytical batch 570-688669 contained C13-C44 above the method detection limit. This target analyte concentration was less than the reporting limit (RL) in the method blank; therefore, re-extraction and/or re-analysis of samples was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-194436-2
SDG: Weekly Wells Week 8 Tues - GRO and DRO

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	N/A	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	1.7
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	fgf5
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 8 Tues

JOB NUMBER

380-194436-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

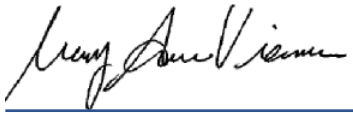

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
*3	ISTD response or retention time outside acceptable limits.

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194436-1 — Eurofins Pomona

Job Narrative
380-194436-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/27/2026 11:06 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 10.1°C, 10.8°C and 12.6°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-194436-1), WELL MZ-2 (380-194436-2), WELL MZ-3 (380-194436-3), WELL IZ-1 (380-194436-4), WELL IZ-East (380-194436-5) and WELL IZ-West (380-194436-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 8270E: Internal standard (ISTD) response for the following sample was outside of acceptance limits: WELL IZ-1 (380-194436-4). The sample(s) was not re-analyzed due to ISTD failing low causing biased high and analytes affected were non detected in associated sample.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-194436-1), WELL MZ-2 (380-194436-2), WELL MZ-3 (380-194436-3), WELL IZ-1 (380-194436-4), WELL IZ-East (380-194436-5) and WELL IZ-West (380-194436-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

Method D8028: The method requirement for no headspace was not met. The following volatile samples were analyzed with headspace in the sample container(s): WELL MZ-1 (380-194436-1), WELL MZ-2 (380-194436-2), WELL MZ-3 (380-194436-3), WELL IZ-1 (380-194436-4) and WELL IZ-East (380-194436-5). This does not meet regulatory requirement.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

380-194436 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Possible Hazard Identification *Unconfirmed*	***Sample Disposal (A fee may be assessed if samples are retained longer than 1 month)*** ☐ *Return To Client* ☐ *Disposal By Lab* ☐ *Archive For* _____ *Months*

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	N/A	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/2/2026 5:38:02 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 8 Wed - GRO and DRO

JOB NUMBER

380-194751-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

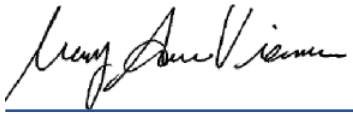

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194751-2 — Eurofins Pomona

Job Narrative
380-194751-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/28/2026 11:50 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 12.9°C, 13.2°C and 13.9°C.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

La Puente, California 91744

Generated 2/3/2026 10:53:17 AM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 8 Thu - GRO and DRO

JOB NUMBER

380-195055-2

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

my EOL

Job Notes

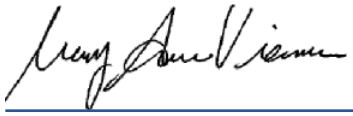

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-195055-2 — Eurofins Pomona

Job Narrative
380-195055-2

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/29/2026 11:55 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 19.2°C, 19.6°C and 20.6°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-195055-1), WELL MZ-2 (380-195055-2), WELL MZ-3 (380-195055-3), WELL IZ-1 (380-195055-4), WELL IZ-East (380-195055-5) and WELL IZ-West (380-195055-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B: Insufficient sample volume was available to perform a matrix spike/matrix spike duplicate/sample duplicate (MS/MSD/DUP) associated with preparation batch 570-689794.
Method: 8015B_DRO

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

380-195055 Chain of Custody

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

La Puente, California 91744

Generated 2/9/2026 4:38:02 PM

JOB DESCRIPTION

Intermediate Zone Testing
Weekly Wells Week 8 Thu

JOB NUMBER

380-195055-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

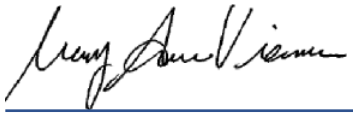

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

SDG: Weekly Wells Week 8 Thu

Qualifiers

GC/MS Semi VOA

Qualifier	Qualifier Description
*1	LCS/LCSD RPD exceeds control limits.
I	Value is EMPC (estimated maximum possible concentration).

GC VOA

Qualifier	Qualifier Description
S1-	Surrogate recovery exceeds control limits, low biased.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-195055-1 Eurofins Pomona

Job Narrative
380-195055-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/29/2026 11:55 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 19.2°C, 19.6°C and 20.6°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-195055-1), WELL MZ-2 (380-195055-2), WELL MZ-3 (380-195055-3), WELL IZ-1 (380-195055-4), WELL IZ-East (380-195055-5) and WELL IZ-West (380-195055-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS Semi VOA
Method 8270E: Ion abundance ratios are outside criteria for the following sample: (LCS 570-690896/2-A). Quantitation is based on the theoretical ion abundance ratio; therefore, these analytes have been reported as an estimated maximum possible concentration (EMPC). The affected analytes have been flagged.

Method 8270E: The continuing calibration verification (CCV) associated with batch 570-691335 recovered above the upper control limit for Dibenz(a,h)anthracene. The samples associated with this CCV were non-detects for the affected analytes; therefore, the data have been reported.

Method 8270E: The laboratory control sample duplicate (LCSD) for preparation batch 570-690896 and analytical batch 570-691335 recovered outside control limits for the following analytes: 1-Methylnaphthalene, Acenaphthene, Acenaphthylene, Anthracene, Benzo[a]pyrene, Benzo[g,h,i]perylene, Dibenz(a,h)anthracene, Fluorene, Indeno[1,2,3-cd]pyrene and Phenanthrene. These analytes were biased high in the LCSD and were not detected in the associated samples; therefore, the data have been reported.

Method 8270E: The RPD of the laboratory control sample duplicate (LCSD) for preparation batch 570-690896 and analytical batch 570-691335 recovered outside control limits for the following analytes: 1-Methylnaphthalene, 2-Methylnaphthalene, Acenaphthylene, Anthracene, Benzo[a]anthracene, Benzo[a]pyrene, Benzo[b]fluoranthene, Benzo[g,h,i]perylene, Benzo[k]fluoranthene, Chrysene, Dibenz(a,h)anthracene, Fluoranthene, Fluorene, Indeno[1,2,3-cd]pyrene, Phenanthrene and Pyrene.

Method 8270E: The RPD of the laboratory control sample (LCS) and laboratory control sample duplicate (LCSD) for preparation batch 570-690896 and analytical batch 570-693220 recovered outside control limits for the following analytes: Benzo[g,h,i]perylene.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC VOA
Method D8028: Surrogate recovery for the following samples were outside control limits: WELL MZ-1 (380-195055-1), WELL MZ-2 (380-195055-2), WELL MZ-3 (380-195055-3), WELL IZ-1 (380-195055-4), WELL IZ-East (380-195055-5) and WELL IZ-West (380-195055-6). Re-extraction and/or re-analysis was performed and surrogate recovery was outside control limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-195055-1
SDG: Weekly Wells Week 8 Thu

Client Sample ID: WELL MZ-1 — Lab Sample ID: 380-195055-1

No Detections.

Client Sample ID: WELL MZ-2 — Lab Sample ID: 380-195055-2

No Detections.

Client Sample ID: WELL MZ-3 — Lab Sample ID: 380-195055-3

No Detections.

Client Sample ID: WELL IZ-1 — Lab Sample ID: 380-195055-4

No Detections.

Client Sample ID: WELL IZ-East — Lab Sample ID: 380-195055-5

No Detections.

Client Sample ID: WELL IZ-West — Lab Sample ID: 380-195055-6

No Detections.

This Detection Summary does not include radiochemical test results.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/2/2026 5:37:59 AM

JOB DESCRIPTION

Intermediate Zone Testing
Well Resamples

JOB NUMBER

380-195022-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

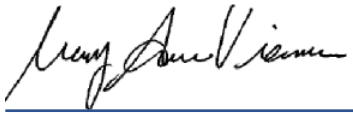

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Job ID: 380-195022-1
SDG: Well Resamples

Qualifiers

GC VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-195022-1 — Eurofins Pomona

Job Narrative
380-195022-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/29/2026 11:55 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 15.3°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL IZ-East (380-195022-1) and WELL IZ-West (380-195022-2). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Job Notes

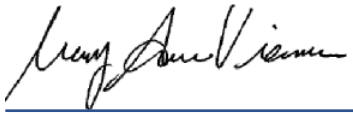

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)

Glossary (Continued)

Abbreviation	These commonly used abbreviations may or may not be present in this report.
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-191657-1 Eurofins Pomona

Job Narrative
380-191657-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/9/2026 2:28 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 3 coolers at receipt time were 6.8°C, 8.8°C and 12.0°C.

Receipt Exceptions
Client used correction tape in the following areas

Sample Identification
Treated Water Effluent SP-3002
Line under Treated Water Effluent SP-3002

Sample Type
Combined LGAC Effluent SP-1201
Trip Blank
IX Combined Effluent SP-1301

Combined LGAC Effluent SP-1201 (380-191657-1), Trip Blank (380-191657-2), IX Combined Effluent SP-1301 (380-191657-3), UV/AOP Combined Effluent SP-1501 (380-191657-4), UV/AOP Combined Influent (After H2O2) SP-1003 (380-191657-5) and Treated Water Effluent SP-3002 (380-191657-6)

The following samples were received at the laboratory outside the required temperature criteria: Combined LGAC Effluent SP-1201 (380-191657-1), Trip Blank (380-191657-2), IX Combined Effluent SP-1301 (380-191657-3), UV/AOP Combined Effluent SP-1501 (380-191657-4), UV/AOP Combined Influent (After H2O2) SP-1003 (380-191657-5) and Treated Water Effluent SP-3002 (380-191657-6). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics
Method 8015B_DRO: The method blank for preparation batch 570-681257 and analytical batch 570-681189 contained C23-C44 and C13-C44 above the method detection limit. This target analyte concentration was less than the reporting limit (RL) in the method blank; therefore, re-extraction and/or re-analysis of samples was not performed.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC

Job ID: 380-191657-1 (Continued) Eurofins Pomona

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Biology
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Accreditation/Certification Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-191657-1
SDG: LPVCWD - Monthly

Laboratory: Eurofins Pomona

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

Authority	Program	Identification Number	Expiration Date
California	State	2813	06-18-27

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

Analysis Method	Prep Method	Matrix	Analyte
524.2		Water	1,1-Dichloropropene
524.2		Water	1,2,3-Trichloropropane
524.2		Water	1,3-Dichloropropane
524.2		Water	2,2-Dichloropropane
524.2		Water	2-Butanone (MEK)
524.2		Water	Bromobenzene
524.2		Water	Bromochloromethane
524.2		Water	Bromoethane
524.2		Water	Bromomethane (Methyl Bromide)
524.2		Water	Chloroethane
524.2		Water	Chloromethane (methyl chloride)
524.2		Water	Dibromomethane
524.2		Water	Diisopropyl ether
524.2		Water	Hexachlorobutadiene
524.2		Water	p-Isopropyltoluene
SM 2320B		Water	Bicarbonate Alkalinity as CaCO3
SM 2320B		Water	Carbonate Alkalinity as CaCO3
SM 2320B		Water	Hydroxide Alkalinity as CaCO3

Laboratory: Eurofins Calscience

All accreditations/certifications held by this laboratory are listed. Not all accreditations/certifications are applicable to this report.

Note: Since laboratory accreditations are subject to change, Eurofins Drinking Water and Wastewater West, LLC places the ownership of method, analyte & accreditation compliance upon our subcontract laboratories. This sample shipment is forwarded under chain-of-custody. If the laboratory does not currently maintain accreditation in the State of Origin listed above for analysis/tests/matrix being analyzed, the samples must be shipped back to the Eurofins Drinking Water and Wastewater West, LLC laboratory or other instructions will be provided. Any changes to accreditation status should be brought to Eurofins Drinking Water and Wastewater West, LLC attention immediately. If all requested accreditations are current to date, return the signed Chain of Custody attesting to said compliance to Eurofins Drinking Water and Wastewater West, LLC.

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	N/A	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	COC does, however, contains non-validated text corrections.
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	N/A	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

Question	Answer	Comment
Radioactivity wasn't checked or is </= background as measured by a survey meter.	N/A	
The cooler's custody seal, if present, is intact.	True	
Sample custody seals, if present, are intact.	True	
The cooler or samples do not appear to have been compromised or tampered with.	True	
Samples were received on ice.	True	
Cooler Temperature is acceptable.	True	
Cooler Temperature is recorded.	True	1.4/1.5
COC is present.	True	
COC is filled out in ink and legible.	True	
COC is filled out with all pertinent information.	True	
Is the Field Sampler's name present on COC?	N/A	Received project as a subcontract.
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
Appropriate sample containers are used.	True	
Sample bottles are completely filled.	True	
Sample Preservation Verified.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
Multiphasic samples are not present.	True	
Samples do not require splitting or compositing.	True	
Residual Chlorine Checked.	N/A

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/13/2026 1:41:50 PM

JOB DESCRIPTION

Intermediate Zone Testing
PVOU-IZ Monthly Wells Jan

JOB NUMBER

380-192059-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

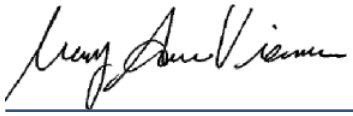

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.
Q3	Sample received with improper chemical preservation.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC Semi VOA

Qualifier	Qualifier Description
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

HPLC/IC

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

LCMS

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Dioxin

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Metals

Qualifier	Qualifier Description
F1	MS and/or MSD recovery exceeds control limits.
F2	MS/MSD RPD exceeds control limits
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

General Chemistry

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Rad

Qualifier	Qualifier Description
F1	MS and/or MSD recovery exceeds control limits.
U	Result is less than the sample detection limit.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"

Glossary (Continued)

Abbreviation	These commonly used abbreviations may or may not be present in this report.
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-192059-1 — Eurofins Pomona

Job Narrative
380-192059-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/13/2026 3:03 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperatures of the 12 coolers at receipt time were 7.3°C, 8.5°C, 13.5°C, 14.3°C, 16.6°C, 18.6°C, 18.6°C, 19.3°C, 19.6°C, 19.8°C, 20.6°C and 21.0°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-1 (380-192059-1), WELL MZ-2 (380-192059-2), WELL MZ-3 (380-192059-3), WELL IZ-1 (380-192059-4), WELL IZ-EAST (380-192059-5), WELL IZ-WEST (380-192059-6) and Trip Blank (380-192059-7). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

Subcontract Work
Method Asbestos 100.2: This method was subcontracted to Eurofins CEI Inc. The subcontract laboratory certification is different from that of the facility issuing the final report. The subcontract report is appended in its entirety.

GC/MS VOA
Method 524.2: The following sample(s) were collected in properly preserved vials for analysis of volatile organic compounds (VOCs). However, the pH was outside the required criteria when verified by the laboratory, and corrective action was not possible: WELL MZ-3 (380-192059-3). The sample analyzed and all remaining volume had a pH of 3 per method 524.2 all samples analyzed must have a pH below 2 using hydrochloric acid

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
Method 521.1: The following samples were provided to the laboratory with a significantly different initial volume than that required by the reference method: WELL MZ-1 (380-192059-1), WELL MZ-2 (380-192059-2), WELL MZ-3 (380-192059-3), WELL IZ-1 (380-192059-4), WELL IZ-EAST (380-192059-5) and WELL IZ-WEST (380-192059-6). The method requires 500mL. The amount provided was below this range. The sample was extracted using: 462.5mL, 455mL, 472mL, 462.5mL, 462.5mL, and 470mL. The following correction factor will be applied: 1.08, 1.09, 1.05, 1.08, 1.08, and 1.06.

Method 522: The reference method requires samples to be preserved to a pH of < 4.0. The following samples were received with insufficient preservation at a pH of 6.0: WELL MZ-3 (380-192059-3) and WELL IZ-EAST (380-192059-5). The sample(s) was preserved to the appropriate pH in the laboratory.

Method 525.2: The following sample was provided to the laboratory with a significantly different initial volume than that required by the reference method: WELL MZ-2 (380-192059-2). The method requires 1000mL. The amount provided was 983mL. A correction factor of 1.02 will be applied.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gasoline Range Organics
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Diesel Range Organics

Job ID: 380-192059-1 (Continued) Eurofins Pomona

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC Semi VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Herbicides
Method 515.4: The method reporting limit check (MRL) for preparation batch 380-198163 and analytical batch 380-198773 recovered outside control limits for the following analytes: Pentachlorophenol. These analytes were biased high in the MRL and were not detected in the associated samples; therefore, the data have been reported.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides/PCBs
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

HPLC/IC
Method 300.0: The following samples were diluted for Nitrite as N to prevent detector saturation due to high conductivity: WELL MZ-1 (380-192059-1), WELL MZ-2 (380-192059-2), WELL MZ-3 (380-192059-3), WELL IZ-1 (380-192059-4), WELL IZ-EAST (380-192059-5) and WELL IZ-WEST (380-192059-6). Elevated reporting limits (RLs) are provided.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Pesticides
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
Method 331.0: The following sample contained Perchlorate at a concentration above the EPA Maximum Contaminant Level (MCL): WELL IZ-EAST (380-192059-5).

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Dioxin
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Metals
Method 200.8: The matrix spike / matrix spike duplicate (MS/MSD) recoveries and precision for analytical batch 380-197941 were outside control limits. Sample matrix interference and/or non-homogeneity are suspected because the associated laboratory control sample / laboratory sample control duplicate (LCS/LCSD) precision was within acceptance limits.

Method 200.8: The matrix spike / matrix spike duplicate / sample duplicate (MS/MSD/DUP) precision for analytical batch 380-197942 was outside control limits. Sample matrix interference and/or non-homogeneity are suspected because the associated laboratory control sample / laboratory control sample duplicate (LCS/LCSD) precision was within acceptance limits.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

General Chemistry
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Gas Flow Proportional Counter
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Rad
Method SM7500 Ra B: The matrix spike / matrix spike duplicate (MS/MSD) recoveries for preparation batch 810-176951 and analytical batch 810-177924 were outside control limits for one or more analytes. See QC Sample Results for detail. Sample matrix interference and/or non-homogeneity are suspected because the associated laboratory control sample (LCS) recovery is within acceptance limits.

Sample had a dirty matrix, which resulted in a high biased barium carrier recovery. Results may be low biased. The barium carrier limits are 27.9-66.9 mg. The sample barium precipitate is 68.4 mg.

Job ID: 380-192059-1 (Continued) Eurofins Pomona

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Biology
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Compliance Check

The results obtained from the analytical testing of this data set were checked against compliance limits received from the client. Any results at or above the compliance limits have been highlighted for your convenience.

Laboratory: Eurofins Pomona

Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below.

Authority	Program	Identification Number	Expiration Date
California	State	2813	02-08-26

The following analytes are included in this report, but the laboratory is not certified by the governing authority. This list may include analytes for which the agency does not offer certification.

Analysis Method	Prep Method	Matrix	Analyte
1613B	1613B	Water	2,3,7,8-TCDD
300.0		Water	Nitrate Nitrite as N
505	505	Water	Polychlorinated biphenyls, Total
515.4	515.4	Water	2,4,5-T
524.2		Water	1,1-Dichloropropene
524.2		Water	1,2,3-Trichloropropane
524.2		Water	1,3-Dichloropropane
524.2		Water	2,2-Dichloropropane
524.2		Water	2-Butanone (MEK)
524.2		Water	Bromobenzene
524.2		Water	Bromochloromethane
524.2		Water	Bromoethane
524.2		Water	Bromomethane (Methyl Bromide)
524.2		Water	Chloroethane
524.2		Water	Chloromethane (methyl chloride)
524.2		Water	Dibromomethane
524.2		Water	Diisopropyl ether
524.2		Water	Hexachlorobutadiene
524.2		Water	p-Isopropyltoluene
SM 4500 F C		Water	Fluoride

Pomona, CA 91768

CLIENT PROJECT: Intermediate Zone Testing, 380-192059-1
LAB CODE: 717790-1

Dear MaryAnn,

Enclosed are asbestos analysis results for TEM water samples received at our laboratory on January 15, 2026. The samples were analyzed for asbestos using transmission electron microscopy (TEM) per the US EPA 100.2 Method.

The current EPA regulatory limit for asbestos in water is 7 million fibers per liter (MFL, > 10 µm in length). The analytical sensitivity for the EPA 100.2 method is 0.2 MFL.

Thank you for your business and we look forward to continuing good relations.

Kind Regards,

Kamila Reichert

Kamila Reichert,
Laboratory Director

ANALYTICAL REPORT

PREPARED FOR

Attn: Cesar Ortiz
La Puente Valley County Water District
112 North First Street
La Puente, California 91744

Generated 2/6/2026 4:07:47 PM

JOB DESCRIPTION

Intermediate Zone Testing
Quarterly EQ Tank

JOB NUMBER

380-194578-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

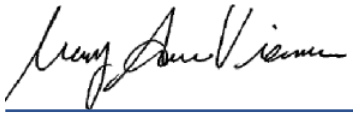

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

GC/MS Semi VOA

Qualifier	Qualifier Description
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job Narrative
380-194578-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/27/2026 4:32 PM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 14.5°C.

Receipt Exceptions
The following samples were received at the laboratory outside the required temperature criteria: EQ Tank Effluent SP-1002 (380-194578-1) and Trip Blank (380-194578-2). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

GC/MS Semi VOA
Method 521.1: The following sample was provided to the laboratory with a significantly different initial volume than that required by the reference method: EQ Tank Effluent SP-1002 (380-194578-1). The method requires 500mL. The amount provided was below this range. The sample was extracted using 474.5mL and a 1.05 correction factor will be applied.

No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

LCMS
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

Detection Summary

Client: La Puente Valley County Water District
Project/Site: Intermediate Zone Testing

Job ID: 380-194578-1
SDG: Quarterly EQ Tank

Client Sample ID: EQ Tank Effluent SP-1002 — Lab Sample ID: 380-194578-1

Question	Answer	Comment
The coolers custody seal, if present, is intact.	N/A	
Sample custody seals, if present, are intact.	True	
Samples were received on ice.	True	
Cooler(s) Temperature is acceptable.	True	Received same day of collection; chilling process has begun.
Cooler(s) Temperature is recorded.	True	
COC is present.	True	
COC is filled out in ink and is legible.	True	
COC is filled out with all pertinent information.	True	
There are no discrepancies between the containers received and the COC.	True	
Samples are received within Holding Time (excluding tests with immediate HTs)	True	
Sample containers have legible labels.	True	
Containers are not broken or leaking.	True	
Sample collection date/times are provided.	True	
There is sufficient vol. for all requested analyses, incl. any requested MS/MSDs	True	
Containers requiring zero headspace have no headspace or bubble is <6mm (1/4").	True	
ClO4 headspace requirement met (>50% for CA, >30% for other states).	True	
Samples do not require splitting or compositing.	True	
Container provided by EEA	True

JOB DESCRIPTION

Intermediate Zone Testing
PVOU IZ Resamples

JOB NUMBER

380-194442-1

Eurofins Pomona
941 Corporate Center Drive
Pomona CA 91768-2642

See page two for job notes and contact information.

Job Notes

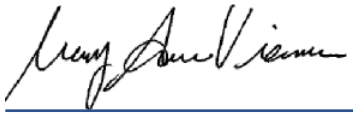

This report may not be reproduced except in full, and with written approval from the laboratory. The results relate only to the samples tested. For questions please contact the Project Manager at the e-mail address or telephone number listed on this page.

The test results in this report relate only to the samples as received by the laboratory and meet all requirements of the methodology, with any exceptions noted. This report shall not be reproduced except in full, without the express written approval of the laboratory. All questions should be directed to the Eurofins Drinking Water and Wastewater West, LLC Project Manager.

Compliance Statement

1. Laboratory is accredited in accordance with TNI 2016 Standards and ISO/IEC 17025:2017.
2. Laboratory certifies that the test results meet all TNI 2016 and ISO/IEC 17025:2017 requirements unless noted under the individual analysis
3. Test results relate only to the sample(s) tested.
4. This report shall not be reproduced except in full, without the written approval of the laboratory.
5. Unless otherwise noted, all analytes for this laboratory were covered under each accreditation/certification below. (DW,Water matrices)

Qualifiers

GC/MS VOA

Qualifier	Qualifier Description
*+	LCS and/or LCSD is outside acceptance limits, high biased.
^3+	Reporting Limit Check Standard is outside acceptance limits, high biased
B	Analyte was found in the associated method blank.
J	Result is less than the RL but greater than or equal to the MDL and the concentration is an approximate value.

Glossary

Abbreviation	These commonly used abbreviations may or may not be present in this report.
☼	Listed under the "D" column to designate that the result is reported on a dry weight basis
%R	Percent Recovery
CFL	Contains Free Liquid
CFU	Colony Forming Unit
CNF	Contains No Free Liquid
DER	Duplicate Error Ratio (normalized absolute difference)
Dil Fac	Dilution Factor
DL	Detection Limit (DoD/DOE)
DL, RA, RE, IN	Indicates a Dilution, Re-analysis, Re-extraction, or additional Initial metals/anion analysis of the sample
DLC	Decision Level Concentration (Radiochemistry)
EDL	Estimated Detection Limit (Dioxin)
LOD	Limit of Detection (DoD/DOE)
LOQ	Limit of Quantitation (DoD/DOE)
MCL	EPA recommended "Maximum Contaminant Level"
MDA	Minimum Detectable Activity (Radiochemistry)
MDC	Minimum Detectable Concentration (Radiochemistry)
MDL	Method Detection Limit
ML	Minimum Level (Dioxin)
MPN	Most Probable Number
MQL	Method Quantitation Limit
NC	Not Calculated
ND	Not Detected at the reporting limit (or MDL or EDL if shown)
NEG	Negative / Absent
POS	Positive / Present
PQL	Practical Quantitation Limit
PRES	Presumptive
QC	Quality Control
RER	Relative Error Ratio (Radiochemistry)
RL	Reporting Limit or Requested Limit (Radiochemistry)
RPD	Relative Percent Difference, a measure of the relative difference between two points
TEF	Toxicity Equivalent Factor (Dioxin)
TEQ	Toxicity Equivalent Quotient (Dioxin)
TNTC	Too Numerous To Count

Job ID: 380-194442-1 — Eurofins Pomona

Job Narrative
380-194442-1

The analytical test results presented in this report meet all requirements of the associated regulatory program listed on the Accreditation/Certification Summary Page, unless otherwise noted. Data qualifiers and/or narrative comments are included to explain any exceptions, if applicable. Regulated compliance samples (e.g. SDWA, NPDES) must comply with associated agency requirements/permits.

- Matrix-specific batch QC (e.g., MS, MSD, SD) may not be reported when insufficient sample volume is available or when site-specific QC samples are not submitted. In such cases, a Laboratory Control Sample Duplicate (LCSD) may be analyzed to provide precision data for the batch.
- For samples analyzed using surrogate and/or isotope dilution analytes, any recoveries falling outside of established acceptance criteria are re-prepared and/or re-analyzed to confirm results, unless the deviation is due to sample dilution or otherwise explained in the case narrative.

Receipt
The samples were received on 1/27/2026 11:08 AM. Unless otherwise noted below, the samples arrived in good condition, and, where required, properly preserved and on ice. The temperature of the cooler at receipt time was 10.3°C.

Receipt Exceptions

COC do not have markings on what test to run per sample site, added both 524.2 pres prec and CA srl 524 sim test on each sample site and TB.

WELL MZ-3 (380-194442-1), LGAC Lead Vessel 25% SP-1103B-3 (380-194442-2) and Trip Blank (380-194442-3)

The following samples were received at the laboratory outside the required temperature criteria: WELL MZ-3 (380-194442-1), LGAC Lead Vessel 25% SP-1103B-3 (380-194442-2) and Trip Blank (380-194442-3). The sample(s) is considered acceptable since it was collected and submitted to the laboratory on the same day and there is evidence that the chilling process has begun.

GC/MS VOA
No additional analytical or quality issues were noted, other than those described above or in the Definitions/ Glossary page.

PVOU-SZ Operations Report

Date: February 24, 2026
To: Michael Shannon, Northrop Grumman Systems
Cc: Roy Frausto, General Manager
From: Davis To, Field Operations Engineer
Subject: PVOU-SZ Operations Monthly Report (January 2026)

In accordance with our Agreement for Operational Services of a Water Treatment Facility between the Northrop Grumman Systems (the "NG") and the La Puente Valley County Water District (the "District"), the District is providing a monthly operations report for January 2026. The report represents operational information along with the current status of various items listed under the appropriate heading.

PVOU-SZ Plant Operations Snapshot

Production Well	Current Well Operations	Well GPM
EW-C	INTERMITTENT	90
EW-N	OFFLINE	0
TOTAL COMBINED WELL GPM		90

Treatment Component	Current Operations	Flow GPM
LGAC System	INTERMITTENT	125
UV System	INTERMITTENT	125
RO System	INTERMITTENT	112 Influent 13 Bypass

Is Treatment Plant in Normal Operations Yes / No	**NO**	*As of what date:*	2/24/2025

Brief description below:
Due to the TPH issue, Shallow Zone – South Treatment Plant operation has been decreased to routine forward flushes for upkeep of system components and data collection. The SZ-S Plant is currently set up to discharge effluent/treated water to the wastewater tank for system flushes as a result of the ongoing TPH issue. The District received the directive from NG and is undergoing the iterative approach steps which include replacement of the media in the GAC vessels and RO membrane replacement. Carbon changeout was completed in November 2025. RO membrane changeout had been postponed due to equipment issues but the District conducted an evaluation with the ROEM and proposed an alternative solution which NG and Stantec provided concurrence with. The District is re-engaging the ROEM to schedule the next activity in the iterative approach. Extraction Well EW-N is also currently offline due to electrical panel issues, following an electrical evaluation, the District has reached out to electrical contractors to request estimates to replace electrical work and recommission.

Extraction Wells - Online	Treatment Plant – Online	Extraction Wells – Offline	Treatment Plant – Offline
4.4 Hours	6.1 Hours	739.6 Hours	737.9 Hours
0.18 Days	**0.25 Days**	**30.82 Days**	**30.75 Days**
Summary: SZ-S Plant operation has been decreased to routine forward flushes during work regular working hours due to the TPH issue for upkeep of the system components.			

Supply and Production

- **PVOU-SZ Monthly Well Production**

Well	Beginning Read 1/1/2026 (Kgals)	Ending Reads 2/1/2026 (Kgals)	Units Produced (Kgals)	Production in Acre Feet
EW-C	233,109	233,435	326	0.10
EW-N	94,624	OUT OF SERVICE*	-	-
Total SZ Production			**326**	**0.10**

*EW-N lost communication during the month of November, unable to collect data to report.

- **PVOU-SZ Well Levels (Sounder)**

Well	Static Water Level	Pumping Water Level	Drawdown
EW-C	66.6’	-	-
EW-N	62.5’	-	-

- **PVOU-SZ Monthly Water Volume Processed**

SZ-Raw Water Flow Meter	1/1/26 Total Flow Reading - Gals	1/31/26 Total Flow Reading – Gals	Water Processed - MG
FQIT-4251	33,169,680	33,199,372	**0.030**

- **PVOU-SZ Monthly Metered Deliveries**

System	Total Discharge (Acre Feet)
NPDES	0
LACSD	0.08
Total Deliveries	**0.08**

- **Total Production Vs. Total Deliveries**

Total Production in Acre Feet	Total Deliveries in Acre Feet
0.10	0.08

- **Water Discharged to Wastewater Brine Line**

Flow Meter	1/1/26 Total Flow Reading - Gals	1/31/26 Total Flow Reading – Gals	Total Flow (Gallons)
FQIT-5011	6,862,485	6,869,842	7,357
FQIT-4951	25,413,986	25,433,024	19,038
SZ-S- Wastewater Discharge Total			**26,395**

*In January 2026, due to TPH exceedance issue, SZ effluent water continues to be discharged as wastewater until further notice.

- **Chemicals Consumed**

Chemical Type	1/1/26 (Data from Round Sheets) - Gals.	1/31/26 (Data from Round Sheets) - Gals.	Total Consumed – Gals.
Sulfuric Acid (H_2SO_4)	493	480	13
Hydrogen Peroxide (H_2O_2)	261	224	37
Scale Inhibitor	815	810	5
Sodium Hydroxide (NaOH)	1045	1030	15

Water Quality

- **SZ Surface Water Discharge Monitoring (NPDES) -** District Staff did not collect samples from the SZ system for the month of January; due to the TPH issue.

- **SZ Sewer Discharge Monitoring (LACSD) -** District Staff collected required discharge samples from the IZ (& SZ) system for the month of January; samples were collected for bi-weekly surcharge monitoring.
  Attachment A: Final COA Report from January 9 & 28, 2026, sample events.

- **SZ Other Samples -** District Staff did not collect any other samples from the SZ system for the month of January.

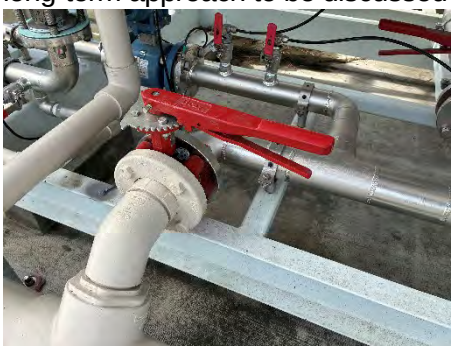

Compliance Reporting

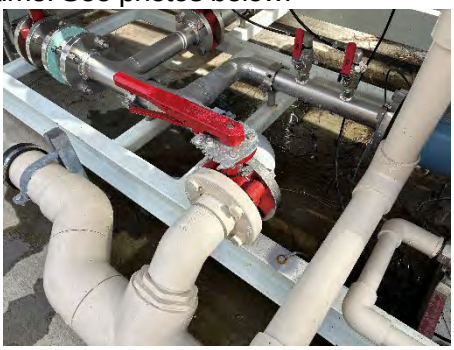

- **SZ Surface Water Discharge Reporting (NPDES) -** District Staff submitted no NPDES water quality report pertaining to the PVOU-SZ (and IZ) during January.

- **SZ Sewer Discharge Reporting (LACSD) -** District Staff submitted LACSD Semi-Annual Self-Monitoring Report pertaining to the PVOU IZ (&SZ) during January.

Repair/Replace/Optimization Activities

- **Repairs/Replace**
  - RO Train 1 & 2 Permeate Dump Valves (BFV-6257-1 & 2) – Following an evaluation with the ROEM, the District prepared a memo to discuss the findings and recommendation. NG and Stantec provided concurrence in January 2026. The District removed the actuated valves and appurtenances and installed a manually operated valve in place as agreed to. This will allow manual operation of the RO Permeate Dump Valve and will allow the SZ system to move into the next steps. Discussions on the long-term approach to be discussed at a later time. See photos below:

- Process Pipe (Pinhole Leak) – During routine system flush, a pinhole leak occurred in a section of process piping located near the sulfuric acid injection point. The District provided a summary email on February 2nd, 2026, to provide the summary of events, preliminary potential cause, observations and recommended actions. The District received approval from Stantec to temporary install a pipe clamp in order to allow limited system operation for routine flushes. Further actions to be determined after inspection of interior pipe can occur. See photo below:

- **Maintenance/Troubleshoot Work**
  - Operated system to flush plant and confirm functionality and exchange water through system
  - Cleaned analyzer flow indicators – as-needed
  - Recalibrate analyzers – as-needed
  - Extraction wells – collect totalizer readings

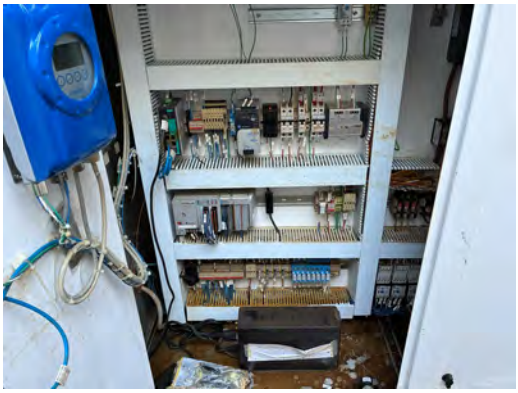

- **Housekeeping**
  - General site cleaning
  - Chemical containment area routine maintenance and cleaning, drain containment areas following rain events
  - Clean and organize chemical room, equipment, tools, etc.

- **Optimization**
  - Preventative Maintenance – The District has been in communication with preventative maintenance system company (Nobel). Requesting addition of the SZ Treatment System (By equipment) that would allow the end user/operator to add/modify PM activities as needed. Nobel has incorporated the PVOU SZ system into the Geoviewer software by asset type with major components. The District is working with Nobel on incorporating more permissions from the end user to add, modify equipment and inspection cycles. The District will be providing monthly SZ inspection logs in future Monthly Ops Reports.

Upcoming Repair/Replace/Optimization Activities

- **EW-N Extraction Well Electrical Vault –** The District observed communication alarms at EW-N and inspected the electrical vault the following day. Upon inspection, it was observed that water had been in the vault and components within CP-4100 were damaged by the water intrusion. The District scheduled further testing with an electrical contractor, the result of the evaluation was that the electrical components were damaged beyond repair. The District is requesting quotes from electrical contractors to replace all the damaged parts and recommission. The District has had discussions NG and Stantec regarding issues gathering multiple quotes, Stantec has directed the District to gather one additional quote in addition to one that has been received. See photos below:

- **SZ-S Equipment –** Displays are exhibiting signs of damage from extended sun exposure. The District is to install light blocking door strips similar to IZ RO Skid 5. In previous applications, the District has observed that using the door strips maintains display screens more effectively. Work is in progress. Photo example below (AIT-4426):

- **SZ-S Analyzers –** District met with HACH Representative to discuss replacement of ATI analyzers with HACH analyzers to benefit overall reliability of the water analyzers at the treatment system as well as suitability for setting up one service contract for all analyzers at the plant. The District is planning to move forward with the work in phases with the IZ system upgrades underway in Q1 of 2026.

- **Air Vac Valve Replacement –** The District has observed leak issues with the air vacuum valves at various locations of the treatment plant. The District has utilized ARI D-040 at the PVOU IZ and in other applications around the District facilities and has not experienced leak issues with regular maintenance. The District has ordered an initial quantity for replacement to be installed in February 2026.

- **SZ RO Bypass Valve –** The District observed the SZ RO Bypass Valve has faulted. The District has communicated with the ROEM (supplier) of the actuated valve and has moved forward with the procurement of the electrical boards within the actuator. The District is coordinating the electrical work with an electrical contractor.

NG Requested Upgrades

- **Standard Operating Procedures (SOP) Development –** The District held a site visit with Kennedy Jenks in January 2026. The District provided a SZ-S site tour and provided insight and feedback for the SZ System Operations (Start-up & Shutdown) and process equipment. The District assisted the KJ team with their data collection efforts in order to prepare the first Draft SOPs for the SZ-S system. Draft SOPs for the SZ system are anticipated to be shared with the District team in March 2026 for initial review.

- **Cybersecurity –** Stantec on behalf of Northrop Grumman issued a SOW for Cybersecurity upgrades at the PVOU Plant. The District received approval from NG to move forward. The contracted firm has begun activities to harden the network as described in the issued SOW with Stantec's technical support. The work will continue into February and the anticipation is that the SOW will be completed in March 2026.

- **SZ RO Membrane Replacement -** NG provided an update that the multi-media removal and replacement at the SZ system did not meet procurement requirements and would create further delays. Direction was provided to attempt an iterative approach to evaluate if TPH cleaning is necessary. As part of the iterative approach, all RO membranes are to be replaced. The District agreed to contract this effort and communicated with Wigen (ROEM). The District has executed the contract documents. The scheduling has been postponed due to the RO equipment issues but the District is re-engaging the ROEM to schedule this activity.

Safety Items

- **Eye Wash and Safety Shower Station (Electrical/Integration Scope) –** NG advised that this work will be directly procured, managed and implemented through NG. The mechanical scope has been completed in October 2025. The eyewash and safety shower stations provide the required flow. A separate scope will be developed to implement electrical installation of flow sensors and SCADA integration. Scheduled to take place in February 2026.

Outages

- No outages or anomalies to report occurred during January 2026 for the SZ-S Plant with limited operation.

Performance Contracts

- **Wigen Reverse Osmosis System (Preventative Maintenance) –** The District scheduled Wigen to be onsite for assessment and preventative maintenance work on a quarterly basis for the IZ & SZ-S Systems.
    - Next step for the SZ System will be RO membrane replacement.

- **Trojan UV/AOP System (Preventative Maintenance) –** The District scheduled Trojan to be onsite for assessment and preventative maintenance work on a quarterly basis for the IZ & SZ-S Systems. The next quarterly scheduled preventative maintenance visit will be in February 2026.

Other

- **Standard Operating Procedures SOPs –** The following SOPs have been developed for the use of the District's Operation Staff:
    - Sampling for Bacteriological Contaminants
    - Sampling for VOCs
    - Sampling for SOCs
    - Sampling for Radionuclides
    - Sampling for PFAS
    - Chemical Safety Awareness
    - Operations – Cartridge Filter Changeout
    - Operations – Chemical Calibration Drawdowns

This is a complete final report. The information in this report applies to the samples analyzed in accordance with the chain-of-custody document. Results are related only to the items tested. Weck Laboratories certifies that the test results meet all requirements of TNI unless noted by qualifiers or written in the Case Narrative. The report may include analytes that are not currently accreditable by some state agencies or accrediting bodies. This analytical report must be reproduced in its entirety.

Dear Cesar Ortiz,

Enclosed are the analytical results for the samples submitted under the attached Chain of Custody document. All analyses adhered to the method criteria, except where noted in the case narrative, sample condition checklist, and/or data qualifiers.

Notes and Definitions

Item	Definition
%REC	Percent Recovery
Dil	Dilution
MDL	Method Detection Limit
MRL	Method Reporting Limit (MRL) is the minimum levels, concentrations, or quantities of a target variable (e.g., target analyte) that can be reported with a specified degree of confidence. The MRL is also known as Limit of Quantitation (LOQ)
ND	NOT DETECTED at or above the Method Reporting Limit (MRL). If Method Detection Limit (MDL) is reported, then ND means not detected at or above the MDL.
RPD	Relative Percent Difference
Source	Sample that was matrix spiked or duplicated.

Any remaining sample(s) will be disposed of one month from the final report date unless other arrangements are made in advance.

All results are expressed on wet weight basis unless otherwise specified.

All samples collected by Weck Laboratories have been sampled in accordance to laboratory SOP Number MIS002.

This is a complete final report. The information in this report applies to the samples analyzed in accordance with the chain-of-custody document. Results are related only to the items tested. Weck Laboratories certifies that the test results meet all requirements of TNI unless noted by qualifiers or written in the Case Narrative. The report may include analytes that are not currently accreditable by some state agencies or accrediting bodies. This analytical report must be reproduced in its entirety.

Dear Roy Frausto,

Enclosed are the analytical results for the samples submitted under the attached Chain of Custody document. All analyses adhered to the method criteria, except where noted in the case narrative, sample condition checklist, and/or data qualifiers.

STAFF Report

Meeting Date:	March 9, 2026
To:	Honorable Board of Directors
Subject:	Updates to the District's Employee Policies and Procedures Manual
Purpose:	*Update the Employee Policies and Procedures Manual to Incorporate Required Changes.*
Recommendation:	*Review and approve the enclosed Employee Policies and Procedures Manual (Employee Manual)*
Fiscal Impact:	*No fiscal impact as a result of this action*

BACKGROUND

The Employee Policies and Procedures Manual (Manual) provides guidelines and policies governing employment, compensation, and employee benefits for District staff. At a previous meeting, the Board approved the implementation of an employer-funded Flexible Spending Account (FSA) contribution of up to $680 annually for eligible Full-Time Regular Employees. The Board also approved offering participation in the FSA program to members of the Board of Directors; however, Board Members are not eligible to receive the employer-funded contribution and may participate only through their own voluntary payroll deductions.

Additionally, the District implemented access to voluntary supplemental insurance plans through Aflac.

SUMMARY

The proposed revisions add the following to the Benefits section of the Manual:

- Employer-funded FSA contribution of up to $680 annually for eligible Full-Time Regular Employees, subject to plan rules and required waiting period.
- Eligibility for members of the Board of Directors to elect participation in the FSA program; Board Members are not eligible for the employer-funded contribution.
- Access to voluntary supplemental insurance plans through Aflac (Critical Illness, Cancer, Accident, and Hospital Indemnity), fully employee-paid and subject to required waiting period.

FISCAL IMPACT

No fiscal impact as a result of this action.

RECOMMENDATION

Adopt Resolution No. 317 amending the current employee manual.

Respectfully Submitted,

Angelina Padilla

HR Coordinator/Admin Assistant

ENCLOSURES

- Enclosure 1: Resolution No. 317
- Enclosure 2: Employee Manual

RESOLUTION NO. 317

RESOLUTION OF THE BOARD OF DIRECTORS OF THE LA PUENTE VALLEY COUNTY WATER DISTRICT AMENDING ITS EMPLOYEE POLICIES AND PROCEDURES MANUAL

WHEREAS, the Board of Directors of the La Puente Valley County Water District (the "District") adopted an Employee Policies and Procedures Manual (the "Manual") to govern all matters related to employment at the District;

WHEREAS, District staff regularly reviews and proposes updates to the Manual as necessary to reflect changes in the law, incorporate industry best practices, or revise or adopt new policies or procedures to better improve the benefits, safety, or workplace conditions generally, with regards to employment at the District;

WHEREAS, the District has conducted a regular review of its Manual and desires to make certain revisions to the Manual to reflect the foregoing;

NOW THEREFORE BE IT RESOLVED that the Board of Directors of the La Puente Valley County Water District hereby amends its Employee Policies and Procedures Manual as reflected in the attached overview document and as specified in the draft Manual in the form presented to the Board of Directors.

BE IT FURTHER RESOLVED, that the District's General Manager shall present the Manual, as revised, to all District employees as soon as feasible and changes made in the Manual will take effect immediately.

ADOPTED, SIGNED AND APPROVED this 9th day of March 2026

LA PUENTE VALLEY COUNTY WATER DISTRICT
EMPLOYEE POLICIES AND PROCEDURES MANUAL

I. PREAMBLE AND TITLE

This Manual shall be known as the La Puente Valley County Water District Employee Policies and Procedures Manual (the "Manual"). This Manual supersedes the Personnel Manual that was adopted by the Board of Directors on February 24, 2025, and all subsequently adopted amendments thereto.

II. PURPOSE

It is the objective of the La Puente Valley County Water District (the "District") to provide fair and equitable personnel management. This Manual is intended to ensure uniform and fair treatment of applicants for employment at the District and to define obligations, rights, privileges, benefits and prohibitions for all employees of the District.

The Board of Directors of the District reserves the right to amend, modify or delete any and all provisions contained in this Manual and shall comply with Government Code Section 54950 et seq. (the "Ralph M. Brown Act") as required.

III. AUTHORITY AND ADMINISTRATION

A. The Board of Directors of the La Puente Valley County Water District has approved the provisions of this Manual. The Board shall approve all additions, amendments and revisions to the personnel policies and procedures contained in this Manual.

B. The General Manager is responsible for implementing, administering, and ensuring compliance with the provisions of this Manual. In the event any provision of this Manual requires clarification, the General Manager may issue administrative instructions or guidelines clarifying the intent of said provision as adopted by the Board of Directors. The General Manager may develop and enforce procedures, consistent with this Manual, to facilitate its implementation.

IV. DEFINITIONS

For the purposes of this Manual the following definitions apply:

A. Board of Directors or Board - Board of Directors of the La Puente Valley County Water District.

B. Department Head - Employees who are directly responsible to the General Manager for the

supervision and/or management of Field Operations, Engineering/Compliance, and Customer Service/Accounting Departments.

C. District - The La Puente Valley County Water District which is formed pursuant to the County Water District Law (Water Code Sections 30000, et seq.).

D. Exempt/Executive Employee - The General Manager and other employees that may be designated as such. These employees are paid on a salary basis for work performed with no overtime pay. As salaried senior officials of the District, Executive personnel are expected to work those hours necessary to complete their duties and responsibilities

E. Full-Time Regular Employee - All employees appointed by the General Manager for employment on a regular basis and work 40 hours per week. A Full-Time Regular Employee may be an Exempt or Non-Exempt employee.

F. General Manager - The General Manager of the District, duly appointed by a majority vote of the Board of Directors.

G. Non-Exempt Employee - Any employee who is paid wages for each hour of work performed and is eligible to receive overtime pay according to law.

H. Office Administrator – The employee who has been designated by the General Manager to carry out the duties of the position of Office Administrator as set forth in this Manual. The employee designated by the General Manager to serve in this capacity may vary pursuant to the matter to be addressed.

I. Part-Time Regular Employee - Any employee who is assigned a work schedule of less than 1,000 hours per fiscal year. Such employees are not entitled to District benefits unless otherwise prescribed by law. See Section VII(R)(c) for exceptions.

J. Temporary Employee - Any employee hired by the General Manager for a limited period of time, paid by the hour, is not provided any District benefits other than those stipulated by state and federal law, and is eligible to receive overtime pay according to law.

K. Intern – A part-time, temporary employee hired by the General Manager for the purpose of gaining hands-on work experience and completing work related tasks at the direction of the intern's supervisor. This position is for a limited period of time, paid by the hour, and not provided District benefits other than those stipulated by state and federal law.

V. EMPLOYMENT

A. At-Will Employment

Employment with the District is "At-Will" for all employees and interns, with the exception of the General Manager who is employed under a contract with the District. At-Will Employment is not guaranteed for any length of time and may be terminated at any time, with or without cause, or with or without notice, by the District or by the employee, unless otherwise expressly agreed by a written employment agreement, subject to applicable law. Because employment with the District is At Will, the

guidelines in this Manual do not create any contractual or other rights (expressed or implied) for any employee in these classifications. Only the Board of Directors has the authority to enter into any agreement for employment for any specified period of time for any employee of the District.

B. Hiring of Employees

1. The District is an equal opportunity employer and will comply with all policies of the United States and the State of California which protect and safeguard the right and opportunity of all persons to seek, obtain, and hold employment without discrimination because of race (including any hairstyle historically associated with race, including, but not limited to, hair texture and protective hairstyles, such as braids, locks and twists), religious creed, color, age, sex, sexual orientation, gender expression or identity, genetic information, physical handicap, national origin, ancestry, military or veteran status, reproductive health decisions, including a decision to use or access a particular drug, device, product or medical service for reproductive health, any combination of the foregoing, or any other protected class or characteristic under state or federal law. Decisions made by the District with regards to employees will be based upon policies and practices that further the principles of equal employment opportunity.

2. In accordance with Section 30540(a) of the California Water Code, the Board shall appoint by majority vote a General Manager, whose employment may be secured by an Employment Agreement. In accordance with Sections 30580 and 30581 of the California Water Code, the General Manager shall hire new employees for those positions approved by the Board pursuant to the approved salary resolution.

3. Prior to commencing employment with the District, applicants for safety sensitive field positions will undergo and must pass a pre-employment physical examination, alcohol and drug use screening, and a background investigation; provided, however, that any test for cannabis that detects nonpsychoactive metabolites will not adversely affect the applicant's potential for hiring. Applicants for office positions are not safety sensitive positions but must pass a background investigation before commencing work with the District. All offers to hire new employees shall be made subject to the condition that the prospective employee successfully passes a physical exam, alcohol and drug screening, (if applicable) and background investigations to the reasonable satisfaction of the District.

4. The District may, in its sole discretion, abolish any position or terminate employment due to lack of work, lack of funds, reorganization, or other legitimate reason or business purpose. The employee holding such a position or employment may be laid off without disciplinary action and without the right of hearing or appeal. Employees to be laid off shall be given at least 14 calendar days' prior written notice.

5. Temporary Employees may be hired by the General Manager. The General Manager shall determine the term of employment, the number of hours to be worked in a day or week, and the compensation the employee will receive.

6. Intern employees may be hired by the General Manager. The General Manager shall determine the term of employment, the number of hours to be worked in a day or week, and the compensation the employee will receive.

C. Introductory Period

1. Newly hired or re-hired Non-Management Full-Time Employees will serve an introductory period of six (6) months. Upon conclusion of the introductory period, the employees' performance will be evaluated. The General Manager may extend an employee's introductory period upon written notice to the employee.

2. Passing the introductory period with a satisfactory evaluation is a requirement for continued employment with the District. An introductory employee is employed At Will and may be terminated from his/her employment with the District at any time during the introductory period without cause or notice or the right to a hearing or appeal.

3. Newly hired employees must satisfactorily pass their introductory period to qualify for floating holidays, certification bonuses or to be eligible for educational or steel toe boot reimbursement.

4. Employees terminated during their introductory period shall not be entitled to nor be paid for accrued sick leave or floating holidays unless otherwise mandated by law. However, introductory employees will accrue vacation and sick leave at the normal rate during the introductory period. Accrued vacation time shall be available for use should their employment continue beyond the introductory period or be paid out upon termination unless a prior arrangement was made during the hiring/recruitment process with the General Manager or his/her designee.

5. If an employee is promoted to a higher-level non-management position, that employee will be required to serve a six (6) month introductory period in the new position. The General Manager shall determine upon completion of the introductory period whether the employee has met the performance expectation in the new position. The General Manager may determine if an employee has not done so and demote that employee to his/her previous position if such position is available, or an equivalent position for which the employee is qualified if such position is available, and such decision and action shall not be considered as discipline under Subsection K, below, and shall not entitle the employee to the right of notice, hearing, or appeal. If an employee is promoted to an Executive/Management position, his/her position shall remain At-Will.

6. A promoted employee will continue to accrue vacation and sick leave and is eligible for floating holidays as provided elsewhere herein as well as eligible to take vacation during said introductory period.

7. Successful completion of the introductory period does not assure an employee of continued employment with the District.

D. Periodic Employee Evaluation

The General Manager and the respective Department Heads shall evaluate the performance of each employee upon completion of the introductory period. Performance evaluations will be conducted at least annually based on the date of hire, or more frequently at the discretion of the Department Heads or the General Manager. If a performance evaluation qualifies an employee for a merit increase, the increase will take effect on their anniversary date. However, if the anniversary falls within a pay period, the merit increase will be applied at the start of that pay period.

E. Normal Workday

The District operates on a 9/80 alternative work schedule. Under that schedule, the employee will work eight nine-hour days and one eight-hour day during the two weeks, with an additional day off (Friday) when compared to the traditional work schedule. The beginning of an employee's work week is every Friday at 11:00 a.m. and ends the following Friday at 10:59 a.m.

The District will be open for business Monday through Thursday from 7:00 a.m. to 4:30 p.m. and every other Friday from 7:00 a.m. to 3:30 p.m., except for holidays as provided elsewhere herein. The General Manager or Department Heads shall determine the work schedules for employees and may designate alternate workday hours on a temporary basis, or as otherwise determined to be necessary or desirable, when the District operations make such designations desirable.

1. Each office employee will have one-half (1/2) hour off for lunch each day from Monday through Friday, subject to the reasonable scheduling requirements of the District. Each field operation employee will normally have one-half (1/2) hour off for lunch each day, subject to the reasonable scheduling requirements of the District. Employees are not paid for meal breaks.

2. Break periods not exceeding ten (10) minutes, one during each work period of three hours or more (e.g., once in the morning and once in the afternoon), shall be provided to employees. Employees are paid for these breaks.

3. Daily hours of work will be assigned by each employee's Department Head, or the General Manager as required to meet the requirements of that Department.

4. Overtime will be paid as provided in this Manual, as required by applicable law.

5. Attendance is an essential function for all District positions and punctuality is expected at all times. A lack of either is grounds for disciplinary action. If an employee is more than seven (7) minutes late for work, that employee may be required to use accrued vacation time to make up for lost work due to tardiness.

F. On-Call Duty

1. All full-time regular field operation personnel (hereinafter referred to as “field employees”) are required to participate in On-Call duty, which is an essential function of the job. On-Call duty is assigned on a rotating basis and includes one designated field employee for Treatment Plant duties and one designated field employee for Distribution duties, as determined by the Superintendent or the designated Department Head.

    a. Two (2) designated On-Call employees will be assigned: one (1) for the Distribution system and customer service-related issues and one (1) for Treatment Plant and production related issues. Each designated On-Call employee will be provided with a radio equipped District vehicle and a District cellular phone. The employees assigned to On-Call duty will be the first point of contact during non-regular business hours for questions and emergencies related to their respective areas of responsibility.

    b. Accordingly, the On-Call employee on duty must be readily available for contact by telephone and able to respond within 30 minutes to the service call location.

c. The On-Call employee assigned to Treatment Plant duties must also respond promptly to any SCADA alarm by remotely accessing the SCADA system to acknowledge the alarm and assess the issue. If the issue cannot be resolved via remote access, then the On-Call employee must respond to the problem site within one hour thereafter. The On-Call personnel shall perform a water system check remotely via SCADA each evening after a regular workday sometime between 7:00 p.m. and 10:00 p.m. or as directed by his/her supervisor.

d. The On-Call employee shall possess at least a Grade 2 Treatment Plant Operator license and a Grade 2 Distribution Operator license issued by the State of California.

e. All On-Call duty personnel shall wear a District uniform at all times when conducting District business.

2. On-Call duty cycles begin each Wednesday evening at the close of business and end the following Wednesday at the opening of business.

3. On-Call personnel shall be compensated for such work as provided in Section VI(C)(D) of this Manual.

G. Policy Against Substance Abuse in the Workplace

The District recognizes that behavior resulting from the use of alcohol and/or drugs may detrimentally affect the safety and work performance of its workforce, as well as the health and welfare of its employees. In recognition of the District's responsibility to maintain a safe work environment, the District strictly prohibits any form of substance abuse. The term “substance abuse” includes, but is not limited to, the use or possession of illegal drugs, alcohol, or abuse of prescription drugs, which could impair an employee’s work performance and/or ability to perform his or her job safely.

1. All Employees of the District shall not:

a. Be at work or on call, drive a vehicle on District business, or operate any District equipment while under the influence of any amount of alcohol, or illegal or unauthorized drugs, or other mind-altering substances, including, but not limited to marijuana, which would result in a positive alcohol or drug test, provided that any test for cannabis that detects nonpsychoactive metabolites will not be considered to be a positive test under this section.

b. Ingest alcohol or marijuana, possess open containers of alcohol, possess marijuana unless prescribed for medicinal purposes, or use or possess illegal drugs of any kind while on duty; and shall not manufacture, distribute, dispense, sell or provide illegal drugs of any kind to any person while on duty. If the use by an employee of a prescription drug may create an unsafe working condition which may affect the safety of the employee, co-workers, members of the public, the employee’s job performance, or the safe or efficient operation of District business, this fact must be reported by the employee to his/her Department Head prior to reporting to work. Employees whose job performance is so restricted may be subject to reassignment, medical examination, or other reasonable actions as determined by the General Manager or Department Head. Failure to report the use of such drugs or failure to provide proper evidence of medical authorization may result in

disciplinary action.

2. Pre-Placement/Post Offer Controlled Substance Testing

   a. Any offer of employment for safety sensitive field positions will be conditioned upon the applicant passing a drug screening analysis. The General Manager or Office Administrator shall coordinate the drug screening process. Any applicant who refuses to be tested will not be extended an offer of employment. Attempts to alter or substitute the specimen provided will be deemed a refusal to take the drug test when required.

3. Reasonable Suspicion Testing

   a. Field Employees are subject to drug and alcohol testing when there is a reasonable suspicion that the employee has violated the rules set forth herein against drug and alcohol use. Such Reasonable Suspicion Testing shall include any drug and alcohol testing subsequent to any employment related injury requiring medical attention or incident involving damage to any District property.

   b. Field Employees are subject to drug and alcohol testing when they are involved in an accident involving either: 1) the operation of a District vehicle; or 2) physical injury to a District employee or member of the public.

   c. When a field employee has previously been found in violation of this Section V (G), that employee may be required to submit to periodic unannounced drug and alcohol testing as a condition of remaining in or returning to District employment.

   d. Any employee who refuses to submit to a drug or alcohol test immediately when requested by a supervisor or law enforcement personnel will be treated in the same manner as an employee who failed an alcohol or controlled substance test.

H. Smoking

Smoking, including the use of e-cigarettes and vapes, is strictly prohibited at all times while carrying out District work assignments. In accordance with California law, smoking, including the use of e-cigarettes and vapes, is prohibited in and within twenty (20) feet of all District buildings and vehicles.

I. Outside Employment

The District is entitled to the unqualified loyalty of its employees. District employees shall positively represent the District; and the actions of its employees will not conflict with the best interests of the District. No employee of the District shall therefore be permitted to carry on concurrently with their employment with the District, any private business or undertaking which may detrimentally affect the time or quality of work for the District or create a conflict of interest with the District, unless expressly authorized in writing in advance by the General Manager.

J. Job Injury

1. Injuries suffered by employees while in the course of performing work for the District are covered by the District's workers' compensation insurance provider. All such job injuries, including any situation that results in serious injury or illness or death, must be

immediately reported to the employee's Department Head and General Manager, who will promptly complete documentation of the injury and forward it to the Office Administrator who will submit an "Employee's Claim for Compensation Benefits" form (DWC Form 1).

2. Workers' Compensation will be supplemented as follows:

   a. An employee will receive supplemental District pay for a period of up to three (3) days, as determined by the General Manager, so that said employee will receive equivalent regular pay for the maximum three (3) day period. After the maximum three (3) day period, the employee will be eligible to receive benefits under the District's workers' compensation insurance policy as authorized by the District's workers' compensation provider, should the injury prevent the employee from returning to work for more than three (3) days.

   b. The General Manager, at his/her sole discretion, may grant supplemental District pay for longer periods of time than provided above.

   c. Employees may elect to use either accrued sick leave or vacation to supplement workers' compensation benefits in order to receive an equivalent regular paycheck, once the District payments, as provided for in Subsections "a" and/or "b" herein, have been exhausted. Said sick leave or vacation will be used in half (1/2) hour increments.

   d. The District will attempt to accommodate an employee's return to work after suffering a work-related injury on a case-by-case basis depending on the circumstances of the injury, the District's reasonable needs and, if applicable, availability of light duty work. The General Manager shall make such determination in his or her sole discretion.

K. Disciplinary Action

1. The District may discipline, up to and including termination, any employee for cause at any time, provided that all District employees are At-Will and subject to termination at any time. Disciplinary action for non-at-will employees includes, but is not limited, to, the following:

   a. Oral Warning. A formal discussion with an employee, usually by the employee's Supervisor or Department Head, about performance or conduct problems, the need for the employee to improve and what improvement is expected. The Supervisor or Department Head shall make a written record of the warning which shall be placed and maintained in the employee's personnel file as an "oral warning."

   b. Written Reprimand. A formal written notice, usually by the employee's immediate Department Head or General Manager, to the employee regarding performance or conduct problems, the need for the employee to improve and what improvement is expected. The written reprimand shall be filed in the employee's personnel file, along with a signed acknowledgment of receipt of the written reprimand from the employee. The employee may respond in writing to the written reprimand within seven (7) days, which response, if any, shall be

placed in the personnel file with the written reprimand.

c. Suspension. An involuntary leave of absence without pay subject to the provisions in sections K-2 and K-3 below.

d. Demotion. Reduction from one position to another having a lower salary range for disciplinary purposes (Demotions resulting from organizational changes and layoffs are not disciplinary actions.)

e. Discharge. Termination of employment.

2. Suspensions of Three (3) Days or Less.

a. The General Manager has discretion to suspend any employee for a period of three (3) days or less, and the suspended employee shall have no right of appeal. In such cases, a written notice will be given to and discussed with the employee. A copy of such notice will be placed in the employee's personnel file, along with a signed acknowledgement of receipt thereof by the employee. The notice shall Include the specific charges upon which the action is based, identification of the rule, regulation, or policy violated, and the duration of the suspension. The employee may respond in writing to such notice within seven (7) days, which response, if any, shall be placed in the personnel file with the notice of suspension.

3. Suspensions of More than Three (3) Days, Demotion, or Discharge.

a. Prior to suspending an employee for more than three (3) days, demoting, or discharging an employee, a written notice of such proposed disciplinary action shall be delivered to the employee personally, or by certified mail to the employee's last known address, at least five (5) business days prior to the effective date of the proposed disciplinary action. Such written notice shall contain:

i. A description of the proposed disciplinary action and its effective date(s);

ii. a statement of the reasons for such proposed disciplinary action, including the acts or omissions on which the proposed disciplinary action is based;

iii. copies of documents upon which the proposed disciplinary action is based, if any;

iv. a statement of the employee's right to respond, either orally or in writing, prior to the effective date of such proposed action;

v. a statement of the employee's right to representation; and

vi. a statement of the employee's right to appeal should such proposed disciplinary action become final.

b. Prior to the effective date of such suspension, demotion, or discharge, an employee will be given an opportunity to respond either orally or in writing, at the employee's option, to his or her Department Head or Office Administrator.

c. If an employee responds to a notice of proposed disciplinary action, the proposed disciplinary action shall be stayed for two (2) business days, at which time the employee shall receive written notice either sustaining, modifying, or canceling the proposed disciplinary action.

d. Should a proposed suspension, demotion, or discharge become final, an employee shall have the right to appeal such action pursuant to Section V(K)(4), below.

e. An employee shall be given reasonable time off without loss of pay to attend a pre-disciplinary meeting and/or interview pursuant to Section V(K)(4), below.

4. Disciplinary Appeals

a. A suspension of more than three (3) days, demotion, or discharge may be appealed to the District's designated Office Administrator. The appeal shall be presented to the Office Administrator within five (5) calendar days following the employee's receipt of the written notice of such discipline under this Section or Section V(K)(3)(a) should the employee respond to the proposed disciplinary action pursuant to Section V(K)(3)(b). All disciplinary appeals shall be in writing and shall be signed by the employee. If, within the five (5) calendar day appeal period, the employee does not file said appeal, the action of the District shall be considered final and conclusive.

b. If the employee timely files an appeal, the Office Administrator shall initiate an investigation on the suspension, demotion or discharge that the Office Administrator deems appropriate in his or her sole discretion, grant the employee the opportunity to be heard by the Office Administrator and to submit any documentary evidence the employee desires to have reviewed during the appeal.

c. The Office Administrator shall render a decision sustaining, reducing or rescinding an appealed disciplinary action. If an action to suspend or demote is reduced or rescinded, the appellant shall be entitled to restoration of pay and/or benefits in a manner consistent with the Office Administrator's decision. If an action to discharge is reduced to a suspension, the appellant shall be restored to his or her position or a similar position in the same department, subject to forfeiture of pay and benefits for all or a portion of the period of time the appellant was suspended. If an action to discharge is rescinded, the appellant shall be reinstated to his or her former position or a similar position in the same department and shall receive pay and benefits for the entire period of time he or she was removed from duty.

d. The decision of the Office Administrator is subject to appeal by the terminated employee to the General Manager. The General Manager will not conduct a hearing or a new investigation. The General Manager will review the record on appeal and, within forty-five calendar days following the Office Administrator's decision, will render a decision based thereon, sustaining, overturning, or modifying the Office Administrator's decision. The decision of the General Manager is final.

L. Standards of Conduct

Disciplinary actions are imposed primarily for corrective purposes and to address deficiencies in work performance. The following is a nonexclusive list of the common acts that lead to disciplinary action:

1. Actions contrary to the rules and regulations of the District, including those contained in this Manual.

2. Violation of any Federal, State, or local law directly impacting the employee's fitness for employment.

3. Using, possessing, dealing, distributing, or being under the influence of alcohol or marijuana, illegal narcotics, non-prescription or unlawful drugs, or other mind-altering substances, or the use of prescription drugs that may affect the safety of the employee or others, while on duty or at work locations, while on-call, or reporting to work or operating District vehicles or equipment.

4. Failure or refusal to comply with a lawful order or to accept a reasonable and proper assignment from an authorized Supervisor, Department Head or General Manager.

5. Inefficiency, dishonesty, incompetence, carelessness, or negligence in the performance of duties.

6. Sexual harassment or other unlawful harassment of another employee, customer or any other individual.

7. Chronic or excessive absenteeism, whether excused or unexcused, or inconsistent attendance.

8. Rude or discourteous treatment of other employees, customers or any other individual.

9. Inattention to duty, tardiness, carelessness or negligence in the care and handling of District property.

10. Loss or misuse of District funds.

11. Improper or unauthorized use of District vehicles or equipment or misappropriation of supplies.

12. Misuse of sick leave, including using sick leave under false pretenses.

13. Furnishing false information to obtain employment, or falsification of time sheets or other District records and reports.

14. Absence from duty without proper authorization, failure to report after leave of absence has ended or been disapproved, revoked, or canceled.

15. Acceptance of any bribe, gratuity, kickback, or other item of value when such is given in the hope or expectation of receiving preferential treatment.

16. Outside work not previously authorized in writing by the General Manager

or such work that creates a conflict of interest with District work or detracts from the efficiency of the employee in the effective performance of District functions.

17. Failure to obtain or maintain necessary qualification, certificate, or license, which is required as a condition of employment.

18. A record of unsafe driving for those employees required to operate District vehicles, as determined by the General Manager in his or her discretion.

19. Refusal to submit to drug and alcohol tests when directed to do so by the General Manager, Department Heads or Supervisor pursuant to Section V(G) of this Manual.

20. Testing positive for the presence of a controlled substance or alcohol pursuant to Section V(G) of this Manual; provided that a test for cannabis that detects nonpsychoactive metabolites will not be considered a positive test under this subdivision.

21. Failure to immediately report an accident or injury to the Supervisor, Department Head or General Manager.

22. Failure to immediately report breakdowns, improper or unsafe operation of equipment or facilities.

23. Working overtime without proper authorization.

24. Failure to use or wear proper safety gear, equipment and/or PPE.

25. Violation of any safety practices, including, but not limited to, wearing earbuds during field work operations and/or driving a District vehicle.

M. Injury and Illness Prevention Program (IIPP)

An injury and illness prevention program is a proactive process to help employers find and fix workplace hazards before workers are hurt. The purpose of this program is to prevent illnesses, injuries and fatalities in the workplace. A copy of the District's current Illness and Injury Prevention Program may be obtained from the Office Administrator.

N. Lactation

In compliance with Labor Code Section 1031, the District will provide any employee with a lactation room that is shielded from view, as well as access to a sink and refrigerator in close proximity to the employee's workspace. The District will provide additional break time to an employee to express milk as required under Labor Code Sections 1031 and 1033. Any employee shall have the right to request lactation accommodation by submitting the request for such accommodation in writing to the Office Administrator. The request should be submitted at least thirty (30) days prior to the date when the accommodation will be required and must include an estimate of the length of time for which the accommodation is required. The request shall also include any facilities the employee will need in connection with the lactation accommodation in order to facilitate the employee's expressing and storage of milk. The District will respond to any request for lactation accommodation within ten (10) days of receipt of the request, stating how the District will accommodate the request. An employee has the right

to file a complaint with the California Labor Commissioner if the District violates the employee's right to such lactation accommodation.

O. Dress Code and Safety Equipment

1. The District will provide all full-time field employees with District uniforms to be worn while on duty. The District will also provide all field employees with necessary District owned safety equipment (e.g., safety vests, hard hats, etc.), which will be properly cared for by the employee.

2. Field employees shall be granted an allowance of up to $350 per year for the purchase of steel toe boots. Employees must submit itemized receipts to the Office Administrator in order to receive reimbursement for said allowance.

3. All employees shall present a clean and neat appearance at all times; provided this provision shall not prohibit any hairstyle historically associated with race, including, but not limited to, hair texture and protective hairstyles, such as braids, locks and twists.

4. Office personnel will dress in a manner consistent with good business practices.

5. No employee shall have visible tattoos on the head, face, or neck. Any visible tattoos cannot be obscene, sexually explicit, discriminatory as to sex, race, religion, national origin, or be extremist in nature or gang related. Any tattoos in violation of this Section must be covered with clothing or a bandage while at work or must be removed.

P. Electronic Communications

The District uses various forms of electronic communications including, but not limited to, communications via computers, email, telephones, mobile phones, smart phones, text messaging, internet, and radios. All such electronic communications are official District's records and are the property of the District. The District reserves the right to access and disclose all messages transmitted through its system or equipment for any purpose. Employees should not, and do not have an expectation of privacy when it comes to their use of any District owned electronic communication devices. Communications transmitted over said forms of electronic communications should be limited to District business and District related activities or the accomplishment of business-related tasks.

Q. Cell Phone Usage

The use of cellular phones when operating an automobile or any motorized vehicle while conducting District business is prohibited, with the exception of the use of an integrated hands-free vehicle phone system for phone calls only (i.e., text messaging and Bluetooth headsets/earpieces do not fall within this exception).

R. Cell Phone Allowances

1. The terms upon which employees whose job duties require them to routinely be available by cell phone or to have access to a cell phone when they are performing their duties away from their office. Employees will be compensated for using their personal cell phone to meet those needs.

2. The District provides cell phones to field employees and the General Manger but does not provide office employees with District owned cell phones for their use. Office Employees, as determined by the General Manager, whose job duties require them to regularly use or be available by personal cell phone may be eligible for a cell phone allowance to compensate for the business use of their personal devices.

3. A cell phone allowance is available either on an ongoing or short-term basis. Receipt of a cell phone allowance shall be based upon job duties. Individuals whose duties routinely or temporarily include the following may be eligible for a regular or temporary (minimum of two pay periods) allowance:

    a. Critical and/or emergency decision making

    b. Safety or security

    c. Considerable time away from an assigned office or work area, without assigned telephone access

    d. Required to be accessible outside of scheduled or normal working hours on a routine basis

4. The General Manager must confirm, in writing, that an employee meets at least one of these criteria and must recommend that the employee receive a cell phone allowance to compensate for business use of a personal cell phone.

5. A technology allowance approval form may be made at any time during the year**.** Allowances are not available retroactively. All approved allowances will be processed on the first available payroll.

6. A cell phone allowance does not constitute an increase to base pay and will not be included in the calculation of percentage increases to base pay for purposes of calculating pay raises or overtime rates.

7. In order to receive a cell phone allowance, an employee must agree to the following:

    a. To obtain and maintain a personal cell phone and sufficient service to enable accomplishment of necessary job duties.

    b. That they are responsible for any loss, damage, insurance, and/or replacement of their personal cell phone.

    c. To promptly report to their department head or supervisor any change to their cell phone number.

    d. Employees agree to carry the cell phone with them, keep it charged and in operational condition as necessary to perform their job duties.

    e. To share their cell phone number and that their cell phone number may be shared as necessary for business purposes.

8. The dollar amount of the cell phone allowance is intended to compensate for only a

portion of the expense of maintaining a personal cell phone and is determined based on expected use related to job duties. Tax considerations have been taken into account when determining allowance levels.

9. A cell phone allowance shall be $50 per month.

   a. Allowance rates shall be periodically reviewed by the General Manager.

   b. The allowance amount shall be included in the employee's paycheck and will appear monthly.

10. Use of the phone in any manner contrary to local, state or federal laws will constitute misuse, and will result in immediate termination of the cell phone allowance.

11. The General Manager is responsible for an annual review of the list of employees receiving the cell phone allowance, to determine if existing allowances should be continued as is, changed, or discontinued, and to determine if any new allowances should be established.

12. The District shall not bear any costs associated with an employee's maintenance of a personal cell phone and related service, other than an allowance approved pursuant to this policy.

13. If a District employee's job duties do not include the regular need to use a cell phone, then the employee is not eligible for a cell phone allowance. De minimis use of a personal cell phone for a business purpose or for personal convenience will not be reimbursed.

14. Exceptions to cell phone allowances may be made by the General Manager.

S. Anti-Fraud

1. The District and its employees must, at all times, comply with all applicable laws and regulations. Employees uncertain about the application or interpretation of any legal requirements should refer the matter to their Department Head or General Manager.

2. The District expects its employees to conduct themselves in a businesslike manner and perform duties conscientiously, honestly, and in accordance with the best interests of the organization. Employees are expected to take great care when working with District's suppliers or contractual contacts and members. Employees should respect the confidentiality of information acquired in the course of their work. Regardless of circumstances, if an employee senses that a course of action may involve a conflict of interest, fraud and/or dishonesty, they should immediately communicate all facts to the General Manager, Department Head or Supervisor.

T. Termination and Resignation

1. Upon termination or resignation of employment with the District, the employee shall be offered an exit interview. The exit interview will include a discussion of any and all

applicable benefits, including accrued sick leave, accrued vacation, the District's retirement plan, health insurance, life insurance and disability insurance. The employee is also required to immediately return all District property, i.e., keys, credit cards, identification tag, uniforms, cell phone, laptop, tablets and/or any District embroidered shirts and caps.

2. Employees, including employees released during their initial introductory period or dismissed for disciplinary reasons, will receive their final paycheck within 72 hours of the employee's last day of work or, with the employee's consent, on the next scheduled payroll processing. The final paycheck will include payment for all earned salary due and not previously paid, and any accrued but unused leave balances which are subject to pay. Unused sick leave shall be paid out only to those employees who retire from the District or qualify as specified in Section VII(B) below.

U. Personnel File

1. Current Employees: Employee files contain confidential information related to your employment, compensation, education, training (including your name, training provider's name, duration and date of any training, core competencies of any training, any skills in equipment or software and any resulting certification or qualification) and job performance. You may inspect your own personnel file in the presence of a manager with reasonable advance notice.

2. Former Employees: If you are a former employee, you may inspect your own personnel file in the presence of a manager and the General Manager with reasonable advance notice. You may submit a request to view your personnel file no more than one time per twelve-month period.

3. The District complies with California Labor Code §432 regarding employment applications and §1198.5 regarding review of personnel files and will, upon reasonable request, provide you, either as an employee or former employee, with a copy of your personnel file. The District maintains all applications and personnel records for the later of at least four years: (i) after such records or files are created, or (ii) after the end of an employee's employment at the District. The District also maintains records of job titles and wage rate histories for each employee for the duration of the employee's employment and seven (7) years after termination. A request to inspect or copy a personnel file must be made in writing. A manager is responsible for preparing and authorizing access to a personnel file. You may designate, in writing, a representative to inspect or receive a copy of your personnel file.

4. A request to inspect or copy a personnel file will not be granted if you have a pending lawsuit against the District that relates to a personnel matter. Otherwise, a request to inspect or copy a personnel file will be granted within thirty days of receipt of a signed written request. Personnel files will normally be available for inspection in the District's office unless you and the District agree in writing to meet at another location.

5. Management employees with a "need to know" may be granted access to personnel files.

V. Emergency Procedures

In case of an emergency during working hours (e.g., fire, earthquake, etc.), the District asks that you remain calm and alert others in your area. As soon as it is safe to do so, move out of the building by using the nearest exit. Exits and fire extinguishers are clearly marked throughout the building. Once you leave the building, report to the back of the building and wait there for further instructions.

In case of an emergency during non-working hours, the District asks that you first ensure the welfare and safety of yourself and your family. Then the District asks you to contact your immediate supervisor for instructions regarding whether or not to report for duty.

In the event of an "emergency condition," the District will not take any adverse employment action against an employee who refuses to report to, or leaves, a workplace or worksite within the area affected by the emergency condition because the employee has a reasonable belief that the workplace or worksite is unsafe. The District will not prevent any employee from accessing a phone or other mobile device to seek emergency assistance, assessing the safety of the emergency condition or communicating with others to confirm the employee is safe. For purposes of this paragraph, an "emergency condition" is either: (i) a condition of disaster or extreme peril to the safety of persons or property caused by natural forces or a criminal act; or (ii) an order to evacuate a workplace, worksite, or worker's home, or the school of a worker's child due to a natural disaster or a criminal act. A health pandemic does not constitute an "emergency condition."

Subject to your request, the District will notify your emergency contact in the event you are arrested or detained at work.

VI. COMPENSATION

A. Employee Compensation

1. The Board of Directors shall have the exclusive authority to determine the General Manager's salary. The Board shall approve changes to the organization of District staff as recommended by the General Manager. The Board shall also determine the salary ranges and hourly pay ranges for positions of the District. The General Manager shall have authority to determine the salaries or hourly pay rates of the employees of the District within the approved salary range for each position.

2. Hourly rate of pay for Exempt/Executive Employees will be calculated by taking the employee's monthly pay rate and multiplying said rate by 12, then dividing by 2,080. All other employees' hourly pay rates shall be established upon date of hire and adjusted thereafter in accordance with Section V(C), VI(A) and Section VI(E).

3. Pay periods for all full-time and part-time employees and District Directors will be bi-weekly.

4. Paychecks for all Employees, and for District Directors will be paid via direct deposit.

5. Pay earned during each pay period shall be paid to the employee within 2 working days of the end of each period.

6. The Board shall annually consider the cost of living in salary and wages of employees based upon recommendation by the General Manager.

7. Adjustments in salary and wages of employees based upon performance will be considered in conjunction with an employee performance review. The General Manager shall have authority to adjust an employee's salary and wages within the approved salary range of each position at his/her discretion.

B. Overtime Pay

1. All "Non-Exempt Employees" are eligible for overtime pay. All overtime hours worked must be approved by a Department Head or General Manager.

2. Overtime pay is defined as that time spent on the job over nine (9) hours in one (1) workday, and over eight (8) hours on the Fridays worked or any time spent on the job on holidays, non-working Fridays, Saturdays, or Sundays.

3. The rate paid for overtime pay is the regular hourly rate times one and one-half (1½ or 1.5) for each hour of overtime worked beyond nine (9) hours in one day, and over eight (8) hours worked on Friday and two times the regular hourly rate for each hour of overtime worked beyond twelve (12) hours in one day. A 24-hour workday begins at 12:00 a.m. and concludes at 11:59 p.m.

C. On-Call Pay – Treatment

1. SCADA Alarms: Time spent by the On-Call employee to address a SCADA alarm or to perform a system check remotely via SCADA or other electronic device, will be paid overtime pay of a minimum of a quarter-hour (¼), or actual time worked, whichever is greater. The On-Call personnel shall perform a water system check remotely via SCADA twice a day each weekend day once between 2:00 and 4:00 p.m. and once between 7:00 p.m. and 10:00 p.m., or as directed by his/her supervisor.

2. Regular Workdays: Each employee of the District who is On-Call for the Treatment Plants will receive 1.75 hours of overtime pay for each weekday they perform On-Call duties. The time shall be recorded as follows:

    - 0.5 hours – BPOU Treatment Plant
    - 0.5 hours – PVOU Treatment Plant
    - 0.75 hours – SCADA – BP, PVOU-IZ, PVOU-SZ

3. Weekends and District Closed Fridays: An employee will receive 1.75 hours of overtime pay for each weekend day or District closed Friday they perform On-Call duties. The time shall be recorded as follows:

    - 0.5 hours – BPOU Treatment Plant
    - 0.5 hours – PVOU Treatment Plant
    - 0.75 hours – SCADA – BP, PVOU-IZ, PVOU-SZ

In addition to this, On-Call personnel shall also perform on-site BPOU Treatment Plant facility rounds, estimated to take no more than two (2) hours, unless operational issues arise. On-call personnel shall also perform PVOU-IZ Treatment Plant facility rounds at no more than two (2)

hours and PVOU-SZ rounds at one (1) hour, unless operational issues arise. Rounds shall begin at 8:00 a.m. and be completed by 12:00 p.m., or as directed by the superintendent.

4. Holidays: An On-Call employee will receive 2.75 hours of overtime pay for each District holiday (excluding floating holidays) during which they are On-Call. The time shall be recorded as follows:

    - 1 hour – BPOU Treatment On-Call for the BPOU Treatment Plant
    - 1 hour – PVOU Treatment On-Call for the PVOU Treatment Plant
    - 0.75 – SCADA– BP, PVOU-IZ, PVOU-SZ

BPOU treatment rounds, and PVOU treatment rounds shall remain the same as outlined in Section VI C(3).

5. Call Outs: If the employee is required to physically respond to an after-hours emergency, service call, or facility alarm, the employee will receive overtime pay for a minimum of two (2) hours, or, for actual time worked, whichever is greater. This shall apply to each call out, provided the next call out occurs at least 2 hours after the initial call out. If the On-Call employee receives an additional call within the first two-hour call out period, the employee shall then be eligible for regular overtime compensation.

D. On-Call Pay – Distribution

3. Regular Workdays: Each employee of the District who is On-Call for Distribution will receive 1.00 hour of overtime pay for each weekday they perform On-Call Distribution duties. The time shall be recorded as follows:

    - 0.5 hours – Distribution On-Call for the District
    - 0.5 hours – Distribution On-Call for Industry Public Utilities (IPU)

4. Weekends and District Closed Fridays: An employee will receive 1.50 hours of overtime pay for each weekend day or District closed Friday they perform Distribution On-Call duties. The time shall be recorded as follows:

    - 0.75 hours – Distribution On-Call for the District
    - 0.75 hours – Distribution On-Call for Industry Public Utilities (IPU)

5. Holidays: An On-Call employee will receive 2 hours of overtime pay for each District holiday (excluding floating holidays) during which they are On-Call. The time shall be recorded as follows:

    - 1 hour – Distribution On-Call for the District
    - 1 hour – Distribution On-Call for Industry Public Utilities (IPU)

6. Call Outs: If the employee is required to physically respond to an after-hours emergency, service call, or facility alarm, the employee will receive overtime pay for a minimum of two (2) hours, or, for actual time worked, whichever is greater. This shall apply to each call out, provided the next call out occurs at least 2 hours after the initial call out. If the

On-Call employee receives an additional call within the first two-hour call out period, the employee shall then be eligible for regular overtime compensation.

E. Timekeeping

Each employee is required to keep an accurate record of their time through the use of an online time tracking system designated by the District. It is each employee's responsibility to maintain the online time tracking system on a daily basis.

F. Certification Bonus

When an employee, other than Supervisors and Executive/Management Employees, obtains work related certifications or licenses above the required certification or licenses for their position, the employee will receive an annual bonus for each certification above the required level for their respective position. Qualifying certification or licenses for this bonus program are shown below, along with their respective annual bonus amounts:

- Water Distribution Operator (WDO) certificates issued by the California Water Resources Control Board:
    - WDO I – $400.00
    - WDO II - $600.00
    - WDO III - $800.00
    - WDO IV - $1,000.00
    - WDO V - $1,200.00
- Water Treatment Operator (WTO) certificate issued by the California Water Resources Control Board:
    - WTO I - $ 400.00
    - WTO II - $600.00
    - WTO III - $800.00
    - WTO IV - $1,000.00
    - WTO V - $1,200.00
- American Water Works Association Water Use Efficiency Practitioner Certification $600.00
- American Water Works Association Cross Control Specialist Certification - $800.00

The payment of the bonus for the aforementioned certifications will occur annually on the anniversary date of the issuance of the certificate. If the employee loses or no longer otherwise qualifies for a certification for any reason, the annual bonus for the certification will immediately cease. It is the employee's responsibility to request the bonus at the appropriate time and provide the supporting certificate.

G. Certification and Educational Reimbursement

1. Upon successfully passing the tests and certifications listed in Section VI(F), above, the

District will reimburse the employee for the cost of the test and certification, as well as certification renewal (minus any late fees, as it is the responsibility of the District employee to seek timely payment of fees).

2. With prior written approval from the General Manager, employees may be entitled to reimbursement of actual expenses for tuition, books and supplies incurred in conjunction with courses that are directly related to improving the employee's job skills or knowledge with respect to his or her current position, as determined by the General Manager in his or her sole discretion, provided the employee receives a passing grade of at least a "C" or "C-" for the course. Expenses for certification and education are limited to a maximum of $3,000.00 per employee per calendar year.

H. Reimbursement for District Related Business

Use of personal automobiles by employees for District business shall be reimbursed for miles driven at the current standard mileage rate allowed by the Internal Revenue Service.

VII. BENEFITS

A. Vacation

1. Each Full-Time Regular Employee of the District shall receive paid vacation time in addition to salary. Said vacation will be accrued and credited to the employee's vacation account, on a monthly basis, as follows:

    a. During the first year of employment through the completion of the employee's fifth year of employment, the employee shall accrue 6.67 hours per month of vacation (equivalent to ten (10) days of vacation per year), up to a maximum of 320 hours of unused vacation time.

    b. During the sixth year of employment through the completion of the employee's tenth year of employment, the employee shall accrue 10 hours per month of vacation (equivalent to fifteen (15) days of vacation per year), up to a maximum of 320 hours of unused vacation time.

    c. After the completion of the tenth year of employment, the employee shall accrue 13.33 hours per month of vacation (equivalent to twenty (20) days of vacation per year) up to a maximum of 320 hours of unused vacation time.

2. An employee may utilize accrued vacation time as arranged by the employee and his or her Department Head or General Manager at least 48 hours in advance of commencement of the vacation. Preferred vacation times are not guaranteed, but the employee's Department Head or General Manager shall attempt to grant the employee's request. Once approved, scheduled vacations may not be changed unless authorized by a Department Head or General Manager.

3. Accrual vacation time is limited to a maximum of 320 hours for each employee and vacation time will cease accruing when that limit is reached, until such time as vacation time is used and the accrued total is reduced below 320 hours. Employees may elect, during any regularly scheduled payroll, to be paid for any vacation that they have accrued

up to 80 hours, as long as the hours that are requested to be paid do not result in the employee's unused vacation time balance to drop below 40 hours. Vacation time will be paid at the employee's rate of pay in effect at the time payment is made.

4. In the event a District recognized holiday, as set forth in Section VII(C), below, falls within a scheduled vacation, such holiday shall not be charged against an employee's accrued vacation time.

B. Sick Leave

1. Full Time Regular Employees

   a. Sick leave with pay shall be granted to each Full-Time Regular Employee of the District at the rate of 6.67 hours per month; provided that in all events, an employee will accrue at least forty (40) hours of sick leave credit by their 200th day of employment. Sick leave is not a privilege to be used at the employee's discretion. Sick leave may be used for preventive care or for care of an existing health condition of the employee or an employee's family member or designated person, including for reproductive loss leave under Section VII(F), or for specified purposes when an employee is a victim of a qualifying act of violence (as defined in Section VII.I, herein), including: (i) to allow the employee to obtain or attempt to obtain a temporary restraining order or other court assistance to help ensure the health, safety or welfare of the employee or his or her family member; or (ii) to obtain medical attention or recover from injuries that result from a qualifying act of violence; or (iii) to obtain psychological counseling or mental health services from a shelter, program or crisis center as a result of a qualifying act of violence; or (iv) to provide care to a family member who is recovering from injuries caused by a qualifying act of violence; or (v) to participate in safety planning or other actions to increase safety, with appropriate certification of the need for such services; or (vi) any other reason specified in Government Code section 12945.8(b). A family member includes the employee's parent, parent-in-law, child, spouse, registered domestic partner, grandparent, grandchild, and sibling. A "designated person" means any individual related by blood to the employee or whose close association with the employee is the equivalent of a family relationship; provided that the District may limit an employee to one designated person per 12-month period.

   b. In order to request sick leave, the employee must notify the District in advance whenever the need is foreseeable, or within one (1) hour prior to the time set for beginning the employee's daily duties. If the request is sudden or otherwise unforeseeable, the employee must provide notice to the employee's Department Head or the General Manager as soon as possible. In addition, if an employee requests sick leave before a scheduled Friday off or the following Monday from a scheduled Friday off, the employee may be required to provide a doctor's note. When sick leave absence is for more than three (3) working days, the employee may be required to file with the District a physician's release or other evidence satisfactory to the District, stating the cause or reason for absence. If an employee is absent five (5) (or more) consecutive working days, a doctor's release may be required in order for the employee to return to work. The doctor's release must

state that the employee is sufficiently recovered to perform the duties of the position without restriction or limitation, or the employee may not be permitted to return to work.

c. Any Full Time Regular Employee who, on the first of December of any calendar year, has an unused sick leave balance of at least 400 hours (50 days) will be paid for sick leave that is in excess of 400 hours. The payment will be calculated at one-half (1/2) of the employee's current rate of pay for hours in excess of 400 hours, which payment will be made during the first pay period in December of the same year. Payments shall be made to ensure that as of the first pay period of December of any calendar year there shall be no employee that has a balance of unused sick leave in excess of 400 hours.

d. If an employee is terminated by the District or resigns with less than five (5) years of service, then the employee shall not be entitled to receive payment for any unused sick leave balance that the employee may have at the time of termination regardless of the amount of unused sick leave. If an employee resigns from the District with five (5) or more years of service to the District the employee will be paid for unused sick leave at fifty percent (50%) of the employee's current rate of pay. If an employee is terminated by the District, the said employee will not be eligible for payment of any unused sick leave. At no time will any such employee, subject to the provisions of this paragraph, be paid for any unused sick leave in excess of four hundred (400) hours.

e. Any employee who retires with either service or disability retirement will be paid for any unused sick leave at one-half (1/2) of the employee's then current rate of pay.

f. In case of an employee's death, the Board of Directors, in its sole discretion, may authorize the payment for any unused sick leave to that employee's spouse or family.

2. Part-Time Regular Employees

a. Effective as of January 1, 2024, sick leave with pay shall be granted to each Part-Time Regular Employee of the District at the rate of 2 minutes of sick time per hour worked but will be granted a minimum of five (5) days of paid sick leave per calendar year; provided that in all events, the part-time employee will accrue at least forty (40) hours of sick leave credit by their 200th day of employment. New Part Time Regular Employees must complete ninety (90) days of employment with the District before being eligible to use any accrued sick leave. Sick leave is not a privilege to be used at the employee's discretion. Sick leave may be used in the following circumstances where compensable leave is not otherwise provided by the District: for preventive care or for care of an existing health condition of the employee or an employee's family member or designated person, including for reproductive loss leave under Section VII.F, compassionate leave under Section VII.E, military leave under Section VII.G, victim of crime and judicial proceedings leave under Section VII.J, jury duty leave under Section VII.M, or for specified purposes when an employee is a victim of a qualifying act of violence (as defined in Section VII.I, herein), including: (i) to allow the employee to obtain

or attempt to obtain a temporary restraining order or other court assistance to help ensure the health, safety or welfare of the employee or his or her family member; or (ii) to obtain medical attention or (iii) psychological counseling or mental health services from a shelter, program or crisis center as a result of a qualifying act of violence; or (iv) to provide care to a family member who is recovering from injuries caused by a qualifying act of violence; or (iv) to provide care to a family member who is recovering from injuries caused by a qualifying act of violence; or (v) to participate in safety planning or other actions to increase safety, with appropriate certification of the need for such services; or (vi) any other reason specified in Government Code section 12945.8(b). A family member includes the employee's parent, parent-in-law, child, spouse, registered domestic partner, grandparent, grandchild, and sibling. A "designated person" means any individual related by blood to the employee or whose close association with the employee is the equivalent of a family relationship; provided that the District may limit an employee to one designated person per 12-month period.

b. Any Part-Time Regular Employee who, on the first of December of any calendar year, has an unused sick leave balance in excess of 48 hours, will be paid for any such excess sick leave at the rate of one-half (1/2) of the employee's current hourly rate. Payment will be made during the first pay period in December of the same year. Payments shall be made to ensure that as of the first pay period of December of any calendar year there shall be no part-time regular employee that has a balance of unused sick leave in excess of 48 hours.

c. Sections VII.B(1)(c), VII.B(1)(d), and VII.B(1)(e), above, regarding sick leave that apply to Full Time Regular Employees shall also apply to Part Time Regular Employees.

C. Holidays

1. All Full-Time Regular Employees will receive the following days off from work as paid holidays per Calendar Year:

    - New Year's Day - January 1st
    - Martin Luther King Day - Third Monday in January
    - Presidents' Day - Third Monday in February
    - Cesar Chavez Day – March 31st
    - Memorial Day - Last Monday in May
    - Juneteenth – June 19th
    - Independence Day - July 4th
    - Labor Day - First Monday in September
    - Veteran's Day - November 11th
    - Thanksgiving Day – Fourth Thursday in November
    - Thanksgiving Holiday – Day After Thanksgiving Day
    - Christmas Day - December 25th

2. If a holiday falls on a Saturday, the immediately preceding Friday will be deemed the

District holiday. If a holiday falls on a Sunday, the immediately following Monday will be deemed the District holiday. Additionally, if a District holiday falls on a scheduled Friday off, the immediately preceding day will be deemed the District holiday unless otherwise decided by the General Manager.

3. In addition to the District recognized holidays, each Full-Time Regular Employee of the District shall be entitled to two (2) additional days off per calendar year, to be known as a "floating holiday," which may be utilized on any regularly scheduled District workday with the prior approval of the General Manager or appropriate Department Head. A "floating holiday" must be used in nine (9) hour increments. These "floating holidays" must be used in the calendar year and cannot be carried over to the next calendar year.

4. Any Full-Time Regular Employee required to work on a holiday may be entitled to compensation pursuant to this Section VII(C). In order for an employee to receive a paid holiday, the employee must work on the regular workday before and the regular workday after the holiday or utilize vacation time on those days. If an employee takes either or both of those days off as sick leave, the employee may not receive a paid holiday unless and until the employee has provided his or her Department Head or General Manager a letter from a doctor or other medical professional substantiating the employee's absence as a permissible use of sick leave.

D. Leave of Absence - Non-CFRA or Non-PDL Eligible

Upon submission of a written request, and written approval by the General Manager, an employee may be granted a non-CFRA or non-PDL eligible leave of absence without pay. No employee benefits will be paid by the District, or accrued, during the absence, other than those mandated by law. Employee will be offered COBRA beginning the first of the month following the month the leave began. If the employee wishes to continue to receive insurance coverage(s) while on leave of absence, the employee may elect to pay the District the cost of insurance coverage(s) in order to continue protection, through COBRA.

E. Compassionate Leave

Whenever any Full-Time Regular Employee is absent from work due to a death in the employee's immediate family or the employee's spouse's immediate family, the General Manager, in his or her discretion, is authorized to grant up to a maximum of three (3) working days compassionate leave with pay and the General Manager may require the employee to provide documentation to substantiate the need for that leave, including, but not limited to, an obituary or death certificate if one is available. Compassionate leave with pay will not affect any employee benefits. Immediate family for the purpose of compassionate leave is defined as a mother, father, wife, husband, natural or adopted child, brother, sister, grandparent, grandchild, domestic partner, similar in-laws or step relatives. In addition, any employee may request up to five (5) days of unpaid compassionate leave (for Full-Time Regular Employees, they would be entitled to up to two (2) additional unpaid days of such leave) upon the death of a spouse, child, parent, sibling, grandparent, grandchild, domestic partner or parent-in-law. Such compassionate leave does not need to be used on consecutive days but must be used within three (3) months of the family member's death. An employee may use accrued and unused paid vacation or paid sick leave for any unpaid compassionate leave. The District will not retaliate against an employee for the employee's use of such compassionate leave.

F. Reproductive Loss Leave

An employee who suffers a reproductive loss event such as, failed adoption, failed surrogacy, miscarriage, stillbirth, or an unsuccessful assisted reproduction is entitled up to five days of protected unpaid leave. The leave must be completed within three months of the reproductive loss event. An employee who suffers more than one productive loss within 12 months will be provided up to 20 days of leave.

G. Leave Related to Military Service

Any leave taken as a result of military service must be supported by a certification of its necessity from the United States government. A leave taken due to the need to care for a service member shall be supported by a certification by the service member's health care provider. Military leave is unpaid, but you may use accrued vacation or paid sick leave for any such leave.

H. School Suspension Leave

If an employee is the parent or guardian of a child facing suspension from school and are summoned to the school to discuss the matter, the employee should alert their supervisor as soon as possible before leaving work. No discriminatory action will be taken against an employee who takes time off for this purpose. This time off is unpaid, although you can use accrued vacation or a floating holiday.

I. Victim of Qualifying Act of Violence Leave

2. If an employee is the victim of a "qualifying act of violence" or of a crime that caused physical injury or caused mental injury and a threat of physical injury, or had an immediate family member (i.e., spouse or domestic partner, child, parent, grandparent, grandchild or sibling, or a designated person, as defined in Section B(1)(A), above) who died as a result of a crime, the employee may take time off to obtain, or to attempt to obtain, any relief, including but not limited to, a temporary restraining order, restraining order, or other injunctive relief to help ensure the health, safety, or welfare of the victim or the victim's family member. A "qualifying act of violence" is defined as any of the following: (a) domestic violence, (b) sexual assault, (c) stalking, or (d) an act, conduct or pattern of conduct that includes any of the following: (i) an individual causes bodily injury or death to another individual; (ii) an individual exhibits, draws, brandishes, or uses a firearm, or other dangerous weapon, with respect to another individual; or (iii) an individual uses, or makes a reasonably perceived or actual threat to use, force against another individual to cause physical injury or death. The employee must give reasonable advance notice of the intention to take time off, unless the advance notice is not feasible. When an unscheduled absence occurs, the employee must, within a reasonable time after the absence, provide certification to the District substantiating the leave. Certification can be any of the following, including:

    - A police report indicating the employee or the employee's family member was a victim as specified in the above paragraph;

    - A court order protecting or separating the employee or the employee's family member from the perpetrator of the qualifying act of violence, or other evidence

from the court or prosecuting attorney that you or your family member appeared in court;

- Documentation from a medical professional, domestic violence counselor, sexual assault counselor, victim advocate, licensed health care provider, or counselor that the employee or the employee's family member was undergoing treatment or seeking or receiving services directly related to the qualifying act of violence; or

- Any other form of documentation that reasonably verifies that the qualifying act of violence occurred, including, but not limited to, a written statement signed by the employee or an individual acting on the employee's behalf, certifying that the absence is for a purpose authorized in this section.

3. To the extent allowed by law, the District will maintain the confidentiality of any request for a Victim of a Qualifying Act of Violence Leave.

4. Victim of a Qualifying Act of Violence Leave may be paid upon the employee's request as provided under Section B, above. However, depending on an employee's specific needs, he or she may use accrued vacation, sick leave, or a floating holiday.

5. The District will also provide reasonable accommodations, as specified under Government Code section 12945.8(e), for any employee who is a victim of a qualifying act of violence who requests such an accommodation for the employee's safety while at work.

6. "Domestic violence" is defined in Family Code section 6211; "Crime" is defined in Government Code section 12945.8(j)(1); "Sexual Assault" is defined in Government Code section 12945.8(j)(6); "Stalking" is defined in Government Code section 12945.8(j)(7); and "Victim" is defined in Government Code section 12945.8(j)(8).

J. Victims of Crime and Judicial Proceedings Leave

7. If an employee is a victim of a crime, an immediate family member of a victim, a registered domestic partner of a victim, or the child of a registered domestic partner of a victim, the employee can take time off to attend judicial proceedings related to that crime.

8. In order to take time off under this provision, the employee must give the Company a copy of the notice of each scheduled proceeding that is provided to the victim by the agency responsible for providing notice, unless advance notice is not feasible. When advance notice is not feasible or an unscheduled absence occurs, the employee must provide documentation evidencing the judicial proceeding from any of the following entities:

- The court or government agency setting the hearing;
- The district attorney or prosecuting attorney's office; or,
- The victim and/or witness office that is advocating on behalf of the victim.

9. Time off for Victims of Crime and Judicial Proceedings Leave is unpaid. However, an employee may elect to use your accrued vacation, sick leave, or a floating holiday for such leave.

10. To the extent allowed by law, the District will maintain the confidentiality of any request for a Victims of Crime and Judicial Proceedings Leave.

11. "Immediate family member" means spouse, registered domestic partner, child, stepchild, brother, stepbrother, sister, stepsister, mother, stepmother, father, or stepfather.

12. "Registered domestic partner" means a domestic partner that is registered under California law

13. "Victim" means a person against whom one of the following crimes has been committed:

- A violent felony as defined in Penal Code section 667.5(c);
- A serious felony as defined in Penal Code section 1192.7; or,
- A felony provision of law proscribing theft or embezzlement.

K. HIPAA

The Health Insurance Portability and Accountability Act was enacted in 1996 and is overseen by the U.S. Department of Health and Human Services. HIPAA regulations are enforced by the Office of Civil Rights and prevent the release, disclosure or use of an individual's health information without written permission. However, there are instances when certain health information can be disclosed to what is referred to as "covered entities" without permission. A copy of the current HIPAA notice may be obtained from the Office Administrator.

L. COBRA

The Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) was enacted to protect employees and their eligible family members by allowing them to continue group health insurance under the employer's plan at affordable group rates. Employees are notified at hiring of their rights under this law, and it is the employee's responsibility to notify the District's Office Administrator of any qualifying event believed to enable COBRA coverage within 60 days of such event. Cal-COBRA is California law that has similar provisions to federal COBRA. With Cal-COBRA the group policy must be in force with 2-19 employees covered on at least 50 percent of the employer's working days during the preceding calendar year, or the preceding calendar quarter, if the employer was not in business during any part of the preceding calendar year. A copy of the current COBRA requirements may be obtained from the Office Administrator.

M. Jury Duty

1. District employees summoned by a local or State tribunal will be permitted time off from work for jury duty. The affidavit or Jury Summons requiring jury service must be presented by the employee to the Office Administrator prior to the date that the employee must attend jury duty.

2. For Full-Time Regular Employees, the District will pay for a maximum of up to ten (10) working days of jury service every calendar year at the employee's regular rate of pay.

In order to qualify for paid jury leave, the employee must provide proof of attendance at jury duty and pay to the District any amount of money the Court paid to the employee, minus any amount paid for travel mileage.

3. All Full-Time Regular Employees that are required to serve on a jury for more than 10 days will continue to receive other District employment benefits while serving on the jury, but will not receive regular pay beyond the 10 days as set forth under Section VII.M.2, above; provided that you may use accrued vacation or paid sick leave for any such unpaid jury duty service.

N. Time Off to Vote

The General Manager will allow employees time off from work with pay for no more than two (2) hours or as otherwise provided by state and/or federal law for the purposes of voting at any Federal, Statewide or Local Government election. Such time off will be granted during times that are least disruptive to District operations, as designated at the discretion of the General Manager or the appropriate Department Head.

O. Health, Dental, and Vision Insurance

1. All Full-Time Regular Employees of the District, and all elected or appointed members of the District's Board of Directors, shall be eligible for health, dental, and vision insurance coverage upon meeting the required waiting period for each such coverage. For Medical, the waiting period is 1st of the month following 30 days from hire date and for Dental and Vision it is the 1st of the month following 60 days from the hire date. For said Full-Time Regular Employees and Directors, the District shall pay for 100% of the cost of health, dental, and vision insurance coverage for the employee or Director, the employee's or Director's spouse, and the employee's or Director's dependent(s) in accordance with the group plan provided by the District. All eligible employees must be enrolled, should you wish to waive coverage please notify Office Administrator.

2. A copy of the current health, dental, and vision insurance plans may be obtained from the Office Administrator. District paid health, dental, and vision insurance is a benefit that is subject to the discretion of the Board of Directors, and the plan(s) or coverage may be changed or eliminated without notice.

P. Life Insurance

1. Upon meeting the required waiting period, the District provides a life insurance benefit for the employee and such a lesser amount for family members of the employee as provided by the District's policy.

2. Upon a Director's sworn Oath of Office and upon meeting the required waiting period, life insurance shall be available to the Director and such lesser amount for the Director's spouse as provided by the District's life insurance plan.

3. A copy of the current life insurance plan may be obtained from the Office Administrator. The Board of Directors reserves the right to amend said life insurance benefits in its sole discretion at any time.

Q. Disability Insurance

The District provides Full-Time Regular Employees Short-term Disability (STD) and Long-term Disability (LTD) insurance at no cost to the employee upon meeting the required waiting period. More information regarding said disability plans are available for inspection at the District office during regular business hours.

R. Flexible Spending Account (FSA)

Upon meeting the required waiting period, eligible Full-Time Regular Employees may participate in the District's Flexible Spending Account (FSA) program. The District provides an employer-funded contribution of up to **$680** annually toward an FSA, which annual amount shall automatically be adjusted in the event the federal government increases the limit on employer-funded contributions. Employees may elect to receive up to **$500** of the employer contribution without any required out-of-pocket contribution. If an employee elects an FSA amount exceeding $500, the employee will be required to contribute a matching amount through payroll deductions for any portion above $500, up to the maximum District contribution of $680, as that amount may be adjusted.

Members of the Board of Directors are also eligible to participate in the FSA program upon meeting the required waiting period; however, Board Members are not eligible to receive the District's employer-funded contribution. Board Members may elect to participate in the FSA solely through their own voluntary contributions.

All FSA elections and contributions are subject to applicable plan rules, IRS regulations, and annual plan limits.

S. Supplemental Benefit Plans – Aflac

Upon meeting the required waiting period, employees are eligible to enroll in voluntary supplemental insurance plans offered through Aflac. Available plans may include Critical Illness, Cancer, Accident, and Hospital Indemnity coverage. Participation in these plans is completely voluntary. Employees who elect coverage are responsible for the full cost of premiums, which will be deducted through payroll in accordance with plan guidelines.

T. Retirement Benefits and Deferred Compensation Plan

1. The District participates in the California Public Employees Retirement System (CalPERS) for Full-Time Regular and eligible Part-Time Regular Employees.

    a. For Full-Time Regular Employees hired prior to January 1, 2013, the District currently pays 100% of the contributions (both employer and employee contributions required under the plan). The District's contract with CalPERS provides employees with a 2% at age 60-retirement benefit.

    b. For Full-Time Regular Employees hired after January 1, 2013, the District's contract with CalPERS provides employees with a 2% at age 62 benefit formula with an early retirement age of 52 and a maximum benefit factor of 2.5% at age 67. Said Full-Time Regular Employees hired after January 1, 2013, shall pay 50% of the total normal cost of their pension benefit. A Full-Time Regular Employee hired after January 1, 2013, that established a CalPERS membership at his or her

previous employer within six months prior to beginning employment at the District, will qualify for the 2% at 60 formula as provided to Full-Time Regular Employees hired before January 1, 2013, as set forth in Section VII(R)(1)(a).

c. A Part-Time Regular Employee who works over 1,000 hours within a fiscal year, July 1st – June 30th, is entitled to retirement benefits with CalPERS. Said benefit shall be effective upon the first day of the first pay period of the following month after which the Part-Time Regular Employee completes 1,000 hours of employment with the District or when it has been predetermined that said employee will be scheduled to work over the 1000-hour limit for part-time employees. For Part-Time Regular Employees hired after January 1, 2013, that are eligible for CalPERS as set forth herein, the benefit is the same as for full-time regular employees as set forth in Section VII(R)(b), above.

d. The District's retirement benefits plan may be obtained from the Office Administrator for inspection at the District office during regular business hours.

2. The District also offers an employee funded Deferred Compensation Plan for all employees. Said plan may be obtained from the Office Administrator for inspection at the District office during regular business hours.

3. The Board of Directors reserves the right to amend the retirement benefits and deferred compensation plans at any time.

U. Retiree Health, Dental and Vision Benefits

1. The following individuals shall qualify for post-retirement medical, dental and vision insurance benefits:

a. Retired Directors elected to office prior to January 1, 1995, who served on the Board of Directors for at least twelve (12) years prior to retirement, pursuant to Government Code Section 53201;

b. Full-Time Regular Employees that were employed by the District prior to November 1, 2011, who, at the time of retirement, had been continuously employed by the District for a minimum period of ten (10) years and have attained a minimum age of fifty (50) years; provided that the General Manager shall have discretion as to the granting of post-retirement medical, dental and vision insurance benefits to any current Full-Time Regular Employee who previously worked as a Part-Time Regular Employee and subsequently converted to a Full-Time Regular Employee and meets the requirements of this subdivision. In that situation, the General Manager may determine that the post-retirement benefits be provided only to the employee and not to the employee's spouse and dependents; and

c. Full-Time Regular Employees employed by the District after November 1, 2011, who, at the time of retirement, had been continuously employed by the District for a minimum continuous period of twenty (20) years and have attained a minimum age of fifty-five (55) years; provided that the General Manager shall have discretion as to the granting of post-retirement medical, dental and vision insurance benefits to any current Full-Time Regular Employee who previously

worked as a Part-Time Regular Employee and subsequently converted to a Full-Time Regular Employee and meets the requirements of this subdivision. In that situation, the General Manager may determine that the post-retirement benefits be provided only to the employee and not to the employee's spouse and dependents.

Additionally, any Retiree who is eligible for post-retirement medical, dental and vision benefits shall be covered 100% by the District. Retirees at age 65 must enroll in Medicare Parts A & B to continue health coverage through ACWA JPIA.

2. The District provides medical, dental and vision insurance benefits for the spouses of eligible retired Directors and Employees (hereinafter referred to as the "Retiree") as follows:

   a. For the spouse of Retirees under Sections VII(S)(1)(a) and VII(S)(1)(b), above, such benefits will be provided for the remainder of the spouse's life, provided the spouse is married to the Retiree at the time of his or her retirement from the District and enrolled in the health coverage(s). Benefits shall be provided to the spouse as long as said spouse remains married to the Retiree until the Retiree's death. Should the spouse remarry or disenroll from the health coverage(s) thereafter, such benefits shall permanently cease.

   b. For the spouse of a Retiree under Section VII(S)(1)(c), above, the District shall make available, at the Retiree's expense, medical insurance benefits for the spouse of the Retiree, provided the spouse is married to the Retiree at the time of his or her retirement from the District and enrolled in the health coverage(s). Benefits shall be provided to the spouse as long as said spouse remains married to the Retiree until the Retiree's death. Should the spouse remarry or disenroll from the health coverage(s) thereafter, such benefits shall permanently cease. Any payments for coverage not provided to the District on the premium due date set forth by the insurance provider is subject to cancellation.

3. The District shall make available to Retirees under Section VII(S)(1), above, medical insurance benefits for the children of Retirees at the Retiree's expense, provided that said child(ren) are enrolled in the health coverage(s) at the time of the Retiree's retirement. The eligibility of coverage for such children shall be determined by the insurance provider. If payment for said coverage is not provided to the District on the due date set forth by the insurance provider, said coverage is subject to cancellation.

4. The term "retirement", as used in this section, shall include resignation, death, or termination due to disability, of an employee who otherwise meets the qualifications for post-retirement benefits.

5. Retirees are eligible for Open Enrollment each year.

6. The Board of Directors reserves the right and retains sole discretion to substitute other comparable major medical, vision and dental coverage for the coverage then provided under this Section VII(S).

V. Use of Vehicles

1. Employees who are required to operate a District or personal vehicle to conduct District business, must possess a valid California Driver's License issued by the California Department of Motor Vehicles. These employees must, at all times, observe and abide by all state and local traffic laws. Any employee operating a District or personal vehicle, who has his or her driver's license suspended or revoked or is refused insurance coverage by the District's insurance carrier, is subject to having his or her employment terminated by the District.

2. The District has established and maintains a Driving Record Review Program. As part of this program, it has enrolled in the Department of Motor Vehicles (DMV) Employer Pull Notice Program, a free service for the District that provides driver record reports on all employees (full-time and part time).

3. District vehicles are to be garaged at the District's Hudson Avenue warehouse when not in use. These vehicles are NOT to be used for personal business or transportation of family members or friends. The General Manager may grant a temporary exception to such prohibition when the circumstances warrant. The following District employees shall be issued District vehicles for transportation to and from work as well as for other District Business:

    - On-Call employee(s), while on-call
    - Supervisor(s)
    - Superintendent(s)

W. California Family Rights Act (CFRA Leave) and Pregnancy Disability Leave (PDL)

1. Under the California Family Rights Act (CFRA), if an employee has more than 12 months of service with the District and has worked at least 1,250 hours in the preceding 12-month period, the employee may have a right to an unpaid family care or medical leave (CFRA Leave). This leave may be for up to 12 work weeks in a 12-month period for the birth, adoption, or foster care placement of the employee's child or for the employee's own serious health condition or that of the employee's child, parent, parent-in-law, spouse, registered domestic partner, siblings, grandparents, grandchild or designated person. "Designated person" means any individual related by blood to the employee or whose close association with the employee is the equivalent of a family relationship; provided that the District may limit an employee to one designated person per 12-month period.

2. Even if an employee is not eligible for CFRA leave, if the employee is disabled by pregnancy, childbirth or related medical conditions, the employee may be entitled to take a pregnancy disability leave (PDL) for up to four (4) months, depending on the period(s) of actual disability. If an employee is eligible under CFRA, the employee may be entitled to take both a PDL and a CFRA leave for the birth of the employee's child.

3. An employee that desires to utilize CFRA or PDL must submit the completed District CFRA form at least 30 days in advance of foreseeable events (such as the expected birth of a child or a planned medical treatment for the employee or of a family member). For events which are unforeseeable, the employee must, at a minimum, notify District

management verbally as soon as the employee learns of the need for the leave. Failure to comply with these notice rules is grounds for, and may result in, deferral of the requested leave until the employee complies with this notice policy.

4. The District shall also require written verification from an employee's health care provider before allowing an employee leave for pregnancy disability or the employee's own serious health condition, or written verification from the health care provider of the employee's child, parent or spouse who has a serious health condition, before allowing the employee leave to take care of that family member. When medically necessary, leave may be taken on an intermittent or reduced work schedule.

5. If an employee seeks leave for the birth, adoption or foster care placement of a child, the minimum duration of the leave is two (2) weeks, and the employee must conclude the leave within one (1) year of the birth or placement for adoption or foster care.

6. Taking CFRA leave or PDL may impact certain employee benefits and an employee's seniority date. Employee will be offered COBRA continuation coverage beginning the first of the month following the end of the statutory leave or upon termination of employment.

X. Return to Work

In an effort to minimize serious disability due to on-the-job and off-the-job injuries and illnesses and to reduce workers' compensation costs (if applicable), the District has developed a Return-to-Work program. This policy is consistent with the District's responsibilities under the Americans with Disabilities Act to provide reasonable accommodations to persons with disabilities. The Return-to-Work Policy is available for review in the office of the District's Office Administrator.

VIII. REQUEST FOR REASONABLE ACCOMMODATIONS

To comply with applicable laws ensuring equal employment opportunities to qualified individuals with a disability, the District will make reasonable accommodations for the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or an employee unless undue hardship to the District would result. Any applicant or employee who requires accommodation in order to perform the essential functions of the job should contact the District's Office Administrator to discuss the need for accommodation. The District will engage in an interactive process with the employee to identify possible accommodations, if any.

IX. NONDISCRIMINATION POLICY AND COMPLAINT PROCEDURE

A. Nondiscrimination Policy

1. The District is an equal opportunity employer and makes employment decisions on the basis of merit. Unless based upon a bona fide occupational qualification as defined by law, no personnel action (including appointment to or removal from a position in District employment) shall be based upon race (including any traits historically associated with race, including, but not limited to, hair texture and protective hairstyles, such as braids, locks and twists), creed, color, age, religion, sex, ancestry, national origin, military status, physical or mental disability, pregnancy, childbirth or related medical condition, reproductive health decisions, marital status, non-disqualifying medical condition,

sexual orientation, gender expression or identity, genetic information, military or veteran status, any combination of the foregoing characteristics, or any other consideration unlawful under federal, state or local laws; provided that an employee's own admission or acknowledgment of their own personal bias that was made in good faith as part of any bias mitigation training does not constitute a prohibited act.

2. Any technique or procedure used in recruitment or selection of employees shall be designed to measure only the job-related qualifications of applicants. No recruitment or selection technique or any other personnel action shall be used that, in the opinion of the General Manager, is not justifiably linked to successful job performance.

3. Pursuant to applicable laws ensuring equal employment opportunities to qualified individuals with a disability, the District will make reasonable accommodations for the known physical or mental disabilities of an otherwise qualified applicant for employment with the District, unless such reasonable accommodations would impose undue hardship upon the District. The accommodation process is set forth in Section VIII, above.

B. Complaint Procedure

1. In adopting its nondiscrimination policy, the District assures its employees that every reasonable step will be taken to prevent discrimination from occurring. If an employee believes that he or she has been unlawfully discriminated against, the employee is urged to immediately provide a written or oral complaint to the employee's Department Head, Office Administrator, or to the General Manager as soon as possible after the incident. Such complaint should include all the details of the incident(s), names of individuals involved, and the names of any witnesses. The District will use its best efforts to keep all information and communication regarding the discrimination confidential, but some information may need to be disclosed in connection with an investigation that will be conducted and as required by applicable law.

2. Anyone receiving a complaint of unlawful discrimination will immediately document the complaint in writing and refer the complaint to the General Manager, who will ensure that an immediate, thorough, and objective investigation of the discrimination allegation(s) is undertaken. The General Manager will inform the employee of his or her right to seek independent legal counsel and any assistance available to the employee under the District's policies. If the complaint of unlawful discrimination concerns acts by the General Manager, then the complaint is to be submitted to the President of the District's Board of Directors.

3. After the investigation is completed and findings have been made, the District will communicate the findings to the complainant, the alleged offender, and any other concerned party as determined by the General Manager. If the General Manager determines that unlawful discrimination has occurred, remedial action will be taken as warranted by the circumstances. Any employee found to be guilty of discrimination will be subject to discipline ranging from oral or written reprimand, up to, and including, termination.

4. To achieve the goals of the District's policy, it is necessary that each employee understand the importance of the policy and his or her individual responsibility to

contribute toward its maximum fulfillment. Employees are encouraged to report any and all perceived or alleged incidents of discrimination and are assured that there will not be any retaliation for having reported, in good faith, any incident of suspected discrimination.

5. This Nondiscrimination Policy and Complaint Procedure is included as part of this Manual and shall be provided to each District employee and to all new employees at the time of commencement of employment. Each existing and new employee shall acknowledge receipt of the Manual by executing the form specified in Section XII of this Manual, which form shall be retained in each employee's personnel file.

X. WORKPLACE VIOLENCE

A. The safety and security of employees and customers are very important to the District. Threats, threatening behavior, acts of violence, or any related conduct which disrupts another's work performance or ability to execute its daily business will not be tolerated. In accordance with the California Workplace Violence Prevention Act, the District has developed a workplace violence prevention plan and provides pertinent training to all employees.

B. Any person who makes threats, exhibits threatening behavior, or engages in violent acts on District's property may be immediately removed from the premises. Threats, threatening behavior, or other acts of violence off District's property, but directed at District employees or Directors or members of the public while conducting business for the District, is a violation of this policy.

C. Off-site threats include but are not limited to threats made via telephone, fax, electronic or conventional mail, threats through online social media or any other communication medium. Violations of this policy will lead to disciplinary action that may include termination.

D. Employees are responsible for notifying the General Manager or Department Head of any threats which they have witnessed, received, or have been told that another person has witnessed or received. Employees should also report any behavior they have witnessed which they regard as threatening or violent when that behavior is job related or might be carried out on District property or in connection with employment at the District.

E. Each employee who receives a protective or restraining order which lists District's premises as a protected area is required to provide the Office Manager with a copy of such order.

XI. ANTI-HARASSMENT AND COMPLAINT PROCEDURE

A. Anti-Harassment Policy

1. All employees, customers of the District, and members of the public, are to be treated with respect and dignity. The District is committed to providing an atmosphere free of all harassment, particularly harassment based on such factors as race (including any traits historically associated with race, including, but not limited to, hair texture and protective hairstyles, such as braids, locks and twists), creed, color, religion, sex, national origin or ancestry, physical or mental disability, non-disqualifying medical condition, pregnancy, childbirth or related conditions, reproductive health decisions, marital status, age, sexual orientation, gender identity or expression, or genetic information, military or veteran status, any combination of the foregoing characteristics, or other protected class or

characteristic under applicable state or federal law.

2. Workplace harassment is against the law. It is the policy of the District that workplace harassment of any co-worker, co-employee or member of the public, by any employee, contractor, vendor, or customer of the District is absolutely prohibited and will not be tolerated. Failure to abide by this policy will result in disciplinary action, up to, and including, termination.

3. Workplace harassment includes verbal, physical, and visual contact that creates an intimidating, offensive, or hostile working environment that interferes with work performance. Examples of workplace harassment include, but are not limited to, racial or sexist slurs, ethnic or sexist jokes, posting of offensive statements, offensive or insulting posters or cartoons, and unwanted touching or blocking of normal movement.

4. It is unlawful to harass a person because of that person's sex. Sexual harassment encompasses many forms of offensive behavior and includes gender-based harassment of a person of the same sex. Sexual harassment includes, but is not limited to, the making of any unwelcome advances and/or visual, verbal or physical conduct of a sexual nature, offering employment benefits in exchange for sexual favors, or threatening reprisals after a negative response to a sexual advance. Some examples of sexual harassment are: requests for sexual favors, demeaning sexual remarks, leering, making sexual gestures, displaying of sexually suggestive objects or pictures, references to anyone in terms such as "honey," making or using derogatory comments, epithets, slurs or jokes, comments about an individual's body, touching, impeding or blocking movements, or any other conduct based upon an individual's sex that creates an atmosphere or environment that interferes with that individual's job performance or is intimidating, hostile, or offensive to that individual.

5. If an employee thinks that he or she or one of his or her co-workers has been the victim of harassment, that person should tell the harasser that the behavior is unwelcome. If the harasser does not stop, then immediately report such conduct to his or other Department Head or to the General Manager. Every complaint of harassment that is reported to a Department Head or the General Manager will be taken seriously and investigated thoroughly. The District encourages employees to report harassment, as every employee's cooperation is crucial to maintaining a healthy workplace that is free from harassment. Retaliation against any employee by management or other employees for making a complaint of harassment in good faith, or participating in the investigation of any complaint, will not be tolerated. This is the firm "zero tolerance" policy of the District.

B. Complaint Procedure

1. In adopting its zero-tolerance harassment policy, the District ensures its employees that every reasonable step will be taken to prevent harassment at the workplace. If an employee believes that he or she has been unlawfully harassed, the employee is urged to immediately do the following:

    a. Make it clear to the offender that the behavior is offensive and unacceptable. If possible, confront the offender and attempt to persuade him or her to stop the behavior that is unwelcome. The offender may not realize that the advances or

behavior are unacceptable. A simple confrontation will often end the situation.

b. Don’t let confusion and self-doubt stop any person from speaking out regarding the behavior and actions of the offender.

c. Keep a record of dates, times, places, witnesses and the nature of the harassment. Such records may be very helpful if the employee finds it necessary to pursue a formal complaint.

d. Contact his or her Supervisor, Department Head or the General Manager if the employee feels that he or she has been or is being sexually harassed or is aware of or suspects the occurrence of sexual harassment, or desires counseling on coping with sexual harassment.

e. Foster confidentiality by ensuring the privacy for all parties concerned with the exception of proper notification to the General Manager, Department Heads or Supervisor.

f. Provide a written or oral complaint to the employee's Supervisor, Department Head or to the General Manager as soon as possible after the incident. If the complaint of unlawful discrimination concerns acts by the General Manager, then the complaint is to be submitted to the President of the District’s Board of Directors. Such complaint should include all details of the incident(s), names of individuals involved, and the names of any witnesses. The District will use its best efforts to keep all information and communication regarding the harassment confidential, but some information may need to be disclosed in connection with any investigation to be conducted or as required by applicable law.

2. The following procedures will be followed after an employee reports unlawful harassment:

a. Anyone receiving a complaint of unlawful harassment will immediately document the complaint in writing and refer the complaint to the General Manager, who will ensure that an immediate, thorough and objective investigation of the harassment allegation(s) is undertaken; provided that if the complaint relates to conduct by the General Manager, then the complaint will be submitted to the President of the District’s Board of Directors, who will consult with District legal counsel regarding the possible investigation of the allegation(s). The General Manager will inform the employee of his or her right to seek independent legal counsel and any assistance available to the employee under the District's policies.

b. After the investigation and findings have been concluded, the District will communicate the findings to the complainant, alleged harasser, and any other concerned party as determined by the General Manager. If it is determined that unlawful harassment has occurred, remedial action will be taken as warranted by the circumstances. Any employee found to be guilty of harassment will be subject to discipline ranging from verbal or written reprimand, up to, and including, termination.

3. To achieve the goals of the District's anti-harassment policy, it is necessary that each employee understand the importance of the policy and his or her individual responsibility

to contribute towards its maximum fulfillment. Employees are encouraged to report any and all alleged or perceived incidents of harassment and are assured that there will not be any retaliation for having reported, in good faith, any incident of suspected harassment.

4. This Anti-Harassment Policy and Complaint Procedure are included in this Manual and shall be provided to each District employee and all new employees at the time of commencement of employment. Each existing and new employee shall acknowledge receipt of the Manual by executing the form specified in Section XII of this manual and the executed form shall be retained in each employee's personnel file.

XII. EMPLOYEE ACKNOWLEDGEMENT OF RECEIPT OF EMPLOYEE POLICIES AND PROCEDURES MANUAL

Each existing District employee and all new employees are required to receive and read a copy of this Manual and any amendments thereto. Each existing employee shall, within 30 days of the adoption of this Manual, receive and sign an acknowledgement that he or she has received and read this Manual and understands its provisions, including that the employee's status is that of an "at will" employee, which acknowledgement shall be placed in the employee's personnel file. Each newly hired employee shall, at the time of commencement of employment, receive a copy of this Manual and sign such acknowledgement prior to commencement of work at the District, which acknowledgement shall be placed in the employee's personnel file.

EMPLOYEE ACKNOWLEDGEMENT OF RECEIPT OF EMPLOYEE POLICIES AND PROCEDURES MANUAL ADOPTED ON THE

9th Day of March 2026, I acknowledge that I have received, read, and understand the La Puente Valley County Water District's Employee Policies and Procedures Manual. I understand that this acknowledgement will be placed in my personnel file and that I will receive a copy of it upon request.

STAFF Report

Date: March 9, 2026

To: Honorable Board of Directors

Subject: Purchase of a 2025 CASE 580EV Electric Backhoe

Purpose: *To Purchase a 2025 CASE 580EV Electric Backhoe*

Recommendation: *Authorize the General Manger to proceed with the purchase of a CASE 580EV Electric Backhoe Loader by Sonsray Machinery utilizing funding provided through the California CORE (Clean Off-Road Equipment) Voucher Incentive Program and amend the 2026 District budget by increasing appropriations for Capital Outlay of $65,000.*

Fiscal Impact: *The 2026 District Capital Outlay Budget includes no appropriation for the purchase of a new Backhoe. The recommended action would result in an increase to the Capital Outlay Budget of $65,000.*

Previous Board Action: *In 2016, the District Board of Directors authorized the purchase of a 2017 Case 580N EP Backhoe for an amount of $98,257.*

BACKGROUND

Backhoes are one of the most critical pieces of equipment used by water utilities to maintain, repair, and construct water infrastructure. Field crews rely on backhoes for water main repairs, service line installations, meter replacements, valve repairs, hydrant installations, trenching for pipeline construction, and excavation required during emergency leak response. Most of the District's field service work involves excavation duties to repair, replace and install new water facilities. Currently, the District relies on its existing 2017 Case 580N EP Backhoe, purchased in 2016, with 2,000 hours of use.

DISCUSSION

The District applied for funding through the California CORE Voucher Incentive Program, which provides financial incentives for the purchase of zero-emission off-road construction equipment. The program is designed to accelerate the transition to clean equipment while reducing emissions in communities disproportionately impacted by air pollution.

The District was notified that it has been awarded a CORE voucher totaling $290,000 for the purchase of a qualifying electric backhoe. Because the District serves a portion of a Disadvantaged Community (DAC), the project qualifies for an additional 10% funding enhancement, further increasing the total incentive available. The CASE 580EV Electric Backhoe Loader is one of the first commercially available fully electric backhoes and is the only Backhoe eligible for funding under the CORE program.

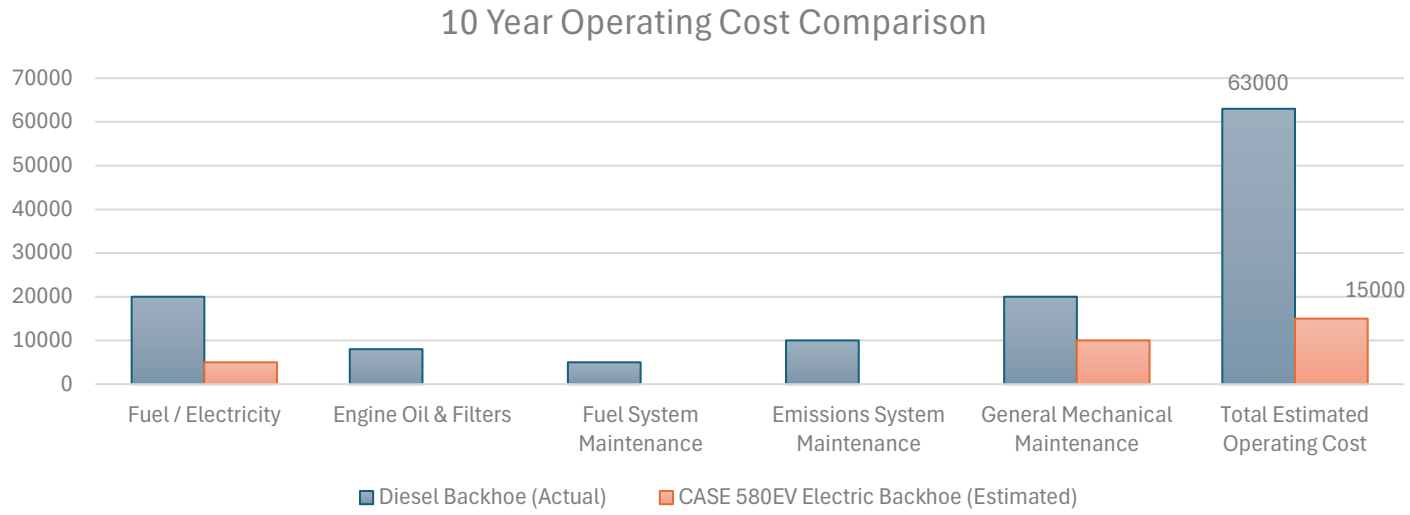

Traditional diesel backhoes typically consume between 1.5 and 3 gallons of diesel fuel per hour depending on workload. With diesel prices often ranging between $4 and $6 per gallon in California, fuel costs alone can range from $6 to $18 per operating hour. The CASE 580EV eliminates diesel consumption entirely, using electricity which is significantly less expensive on an equivalent energy basis. Additionally, the 580EV requires less maintenance than diesel equipment due to the absence of an internal combustion engine. The electric backhoe eliminates engine oil changes, emissions system maintenance, and other engine-related service needs.

SUMMARY

Owning a second backhoe provides operational redundancy. If the primary backhoe is unavailable due to maintenance or mechanical issues, crews can continue performing critical work without delay. Additionally, a second Backhoe enables the District to potentially work on in-house CIP work without compromising the availability of the primary Backhoe. This funding opportunity presents a unique chance for the District to acquire a new backhoe at a significantly reduced cost due to the substantial state incentives provided through the CORE program. The table below outlines the overall costs to acquire the new 580EV Backhoe:

Cost Table	
CASE 580EV Electric Backhoe Loader	$345,182.63
Smart-AC Level 2 L2-LI80 Charger	$3,404.70
Sales Tax & Processing	$35,412.67
California CORE Voucher Incentive	($290,000)
Disadvantaged Community (DAC) Bonus (10%)	($29,000)
TOTAL NET COST TO DISTRICT	***$65,000***

Additionally, a lifecycle cost analysis comparing a diesel-powered backhoe to the CASE 580EV electric backhoe indicates a reduction in long-term operating expenses. Over a typical 10-year service life, diesel equipment can incur substantial fuel and maintenance costs, whereas the electric backhoe primarily requires electricity for charging and reduced routine service. As a result, the 10-year lifecycle analysis demonstrates that the electric backhoe can provide meaningful cost savings as shown below:

FISCAL IMPACT

The 2026 District Capital Outlay Budget includes no appropriation for the purchase of a new Backhoe. The recommended action would result in an increase to the Capital Outlay Budget of $65,000.

RECOMMENDATION

Authorize the General Manger to proceed with the purchase of a CASE 580EV Electric Backhoe Loader by Sonsray Machinery utilizing funding provided through the California CORE (Clean Off-Road Equipment) Voucher Incentive Program and amend the 2026 District budget by increasing appropriations for Capital Outlay of $65,000.

Respectfully Submitted,

Roy Frausto

General Manager

Processing Fee	$ 495.00
CA Tire Tax	$ 7.00
Cash Due or Finance Amount	$65,000.00

1. This is a cash transaction. If the Purchaser so requests prior to acceptance, the Cash Due on Delivery may be financed as a time sale transaction, subject to credit approval. If this transaction becomes a time sale, Purchaser agrees (1) to make payments pursuant to the Sonsray Machinery Accounts Receivable System Agreement, which is incorporated into this Purchase Order by reference, and (2) that Seller retains a security interest in the goods described herein until all obligations of Purchaser are paid in full and discharged.

2. When trade-in equipment is not to be delivered to the Seller until delivery of the equipment purchased by this order, the trade-in equipment may be reappraised at that time and such reappraisal value shall determine the allowance made for such trade-in equipment. When the reappraised value is less than the original trade-in allowance shown on this form, the purchaser may terminate this order; however, this right of termination must be exercised prior to delivery of the equipment by Seller and surrender of the trade-in equipment to Seller.

3. The prices which Purchaser will pay for the new equipment set forth on the reverse side hereof shall be based upon the Case dealer price in effect on date of delivery of the new equipment. In the event Case dealer's price is changed prior to delivery, the purchase price shall be adjusted accordingly. If such price change results in an increase, purchaser has the option of canceling the order in writing immediately on being notified thereof.

4. The Seller shall be excused if delivery is delayed or rendered impossible by differences with workmen, strikes, work stoppages, car shortages, delays in transportation, inability to obtain labor or materials and also by any cause beyond the reasonable control of Seller, including but not restricted to acts of God, floods, fire, storms, acts of civil and military authorities, war and insurrections.

5. Purchaser shall keep the property free of all liens, taxes, encumbrances and seizure or levy, shall not use same illegally, shall not damage, abuse, misuse, abandon or lose said property, shall not part with possession thereof, whether voluntarily or involuntarily or transfer any interest therein or remove same out of the county or filing district in which Purchaser resides as indicated herein without the prior written consent of Seller, shall keep said property insured in such amounts and with such insurer as may be acceptable to Seller with any loss payable to Seller as his interest in the property may appear.

6. Time is of the essence of this contract and if purchaser fails to comply with any of the terms and conditions hereof or defaults in the payment of any installment hereunder or under any renewal or renewals hereof, or in the payment of interest or defaults in the payment of any installment due under any other indebtedness of contract held by the Seller or Assignee, or if proceedings are instituted against Purchaser under any bankruptcy or insolvency law or Purchaser makes an assignment for the benefit of creditors or if for any reason the Seller deems himself insecure and so declares all payments heretofore made by Purchaser shall be retained by the seller and all indebtedness hereunder shall become immediately due and payable, with or without notice, together with all expenses of collection by suit or otherwise, including reasonable attorney fees and Seller may, without notice or demand, take possession of the equipment set forth on the reverse hereof, or any additions to, replacements of, or any proceeds from said equipment or may render the property unusable or Seller may require Purchaser to assemble the property and make it available at a place designated by Seller. Seller may resell the retaken property at public or private Sale in accordance with the Uniform Commercial Code or applicable state or provincial law. After deducting reasonable expenses for retaking, repairing, holding, preparing for sale, other selling expenses including attorney fees and legal expenses, the remaining proceeds of Sale shall be credited upon the amount of indebtedness remaining unpaid hereunder, and Purchaser agrees to pay any deficiency upon demand by Seller, any surplus, however, shall be paid to Purchaser. Said retaking or repossession shall not be deemed rescission of the contract. Seller may exercise any other rights and remedies provided by applicable law.

7. No waivers or modifications hereof shall be valid unless written upon or attached to this contract. Waiver or conditions of any breach or default hereunder shall not constitute a waiver of any other or subsequent breach or default. Payments received by Seller are to be applied first to delinquent interest and then to principal.

8. The remedies provided for herein are not exclusive and any action to enforce payment shall not waive or affect any of the holder's rights to have recourse to the property. The transfer of this contract shall operate to pass a security interest in the property as security for the payment hereof.

9. Any provision of this contract prohibited by the laws of any state, the United States, any province of Canada, shall be ineffective to the extent of such prohibition without invalidating the remaining portions of the contract.

10. Each maker, endorser, guarantor and surety hereon severally waives presentment, demand protest, and notice of non-payment and all defenses of want of diligence in collection and bringing suit. This contract shall be binding upon and shall insure to the benefit of the parties hereto and their respective heirs, personal representative, successors, and signs.

11. Buyer authorizes Seller to insert the Serial and/or model numbers of the goods set forth on the reverse side hereof for the purposes of identifying said goods. The seller may correct patent errors herein.

SERVICE CAPACITIES

Hydraulic system:	
Total	27 gal (101.2 L)
Tank only with Filter	8 gal (30 L)
Transmission – total system:	
4WD Standard	19 qt (18.0 L)
Standard front axle:	
4WD Differential	8.1 qt (7.7 L)
4WD Planetaries – each	0.8 qt (.75 L)
Rear axle:	
Differential and planetaries	16.9 qt (16.0 L)
Electric Motor Cooling	5 qt (4.7 L)
Power Electronics Cooling	6 qt (5.7 L)
Cab Heater	4 qt (3.8 L)
High Voltage Battery	8 qt (7.1 L)
Window washer reservoir	3.0 qt (2.8 L)

OTHER SPECIFICATIONS

Front tires:	
4WD	12.0 L x 16.5, 12-ply rating
Rear tires:	
2/4WD	19.5 L x 24.0, 12-ply rating
Turning radius: Curb to Curb:	
4WD – engaged*:	
Brakes on	11 ft (3.36 m)
Brakes off	14 ft 2 in (4.31m)
4WD – disengaged*:	
Brakes on	11 ft (3.35 m)
Brakes off	12 ft 8 in (3.85 m)

NOTE: *Turning radius dimensions curb to curb w/ 12.0 x 16.5 front tires and 19.5 L x 24.0 rear tires.

OPERATING WEIGHT

Configuration 1 – SAE Transport:
4-IN-1 Loader Bucket, Cab w/ HVAC, 24" HD Backhoe Bucket, H Type PowerDrive Transmission, 12 x 16.5 Front Tires, 19.5 x 24 Rear Tires.

19,947 lb (9 048 kg)

LOADER BUCKET SIZES

Type	Width	Weight	Struck	Heaped Capacity
Long Lip Bucket with bolt-on cutting edge	82 in (2.08 m)	833 lb (378 kg)	0.88 yd^3 (0.67 m^3)	1.0 yd^3 (0.79 m^3)
Long Lip Bucket without bolt-on edge	93 in (2.36 m)	1,190 lb* (540 kg)	1.10 yd^3 (0.84 m^3)	1.3 yd^3 (0.99 m^3)
4 IN 1® Bucket with bolt-on edge	82 in (2.08 m)	1,508 lb* (684 kg)	0.85 yd^3 (0.65 m^3)	1.1 yd^3 (0.80 m^3)

NOTE: *Weight of 4 IN 1® bucket includes edges, cylinders and tube lines.

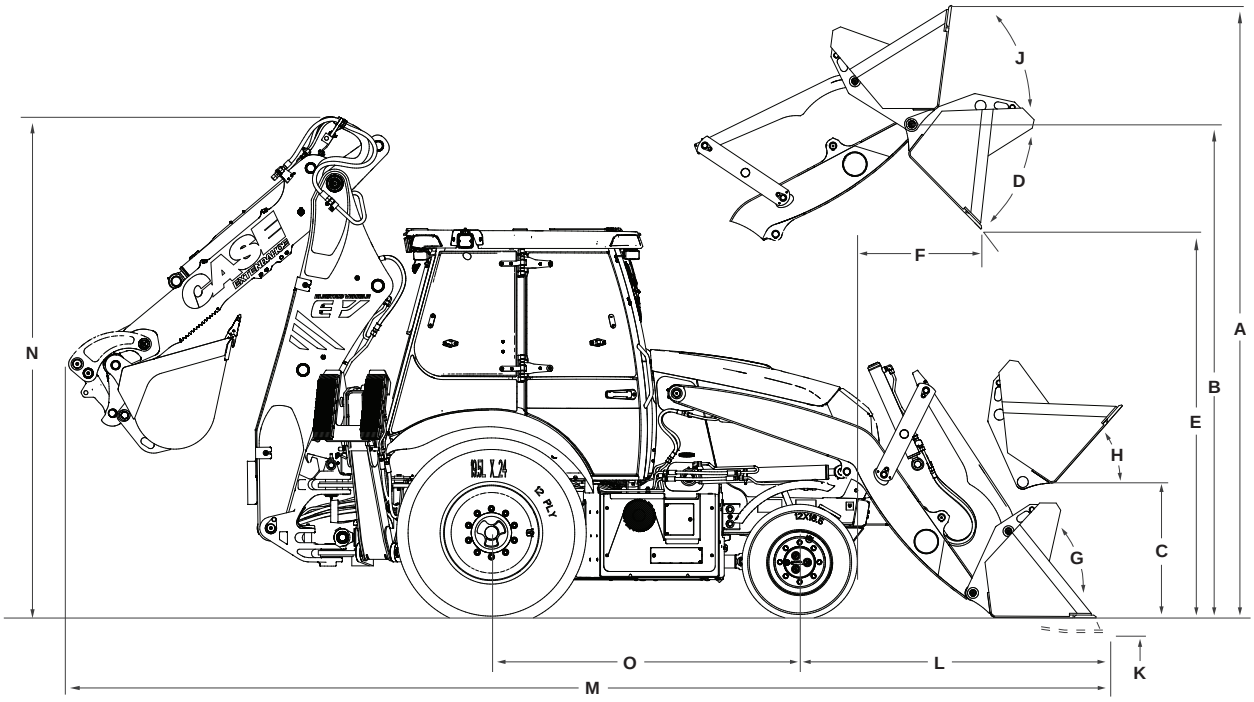

BACKHOE BUCKET SIZES

Type	Width	Weight	Heaped Capacity
Universal Buckets	12 in (305 mm)	295 lb (134 kg)	3.40 ft^3 (0.10 m^3)
	18 in (457 mm)	356 lb (162 kg)	5.30 ft^3 (0.15 m^3)
	24 in (610 mm)	427 lb (194 kg)	7.70 ft^3 (0.22 m^3)
	30 in (762 mm)	489 lb (222 kg)	10.20 ft^3 (0.29 m^3)
	36 in (914 mm)	552 lb (251 kg)	12.70 ft^3 (0.36 m^3)
High Capacity Buckets	24 in (610 mm)	447 lb (203 kg)	8.50 ft^3 (0.24 m^3)
	30 in (762 mm)	502 lb (228 kg)	10.60 ft^3 (0.30 m^3)

BACKHOE OPERATIONAL DATA

	Extendahoe®

NOTE: Boom and Dipper Lift Capacities are rated per SAE J31 and are 87% of the maximum hydraulic lift force available with the specified options.

AXLE RATINGS

	Rear	Front – 4WD
Maximum static	90,145 lb (40 889 kg)	64,613 lb (29 308 kg)
Dynamic operating	56,200 lb (25 492 kg)	39,328 lb (17 839 kg)
Static operating	22,480 lb (10 197 kg)	15,732 lb (7 136 kg)
Oscillation – front axle	—	22° total – 11° side to side

STANDARD EQUIPMENT

OPERATOR ENVIRONMENT

Speed selectable Auto Ride Control

Comfort Steering with two speed steering pump and 3rd/4th gear cutout

DRIVETRAIN

H-Type PowerDrive Transmission

Front axle:
- 4WD front axle with 12.0 L x 16.5 tires

Rear axle:
- 4WD heavy-duty outboard planetary drive, with 19.5 L x 24.0 tires

Torque converter – 11.8 in (300 mm)

On-the-go electric 4WD control

Electric F/R shuttle control

Electric differential lock control, push-button

Park brake, spring-applied, hydraulic release – SAHR

Remote mounted transmission filter for easier access

HYDRAULICS

Hydraulic pressure diagnostics viewable on display screen

Biodegradable Hydraulic Oil

In-cab electronic flow settings for aux hyd flow (loader and backhoe)

Heavy-duty hydraulic oil cooler

In-tank hydraulic filter

LOADER

Bucket position indicator; Lifting lugs and tie downs on standard bucket; Single lever control

Loader performance features:
- Parallel Lift
- Anti-Rollback
- Return to Dig
- Float
- Return to Height
- Height Limit
- Software Cushions
- Bucket Shake

Auxiliary hydraulics for loader-mounted equipment with thumb-operated proportional control

BACKHOE

Over center design, Fabricated over-lapping cylinder boom; Pro Control System; Extendahoe integrated serrated gripper teeth

Flip Over Stabilizer Pads Combo

1-way/2-way Auxiliary backhoe hydraulics for hammers, plate compactors or similar 1-way flow attachments or switch to 2-way flow for thumbs, augers or similar 2-way flow attachments

Extendahoe®

PowerLift

PowerBoost

Electro-Hydraulic operated control system:
- Fingertip proportional Electro-Hydraulic stabilizer controls
- Thumb-operated proportional Electro-Hydraulic Extendahoe® control
- Thumb-operated horn button
- Thumb-operated auxiliary hydraulic control
- Infinitely adjustable towers
- In-cab switchable “excavator to backhoe” control pattern change

Hydraulic bucket quick coupler

OTHER

Forward tilt hood

Molded front bumpers

Front/Rear tie downs

Reflective logos

Signal Lights:
- 2 rear tail/stop
- 2 front flashers/turn
- 2 rear flashers/turn

Working/Driving Lights: Adjustable LED lights:
- 4 front
- 2 side – one left, one right
- 4 rear

4-corner multi-colored/pattern LED strobe lights

Master disconnect switch and remote jump-start terminals

Hydrostatic steering

Backup alarm

Tool box

Front Fenders

TELEMATICS

CASE SiteWatch™ Telematics – includes hardware and a 5-yr Advanced data subscription for 2-way communication

WARRANTY

1-Year/Unlimited-Hour Full-Coverage Base Limited Warranty

2-Year/2,000-Hour Extended Drivetrain Warranty

3-Year/3,000-Hour Battery and EV Components Warranty (includes electric powertrain system components - battery, motors, inverters, etc.)

3-Year/3,000-Hour EV Care Maintenance Program

OPTIONAL EQUIPMENT

LOADER

Hydraulic front quick coupler

Tool portfolio of additional attachments

Buckets – see page 2

BACKHOE

Bolt-on hardened gripper teeth

Buckets – see page 2

Hydraulic thumb – Includes: 2 replaceable, high strength, bolt on tines with two positions for Universal or Hi-Cap buckets – meshes with Bucket teeth on 18 in & 24 in Buckets

OTHER

Severe Cold Weather Operation
- Includes synthetic transmission oil and backhoe hoses rated for severe cold weather

Special paint

Memo

To: Honorable Board of Directors
Date: March 9, 2026
From: Cesar A. Ortiz, Operations & Treatment Superintendent
Subject: Monthly Operations & Treatment Superintendent Report

The following report summarizes LPVCWD, IPU Waterworks System, BPOU and PVOU-IZ & SZ treatment operations, water quality, compliance, production, and consumption, and includes the status of various projects for each system.

WATER QUALITY / COMPLIANCE

- **Distribution System Monitoring** – District Staff collected all required water quality samples for the month from both distribution systems, **32** samples from **LPVCWD** & **26** samples from **CIWS**. All results met State and Federal drinking water quality regulations.
- **Treatment Monitoring & Compliance** – All water quality compliance samples were collected from all the treatment processes and plant effluent, as required. Approximately **174** samples were collected for **BPOU**, **3** samples for **PVOU-IZ**, and **3** samples for **PVOU-SZ**.
- **Source Monitoring** – All water quality samples were collected from all the Wells, as required. Approximately **33** samples were collected.
- The table below summarizes **LPVCWD Wells'** current water quality for contaminants of concern.

Well Sampled	CTC	PCE	TCE	Perchlorate	1,4-Dioxane	NDMA	Nitrate
	MC L= 6 ppb	MCL = 5 ppb	MCL = 5 ppb	MCL=6 ppb	NL = 1 ppb	NL= 10 ppt	MCL=10 ppm
LPVCWD 2	0.7	0.8	13	13	0.32	9.9	6.5
LPVCWD 3	ND	ND	1.5	9.9	ND	ND	9.3
LPVCWD 5	ND	ND	2.0	10	0.09	ND	8.9

NOTE* - LAB RESULTS WERE NOT COMPLETED BY THE COMPLETION OF THIS REPORT, REULTS ARE FROM JANUARY
ND – None Detected
NS – Not Sampled
NR – No Results available as of report date

- The Monthly Nitrate Concentrations for SP-6 and SP-15 are provided as ***Attachment 1***.

112 N. 1st Street, La Puente, California 91744
(626) 330-2126
lapuentewater.com

WELL PRODUCTION AND LEVELS

- Production by Wells and total acre feet for LPVCWD and CIWS are as shown in the table below.

LPVCWD - BPOU Wells	Well 2	Well 3	Well 5	Total Acre Feet Produced
Acre Feet Produced	118.75	0.77 AF	161.76	**281.28 AF**

CIWS Wells	CIWS Well 5 to SGVWC	SGVWC to CIWS at Lomitas
Acre Feet Produced	0.00 AF	**64.50 AF**

**COI Well No. 5 is out of service*

Suburban Water System	**190.83 AF**	Total Acre Feet Delivered to

OPERATIONAL UPDATES / PROJECTS & MAINTENANCE ACTIVITIES

1) **Baldwin Park Operable Unit - Treatment Plant**

- **Plant Operations** –
  - The treatment plant is in normal operation at 2500 gpm with Well No. 2 & Well No. 5 online and Well No. 3 being only run monthly for sampling purposes.
- **Project / Maintenance Items –**
  - There are some ongoing maintenance and upgrade projects on the Nitrate system (modifications for optimization) and the SPIX Pre-Filter Vessels (filters have been ordered and are in production), and all are being addressed by staff or contractors.
  - Staff have performed various weekly chemical calibrations, monthly analyzer cleanings and calibrations, SPIX pre-filter change-outs, daily treatment plant rounds and monthly reporting.

2) **Puente Valley Operable Unit – Intermediate Zone Treatment Plant**

- **Plant Operations** –
  - The IZ Plant is on standby (pending NG approval/direction) to begin normal operations awaiting SWRCB-DDW permit approval, operating at a flow of approximately 600 gpm and rotating equipment during operations.
  - NOTE* on January 30th, 2026, NG rep requested the PVOU IZ Plant be shut down due to a J-flag notification of TPH in one of the sample results – no new update on plant operations.

- Staff conducted only the required sampling plan during the month of February 2026 for compliance, as needed.
- When the IZ plant goes back to normal operation, the IZ plant will run for 20 days at a time, and it is then shut down for 24 hours and then restarted, per the NPDES requirements, until approval is received from SWRCB-DDW.

- **Maintenance Items –**
  - Analyzer replacements project is being implemented, beginning with the pre-RO analyzer panel, parts and supplies are being received and prepared for installation.
  - Ongoing maintenance on analyzers and a small list of other outstanding items for repair or replacement.

3) **Puente Valley Operable Unit – Shallow Zone Treatment Plant**
   - **Plant Operations –**
     - Under the direction of Northrup Grumman rep, LP staff is continuing to run the SZ plant when possible and operate at 85-125 gpm with discharge to LACSD and as wastewater tank levels permit, the tank is used in conjunction with the IZ plant as well, operations vary daily depending on tank levels.
     - NOTE: On January 29th, 2026, a leak was found on one of the process lines, a stainless-steel repair clamp was placed over the leak as a temporary repair.
     - LP staff have, under the direction of NG, acquired proposals and quotes for LGAC change outs and those change out have been completed.
     - LP staff has, under the direction of NG, acquired proposals and quotes for RO membrane replacements and RO membrane autopsies, the replacement membranes are on hand, waiting for scheduling based on piping repair direction.
   - **Maintenance Items –**
     - Staff conduct plant and sampling ports prep, general plant maintenance, preventative maintenance, corrective maintenance, order chemicals, and housekeeping.

4) **City of Industry Waterworks System – Industry Public Utilities - Distribution Sites**
   - LP staff are currently working with the City of Industry's engineering firm CNC, to replace the building structure at the Proctor Yard location.
   - City of Industry's Well No. 5 rehab work began with brush and bail in late January. Next step was a re-video of the well and it was determined that plugging/fouling of the perforations was present and chemical treatment is needed to further enhance the Well's performance. This is tentatively scheduled to begin the week of March 16th, 2026.
   - Staff have procured a contractor to pull for inspection and repairs recommendations of the pumps, pump heads, and motors at pump stations 1 & 2 on Industry Hills.

General Manager's Report

Date: March 9, 2026

To: Honorable Board of Directors

From: Roy Frausto, General Manager

RE: General Manager's Report

GENERAL MANAGER REPORT TOPICS

- PVOU Permit Amendment – Public hearing date is being pushed to Q2 or Q3 depending on further investigations regarding TPH.
- PVOU TPH – Ongoing investigation of TPH detections at the PVOU-IZ and SZ systems. Currently working on understanding the efficacy of LGAC on TPH. Stantec is taking the lead on working towards understanding and resolving the TPH issue for both the IZ and SZ.
- Golden Mussel – Treatment Plan in place.
- PVOU IZ Operations Update – Currently shut down.
- District Office – Staff is working with City Staff.
- BPOU Agreement – Staff and legal counsel will provide an update during closed session.
- UV System Replacement – Draft feasibility study complete. Currently responding to questions received from the CRs.
- Salt Lake Project – Project is expected to start the week March 16.
- Pencin Pump Station Removal Project – A pre-construction meeting was held on March 4 to discuss as start date and the overall scope of work.
- CIWS Well No. 5 – Chemical treatment and dual swab air lifting efforts scheduled to start week of March 16.
- Main St. 1.8 MG Reservoir – Staff is in the process of procuring 3 proposals for the design.

STAFFING

- *Jordan Navarro, 5 Years of Service*
- *Daney Casas, 2 Years of Service*

GENERAL MANAGER ACTIVITIES

February 2026

Meetings/Activity	Date
Management Weekly Meeting	February 2, 9, 17, 23
PWAG AWWA WCW 2026 Strategy Call	February 2
Performance Evaluation Review	February 2
Operation Incidents Meeting	February 3, 17
Captain IT/Stantec Cybersecurity Upgrades	February 3
Golf Tournament Discussion	February 3
PVOU Installment Request	February 3
NG/LPVCWD Bi-Weekly Meetings	February 3, 17
Watermaster Board Meeting	February 4
Captain IT/Stantec – Cybersecurity Upgrades	February 5
PWAG Executive Committee Meeting	February 5
Golden Mussel Impacts	February 6
CA-NV AWWA YP Committee Monthly Meeting	February 9
PWAG Board of Directors Meeting	February 10
Employee Evaluation	February 10
Producer Meeting	February 11
Watermaster Basin Management Meeting	February 11
IPUC Meeting	February 12
La Puente SOP Development Project – Site Visit Memo	February 12
PVOU IZ Update	February 12
LPVCWD Onsite Retrofit Program	February 17
IT Management Meeting	February 18
BPOU WE Prep Meeting	February 18
IPU Water Ops Meeting	February 19
PWAG AWIA ERP Update	February 19
PWAG Board Call	February 20
Ferrero/Bamboo PRV Projects Follow-Up	February 23
BPOU Negotiations Meeting	February 24
DHS CISA VADR	February 25
PWAG Quarterly Membership Meeting	February 25
SCWUA Board Meeting + Luncheon	February 26

- Non-Functional Turf Ordinance
- Customer Service Corner
- Recycled Water Program

La Puente Valley County Water District

112 N. 1st Street, La Puente, California | (626) 330-2126 | lapuentewater.com

@lapuentewater

Investing in Infrastructure

Miles of waterlines quietly deliver safe, clean water to homes and businesses across the community. Over time, these underground pipelines age and break down—just like roads and driveways.

Replacing older waterlines ensures reliable service, reduces leaks and keeps water flowing.

Did You Know?

Improved Reliability
New waterlines mean fewer breaks and service interruptions.

Reduced Water Loss
Pipeline replacement helps prevent leaks and conserves water.

Stronger Infrastructure
Modern materials are built to last and handle today's demands.

Sustainable Future
Efficient systems use less energy and waste fewer resources.

Waterline replacement takes planning, preparation, communication and time.

Waterline Replacement Process

Planning & Design
Engineers assess pipeline age, materials, and failure history to prioritize replacement.

Community Notification
Project details and schedules are shared with the community.

Construction Preparation
Underground utilities are marked, equipment is delivered, and roadway safety measures are implemented.

New Pipe Installation
New pipelines are carefully installed and connected.

Testing and Flushing
New waterlines are pressure-tested and flushed to ensure clean and safe delivery before use.

Restoration and Cleanup
Streets, sidewalks and landscaping are restored.

Main Street Reservoir Rehabilitation

Relining and recoating the District's reservoir is a critical preventative maintenance activity that protects water quality, preserves the structural integrity of the facility, and extends the useful life of the asset.

Over time, protective linings and coatings deteriorate due to constant exposure to water, disinfectants, and environmental conditions. If left unaddressed, this deterioration can lead to corrosion, concrete degradation, water quality issues, and increased risk of leaks. Proactively recoating the reservoir helps ensure continued regulatory compliance, reduces long-term maintenance costs, and supports the District's commitment to providing safe, reliable drinking water to the community.

Improves Water Quality

Extends Service Life

Ensures Operational Reliability

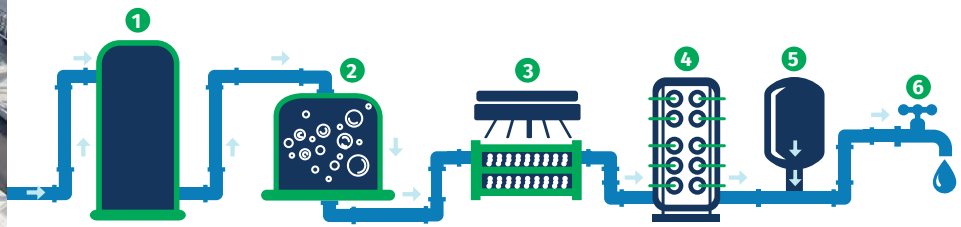

Regular maintenance minimizes future repairs and keeps the reservoir functioning as intended.

Project Update

The Puente Valley Operable Unit Intermediate Zone (PVOU-IZ) Water Treatment Facility is currently in the final permitting steps before it begins operating. Once online, the facility will treat groundwater so it can be safely delivered to customers while also helping to clean and restore the local aquifer. It is an important step toward ensuring a safe, reliable, and sustainable water supply for years to come.

1. *Granular Activated Carbon Vessels for VOC Treatment*
2. *Single Pass Ion Exchange System for Perchlorate Treatment*
3. *Ultraviolet (UV) Reactors to Treat NDMA and 1,4-Dioxane*
4. *Reverse Osmosis to treat TDS and Inorganics*
5. *Chlorination for Disinfection*
6. *Deliver to Your Home*

Non-Functional Turf Ordinance

The State of California has adopted a Non-Functional Turf ordinance that prohibits the use of potable water to irrigate decorative, non-recreational turf at commercial, industrial, and institutional properties. This legislation, established under AB 1572, took effect in January 2024 and requires full compliance by January 1, 2027. The intent of the ordinance is to reduce unnecessary outdoor water use and promote the conversion of ornamental turf to climate-appropriate, water-efficient landscaping. Water agencies are responsible for conducting outreach, supporting conversions, and ensuring customers are informed of the upcoming requirements.

La Puente Valley County Water District's Board of Directors Adopted the Ordinance on November 24, 2025.

Decorative turf can waste thousands of gallons of water without offering value to the community. **Removing non-functional turf is a simple way to meet the new requirements and save water.**

Non-functional turf is grass areas that serve no recreational or community purpose.

Customer Service Corner

Learn How Paperless Billing and Autopay Can Provide a More Convenient Water Bill Experience

Answering questions, sharing helpful tips, and keeping customers informed is essential to the services that support your water experience.

Go Paperless With Us

We're excited to share that we are moving toward offering Paperless Billing as a more convenient option for our customers. While bills are currently sent by both mail and email, we encourage you to take advantage of email delivery whenever possible.

Receiving your bill by email is fast, secure, and convenient. You'll be able to view it as soon as it becomes available while helping us reduce paper use over time.

Benefits of Email Billing

- **Faster Delivery**
- **Secure Access to Statements**
- **Reduce Paper Waste**
- **Less Clutter**

If you would like to receive your bill by email, please contact our office and our staff will be happy to assist you.

Make Life Easier with AutoPay

Our AutoPay Program is a simple way to avoid late fees and keep your account current. We bill every two months and AutoPay is deducted on or around the 15th of your billing cycle. Your payment is automatically processed from your preferred bank account or credit card.

Why Customers Choose AutoPay

- **Automatic Payment**
- **Multiple Payment Options**
- **Securely Processed Data**
- **On-Time Bill Pay**

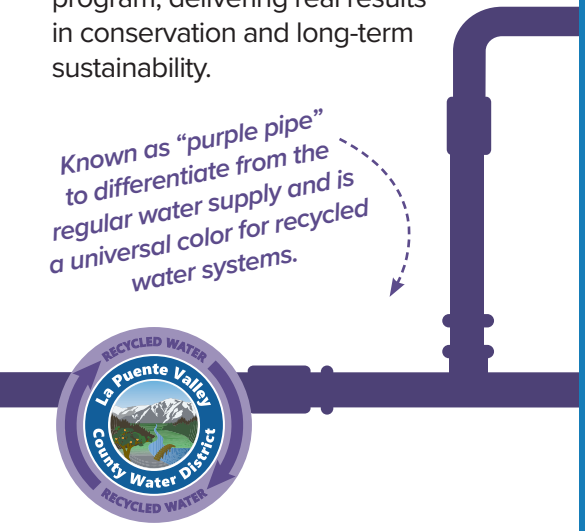

Enrollment is available online or through Customer Service.

(626) 330-2126 lapuentewater.com

Recycled Water Program: Making Every Drop Count

The District continues to expand its recycled water program, delivering real results in conservation and long-term sustainability.

Known as "purple pipe" to differentiate from the regular water supply and is a universal color for recycled water systems.

4,093,834
Gallons of Water Conserved

Enough to Supply:
125–140 **Households for One Year**

2x **More Water Savings Planned for 2026**

New California Requirements

For Single Check Backflow Devices

Beginning July 1, 2024, California adopted a new safety policy to better protect public drinking water. Under this updated policy, single check valves — older devices designed to help prevent contaminated water from flowing back into the clean water supply — are no longer considered strong enough when a cross-connection risk is present. **As a result, customers with these devices may be required to upgrade to an approved backflow prevention assembly that provides a higher level of protection.**

These improvements are part of a statewide effort to strengthen drinking water protection and ensure consistent safety standards for all communities.

The District will evaluate customer service connections to confirm that the appropriate safeguards are in place based on the level of potential hazard. In most cases, this means replacing single check devices with:

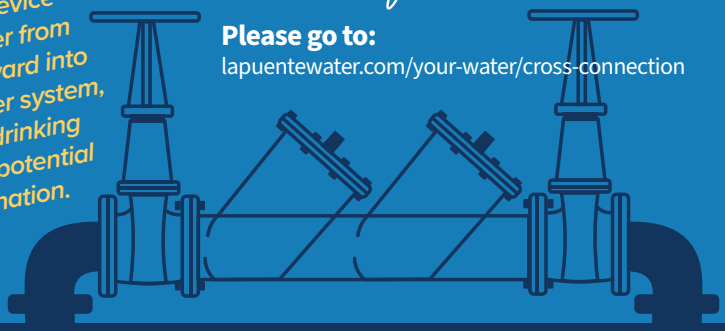

- **Double Check Valve Assembly (DC)**
- **Reduced Pressure Principle Assembly (RP)**
- **Approved Air Gap** *(Depending on Site Conditions)*

Once upgraded, all backflow prevention assemblies must be tested annually by a certified tester and properly maintained.

A backflow device prevents water from flowing backward into the public water system, protecting drinking water from potential contamination.

Disponible En Español

Invertir en Infraestructura

Millas de tuberías de agua entregan silenciosamente agua limpia y segura a los hogares y negocios de toda la comunidad. Con el tiempo, estas tuberías subterráneas envejecen y se deterioran, igual que las carreteras y las entradas de autos.

Reemplazar las tuberías de agua más antiguas garantiza un servicio confiable, reduce las fugas y mantiene el agua fluyendo.

¿Sabías?

Mayor Confiabilidad
Las nuevas tuberías significan menos rupturas y menos interrupciones del servicio.

Reducción de la Pérdida de Agua
La sustitución de tuberías ayuda a prevenir fugas y a conservar agua.

Infraestructura Más Resistente
Los materiales modernos están diseñados para durar y soportar las demandas actuales.

Un Futuro Sostenible
Los sistemas eficientes usan menos energía y desperdician menos recursos.

La sustitución de tuberías de agua requiere planificación, preparación, comunicación y tiempo.

Proceso de Sustitución de Líneas de Agua

Planificación y Diseño
Los ingenieros evalúan la edad de las tuberías, los materiales y el historial de fallas para priorizar su reemplazo.

Notificación a la Comunidad
Los detalles del proyecto y los calendarios se comparten con la comunidad.

Preparación de la Construcción
Se marcan los servicios públicos subterráneos, se entrega el equipo y se implementan las medidas de seguridad en la vía.

Instalación de Nuevas Tubería
Se instalan y se conectan cuidadosamente las nuevas tuberías.

Pruebas y Enjuague
Las nuevas tuberías de agua se someten a pruebas de presión y se enjuagan para garantizar un suministro limpio y seguro antes de su uso.

Restauración y Limpieza
Se restauran las calles, las banquetas y el paisaje.

Rehabilitación del Embalse de Main Street

El revestimiento interior y la reaplicación del recubrimiento del embalse del Distrito son actividades fundamentales de mantenimiento preventivo que protegen la calidad del agua, preservan la integridad estructural de la instalación y prolongan la vida útil del activo.

Con el tiempo, los revestimientos y recubrimientos protectores se deterioran debido a la exposición constante al agua, a los desinfectantes y a las condiciones ambientales. Si no se atiende, este deterioro puede provocar corrosión, degradación del concreto, problemas en la calidad del agua y un mayor riesgo de fugas. La reaplicación proactiva del recubrimiento del embalse ayuda a garantizar el cumplimiento continuo de las normativas, reduce los costos de mantenimiento a largo plazo y respalda el compromiso del Distrito de proporcionar agua potable segura y confiable a la comunidad.

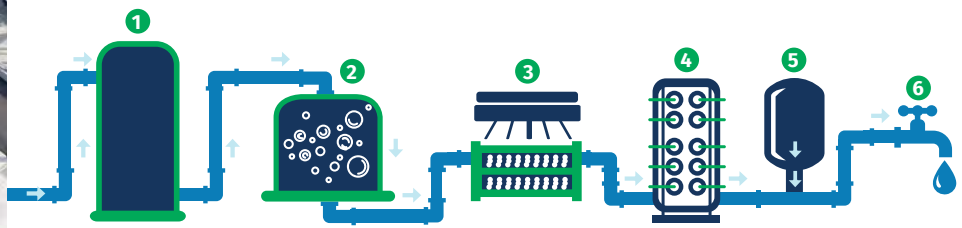

El mantenimiento regular minimiza las reparaciones futuras y mantiene el embalse funcionando según lo previsto.

- **Mejora la Calidad del Agua**
- **Extiende la Vida útil**
- **Garantiza la Confiabilidad Operativa**

Actualización del Proyecto

La Planta de Tratamiento de Agua de la Zona Intermedia de la Unidad Operable de Puente Valley (PVOU-IZ) se encuentra actualmente en las etapas finales de permisos antes de comenzar a operar. Una vez que entre en funcionamiento, la instalación tratará el agua subterránea para que pueda ser suministrada de manera segura a los clientes, al mismo tiempo que ayudará a limpiar y restaurar el acuífero local. Es un paso importante para garantizar un suministro de agua seguro, confiable y sostenible en los años venidero.

1. *Recipientes de carbón activado granular para COV*
2. *Sistema de intercambio iónico de un solo paso para el tratamiento de perclorato*
3. *Reactores ultravioleta (UV) para el tratamiento de NDMA y 1,4-dioxano*
4. *Ósmosis inversa para tratar TDS e inorgánicos*
5. *Cloración para desinfección*
6. *Entrega a domicilio*

Ordenanza sobre Césped No Funcional

El Estado de California ha adoptado una ordenanza sobre césped no funcional que prohíbe el uso de agua potable para regar césped decorativo y no recreativo en propiedades comerciales, industriales e institucionales. Esta legislación, establecida bajo la AB 1572, entró en vigor en enero de 2024 y requiere cumplimiento total para el 1 de enero de 2027. El objetivo de la ordenanza es reducir el uso innecesario de agua al aire libre y promover la conversión de césped ornamental a paisajes adecuados al clima y eficientes en el uso del agua. Las agencias de agua son responsables de llevar a cabo campañas de información, apoyar las conversiones y asegurar que los clientes estén informados sobre los requisitos próximos.

La Junta Directiva del Distrito de Agua del Condado de La Puente Valley adoptó la ordenanza el 24 de noviembre de 2025.

El césped decorativo puede desperdiciar miles de galones de agua sin aportar valor a la comunidad. **Eliminar el césped no funcional es una manera sencilla de cumplir con los nuevos requisitos y ahorrar agua.**

El césped no funcional son áreas de pasto que no cumplen ninguna función recreativa ni comunitaria.

Rincón de Atención al Cliente

Descubre cómo la facturación electrónica y el pago automático pueden ofrecerte una experiencia más cómoda con tu factura de agua.

Responder preguntas, compartir consejos útiles y mantener informados a los clientes es esencial para los servicios que respaldan tu experiencia con el agua.

Pásate a la Facturación Electrónica con Nosotros

¡Nos entusiasma compartir que estamos avanzando hacia la opción de Facturación Electrónica para ofrecer una alternativa más conveniente a nuestros clientes! Actualmente, las facturas se envían tanto por correo postal como por correo electrónico, pero te animamos a aprovechar la entrega por email siempre que sea posible.

Recibir tu factura por correo electrónico es rápido, seguro y práctico. Podrás verla tan pronto como esté disponible, al mismo tiempo que nos ayudas a reducir el uso de papel con el tiempo.

Beneficios de la Facturación por Correo Electrónico

- **Entrega Más Rápida**
- **Acceso Seguro a los Extractos**
- **Reducir el Desperdicio de Papel**
- **Menos Desorden**

Si deseas recibir tu factura por correo electrónico, comunícate con nuestra oficina y nuestro personal con gusto te ayudará.

Haz tu Vida Más Fácil con Pago Automático

Nuestro programa de Pago Automático es una forma sencilla de evitar cargos por pago atrasado y mantener tu cuenta al día. Facturamos cada dos meses y el Pago Automático se realiza aproximadamente el día 15 de tu ciclo de facturación. Tu pago se procesa automáticamente desde tu cuenta bancaria o tarjeta de crédito preferida.

Por Qué los Clientes Eligen el Pago Automático

- **Pago Automático**
- **Múltiples Opciones de Pago**
- **Datos Procesados de Forma Segura**
- **Pago de Facturas a Tiempo**

La inscripción está disponible en línea o a través del Servicio al Cliente.

Programa de Agua Reciclada: Haciendo que Cada Gota Cuente

El Distrito continúa expandiendo su programa de agua reciclada, logrando resultados reales en conservación y sostenibilidad a largo plazo.

Conocida como "tubería morada" para diferenciarla del suministro de agua regular y es un color universal para los sistemas de agua reciclada.

4,093,834
Galones de Agua Conservados

Suficiente Para Suministrar:
125–140 Hogares por un Año

2x Más Ahorro de Agua Planeado Para 2026

Nuevos Requisitos de California

Para Dispositivos de Retroceso de un Solo Checador

A partir del 1 de julio de 2024, California adoptó una nueva política de seguridad para proteger mejor el agua potable pública. Según esta política actualizada, las válvulas de un solo checador —dispositivos antiguos diseñados para ayudar a evitar que el agua contaminada regrese al suministro de agua limpia— ya no se consideran lo suficientemente seguras cuando existe un riesgo de conexión cruzada. **Como resultado, los clientes con estos dispositivos podrían verse obligados a actualizar a un conjunto aprobado de prevención de retroceso que proporcione un mayor nivel de protección.**

Estas mejoras forman parte de un esfuerzo a nivel estatal para fortalecer la protección del agua potable y garantizar estándares de seguridad consistentes para todas las comunidades.

El Distrito evaluará las conexiones de servicio al cliente para confirmar que se hayan implementado las salvaguardas adecuadas según el nivel de riesgo potencial. En la mayoría de los casos, esto significa reemplazar los dispositivos de un solo checador por:

- **Conjunto de Válvula de Doble Chequeo (DC)**
- **Conjunto de Válvula de Principio de Presión Reducida (RP)**
- **Separación de Aire Aprobada** *(Según las Condiciones del Sitio)*

Una vez actualizados, todos los ensamblajes de prevención de reflujo deben ser probados anualmente por un inspector certificado y mantenerse adecuadamente.

Un dispositivo de prevención de retroceso evita que el agua fluya en sentido contrario al sistema público, protegiendo el agua potable de posibles contaminantes.

Más Información

Por favor visita:
lapuentewater.com/your-water/cross-connection

112 N. 1st Street
La Puente, California 91744

(626) 330-2126 @lapuentewater lapuentewater.com

The La Puente Valley County Water District was formed in August 1924. In its infancy, most of the water produced from the District's Wellfield was delivered to meet the valley's agricultural irrigation needs. To this day, the District's Wellfield continues to be the District's main source of water supply.

Today the District is governed by a five-member Board of Directors elected at large from its' service area and provides potable water to approximately 9,000 consumers through 2,500 service connections in portions of the cities of La Puente and Industry.

Board Meetings (Reuniones De La Junta Directiva)

2nd and 4th Monday at 4:30 p.m. (2° y 4° lunes a las 4:30 p.m.)
112 N. 1st Street, La Puente

Office Hours (Horario de Oficina)

Monday — Thursday (lunes a jueves): 7:00 a.m. to 4:30 p.m.
Alternate Fridays (viernes): 7:00 a.m. to 3:30 p.m.
